

Who stopps Dr. Drone ?

The world is in a state of emergency. The invincible drones of the power-obsessed Dr. Drone appeared simultaneously out of nowhere in all the great cities.

The drones are spreading fear and terror. Government and police are long gone and the world is sinking into chaos.

Nobody knows exactly what is behind the invasion of the flying combat machines, or what the mysterious Dr. Drone is up to ...

And no one seems to stand up against the endless attacks of the bad guys ... is there really nobody?!?

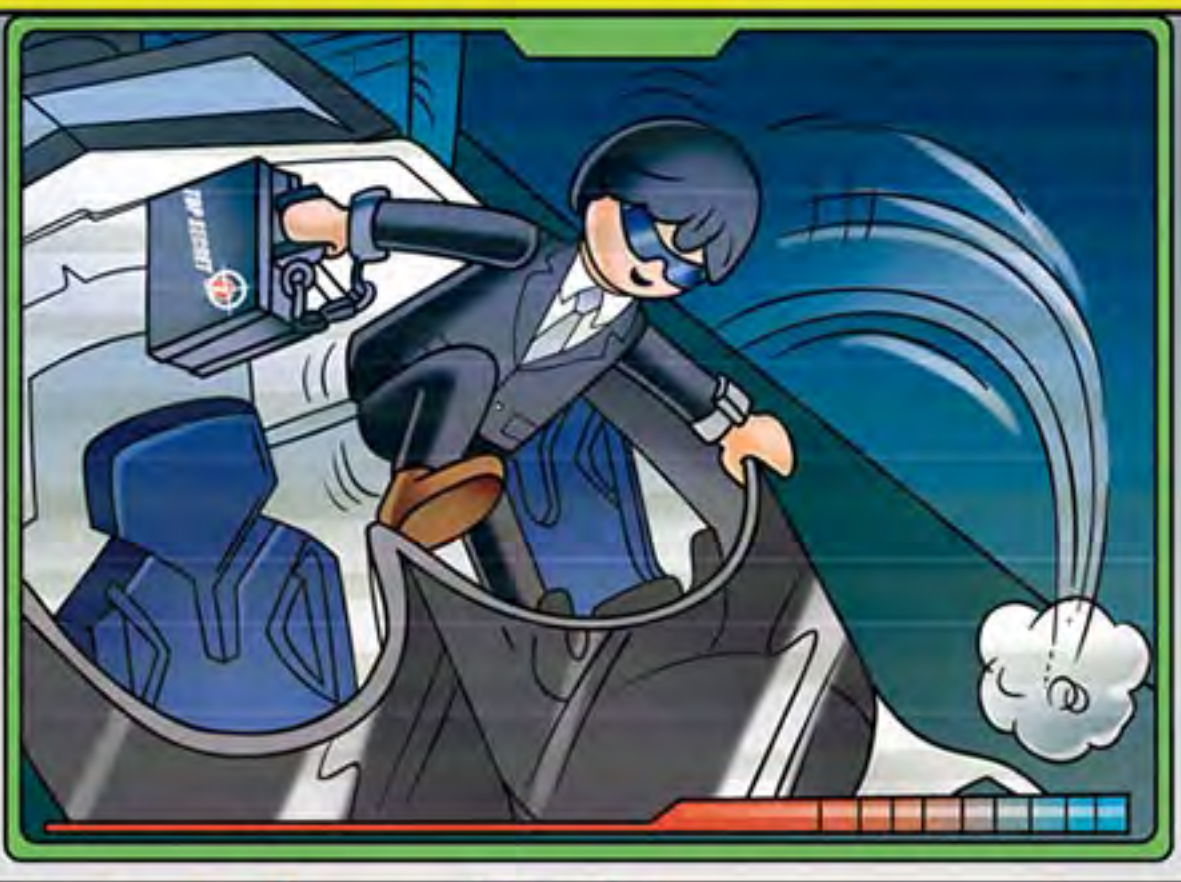

Only the legendary Spy Team, which has often saved the world from the imminent demise, could still help, but no one knows where this elite group is located ...

