

# PIRATES PARTY CONE

Place a sheet of construction paper horizontally on a table in front of you. Attach a piece of string around the pencil. Place the pencil tip at the top left corner, stretch the thread tightly to the bottom corner and hold it there with a finger. Draw a large quarter circle then cut it out.

Roll the circle together to form a cone. Then put glue on the edge with a hot glue gun, stick together and let dry.

Next, make the crepe paper cuff. For this, the crepe paper needs to be wrapped around the cone completely. Then staple the crepe paper at the top and fold up.

If you want to hide the outer adhesive, you can add some ribbon or stickers.

Decorate the cone to your heart's content and fill with your favorite treats!

The cone is ready!

**TIP**

Mini cones are a great gift for your friends at your next Pirate Party.
