

# MY SUMMER CAMP JOURNAL

1

Print out the two sheets of the camping journal with a color printer.

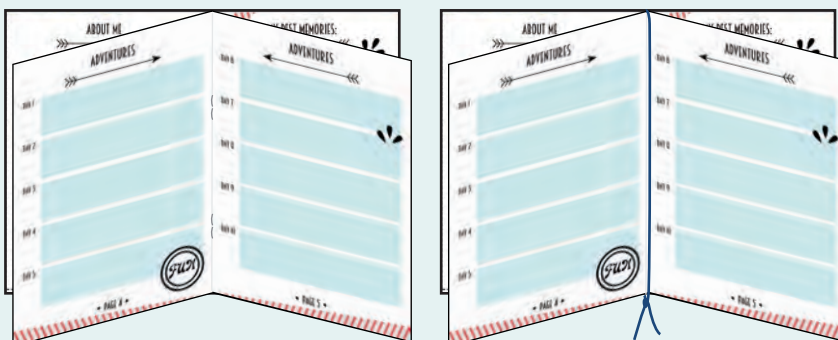

First, cut off the white frame of the sheet along the dotted lines.

2

Fold the sheets in the center of the black line. Afterwards glue together the white insides.

3

Now you can staple or tie the pages together.

Pay attention to the correct sequence of pages. Now, you can make entries in your personal camping journal.

Have Fun!
