

# WE ARE MAKING AN INVITATION CARD

1

First of all get thick paper. Then print out the number of invitation cards needed at a color printer. One sheet always shows the front and back sides of an invitation card.

First cut the paper along the dotted line.

2

Now write all important information for your friends on the invitation card.

Glue front and back together with a glue stick.

3

Now you can embellish the princess dress with glitter stones and glitter.

The invitation for a magical princess party is ready!

Have fun!
