

HOW TO MAKE AN INVITATION TO PUT IN A BOTTLE

First, gather some thick paper. Then print out the required number of invitation cards on a color printer. One sheet will have two invitation cards.

Cut off the white border along the line. You can decide how you want to cut it: straight or wavy.

You can now write all for your friends important information on the card.

Now roll the letter together and make sure that the printed side is facing outward.

Then put the invitation in a glass or plastic bowl. Your dirt bottle invitation is complete!

You can now invite all your friends to your cool pirate party!

Have fun!
Your PLAYMOBIL-Team
