

CRAFT INSTRUCTIONS: MEGAPHONE

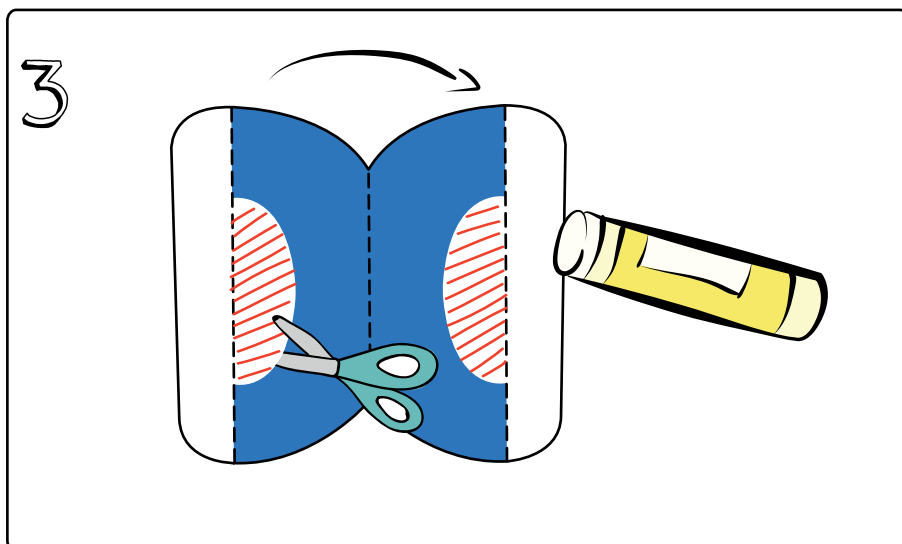

Print out 2 copies of the megaphone and 1 copy of the handle.

Then, cut out the pattern along the black lines.

Make sure not to cut the dashed lines!

The white areas need to be covered with glue. Stick the two sides of the megaphone together.

Cut out the areas marked red in the picture.

Then, glue the two handle sides together and attach them to the megaphone.

Tip: Pinch the megaphone slightly so that it retains its shape.

Have fun!
