PORSCHE

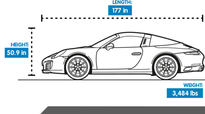
TOP OF THE LINE FOR THE PLAYROOM:

The new Porsche 911 Targe 4S from PLAMOBIL
Like out a big dream on the small scale! For the second time, PLAYMOBIL designers have created a miniature of an iconic Porsche sports car. With the Porsche 911 Targa 4S, the latest generation of the luxury eleven-series cars is unveiled in PLAYMOBIL format!

SLEEK AND TIMELESS

The Porsche 911 Targe

A legendary 911, a classic, a sports car dream - "the Targa" has always ranked among the elite at Porsche. 50 years ago, the Targa was designed as a top-notch safety sports car and was morphed into a icon thanks to its character-defining design. With the new fully-automatic roof system of the 7th generation, the Targa was further perfected.



Since 1965, the iconic 911 models with the removable middle roof are called "Targa." A characteristic is the solid, safe frame with the "Targa" writing.

TARGA'S LITTLE BROTHER

The PLAYMOBIL Porsche 911 Targa 4S, is also true to its lifesize counterpart at a scale of approximately 1:20. The construction drawings of the real 911 served as the model for the miniature!

LEGENDARY TARGA ROOF

The new Porsche 911 Targa 4S from PLAYMOBIL is not only equipped with the sharpened rear design and innovative light features, but also with the typical, legendary Targa roof. The set is completed by a showroom including furniture.

ORIGIN

The Targa - The Shield

The word "Targa" is Italian for shield. It has become known through the Targa Florio, a famous long-distance race that took place from 1906 till 1977 in Sicily.

From 0 to 100
The Porsche 911 Targa 4S can accelerate from 0 to 60 mph in **4,2 seconds!**

4,2 sec

Top speed: 188 mph
Cubic capacity: 181 in³
Performance: 420 hp
Air drag: 0.30 Cd

Despite being 420 horsepowers less - the PLAYMOBIL Porsche loves high speeds, too.*

*Fuel consumption: 3 x AAA batteries (light effects)

Faster than a bird……
A hummingbird flaps its wings 3000 times per minute. The turbocharger of the new Porsche 911 Targa 4S turns 200,000 times per minute - and is still not flying.

ENERGY EFFICIENCY

With more than four decades of experience in turbo engines - both in racing and in sports cars - the innovative turbo engines of the new 911 series today perform better and burn less. So the latest generation of motors, depending on the model, uses almost twelve percent less energy, and the fuel consumption is declining by up to 1/4 gal/100 km.

Fuel consumption
City: 19 mpg
Highway: 28 mpg
Combined: 22 mpg
CO2 Emission Combined in g/km: 184

VERSATILE

A sports car for every circumstance

Coupe or convertible?
No problem with the PLAYMOBIL 911 Targa 4S. Just take out the middle roof and experience the feel of riding in an open sports car. Let's go for a drive!