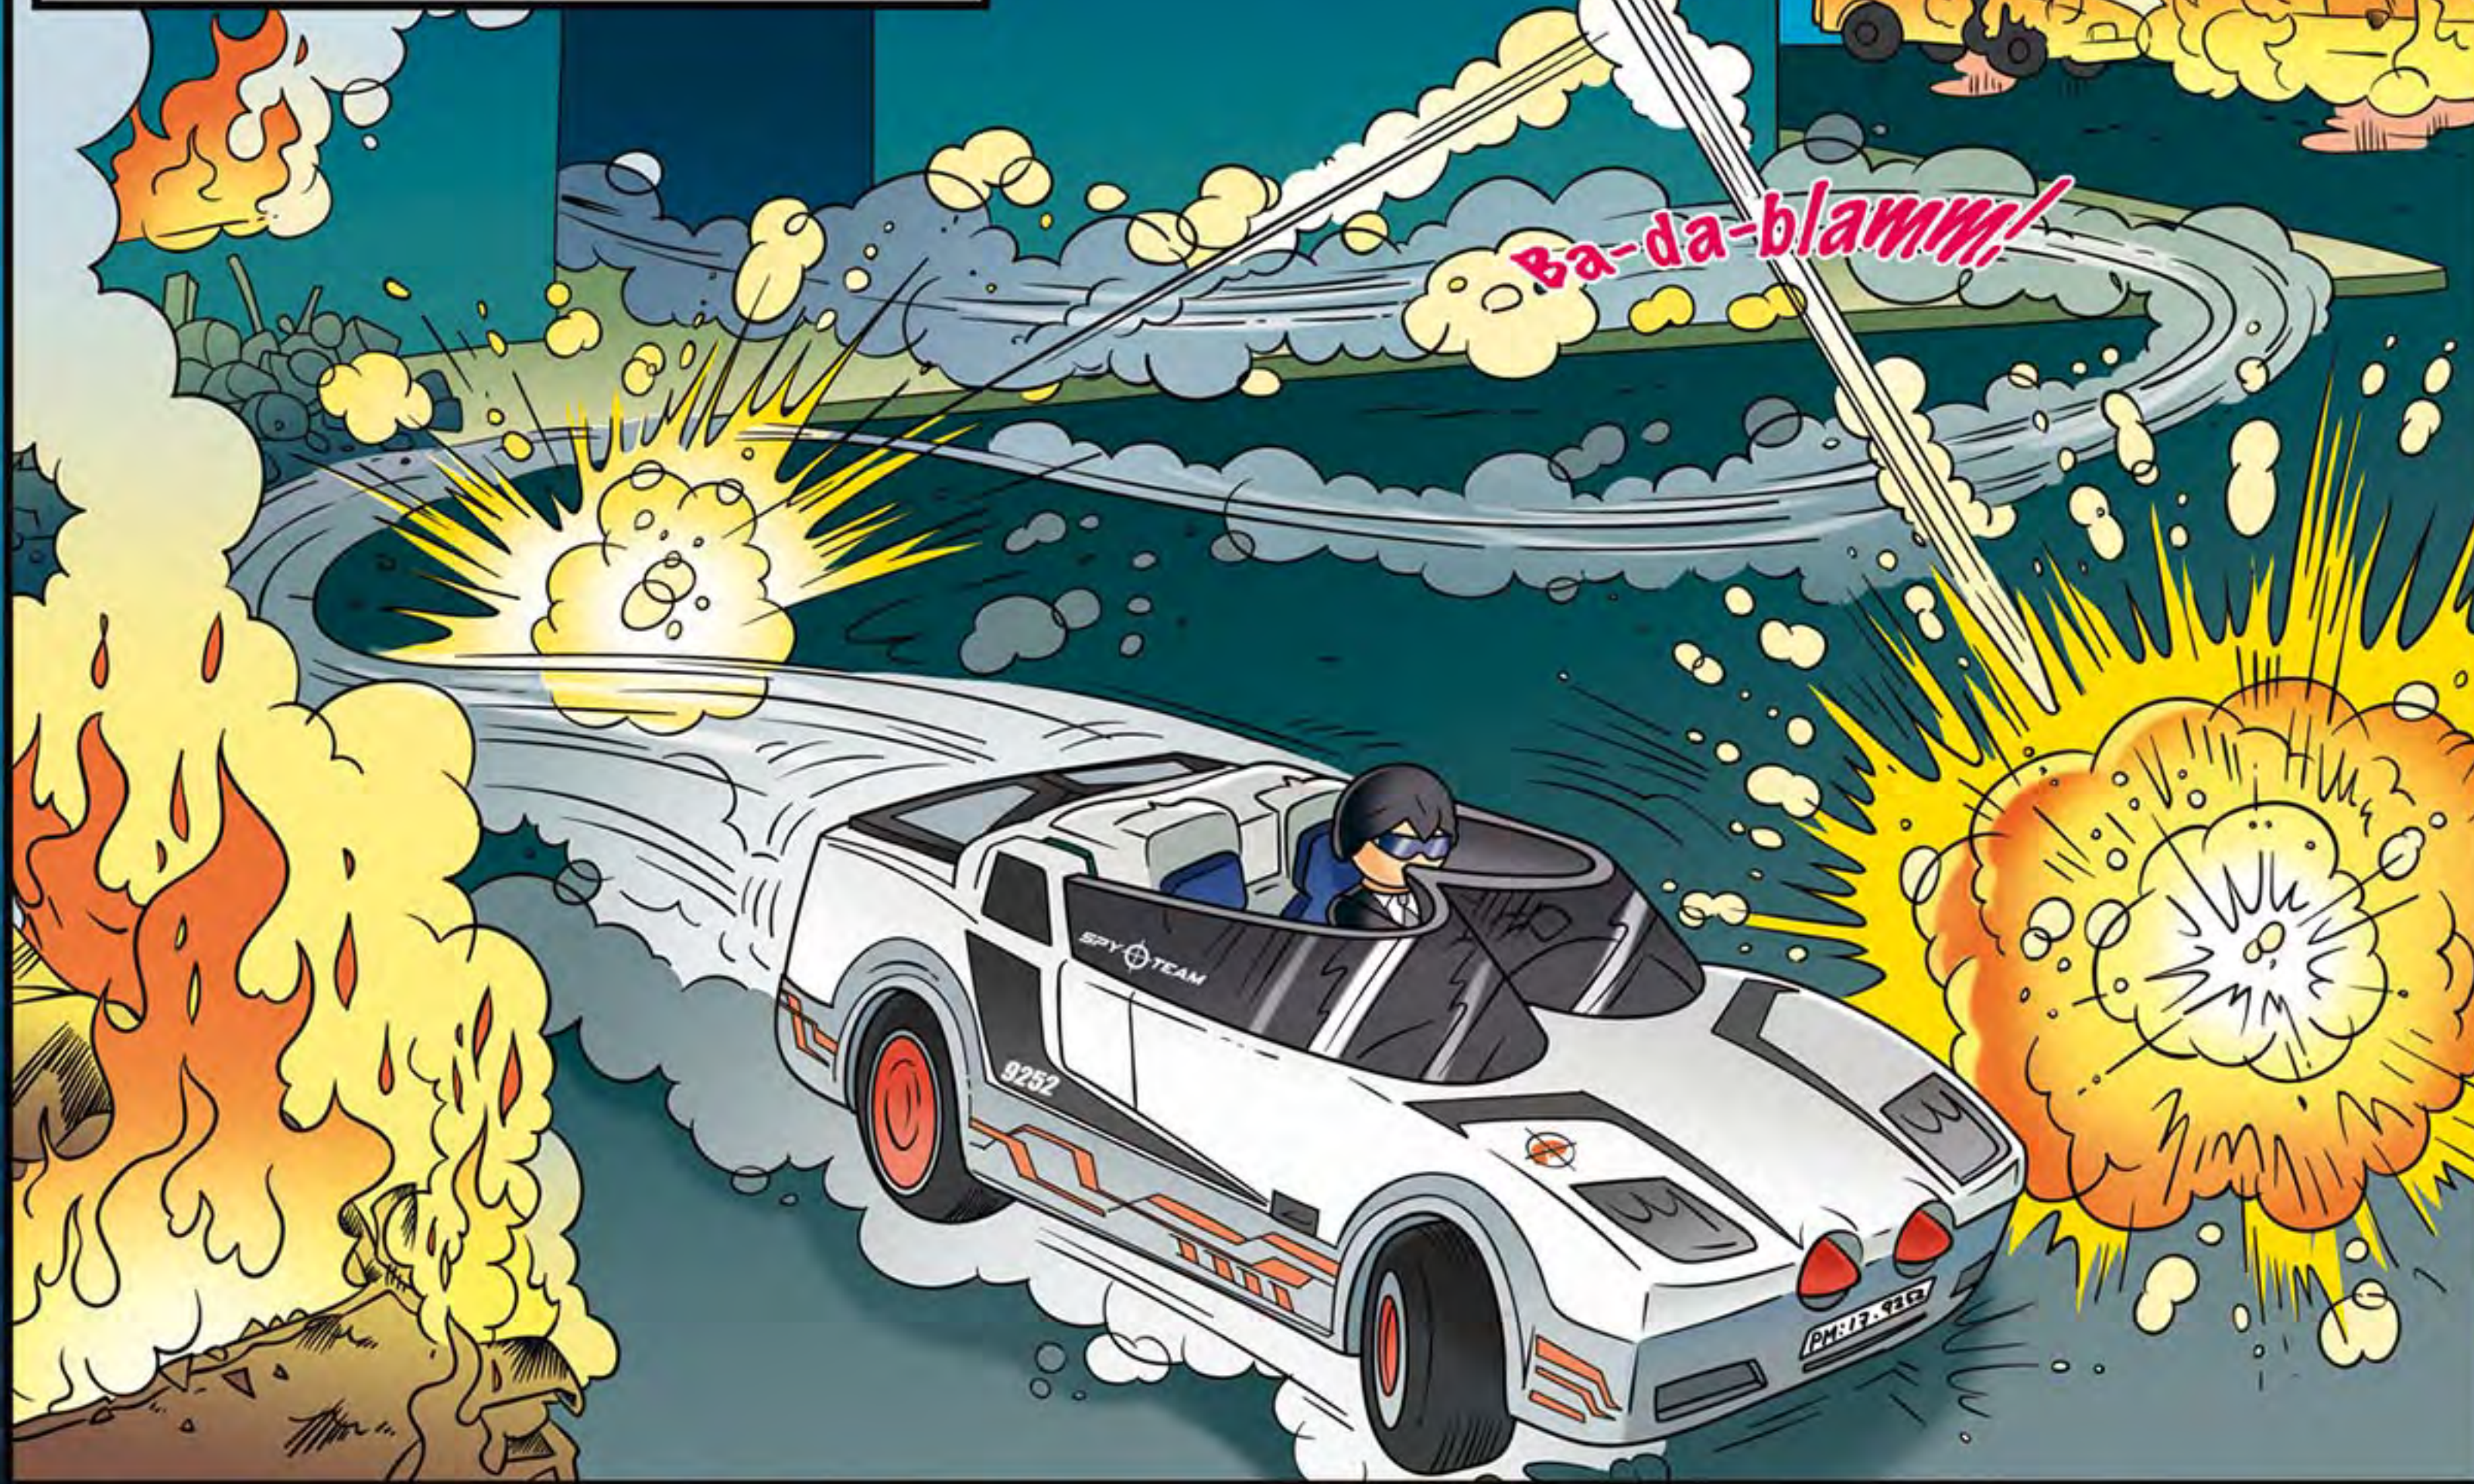

Suddenly, Agent P. appears in the middle of the battle scene. He's one of the Spy Team's best agents, and he has a very secret delivery to make.

He has gathered secret information from the world's central computers and is to take it to a safe place ...

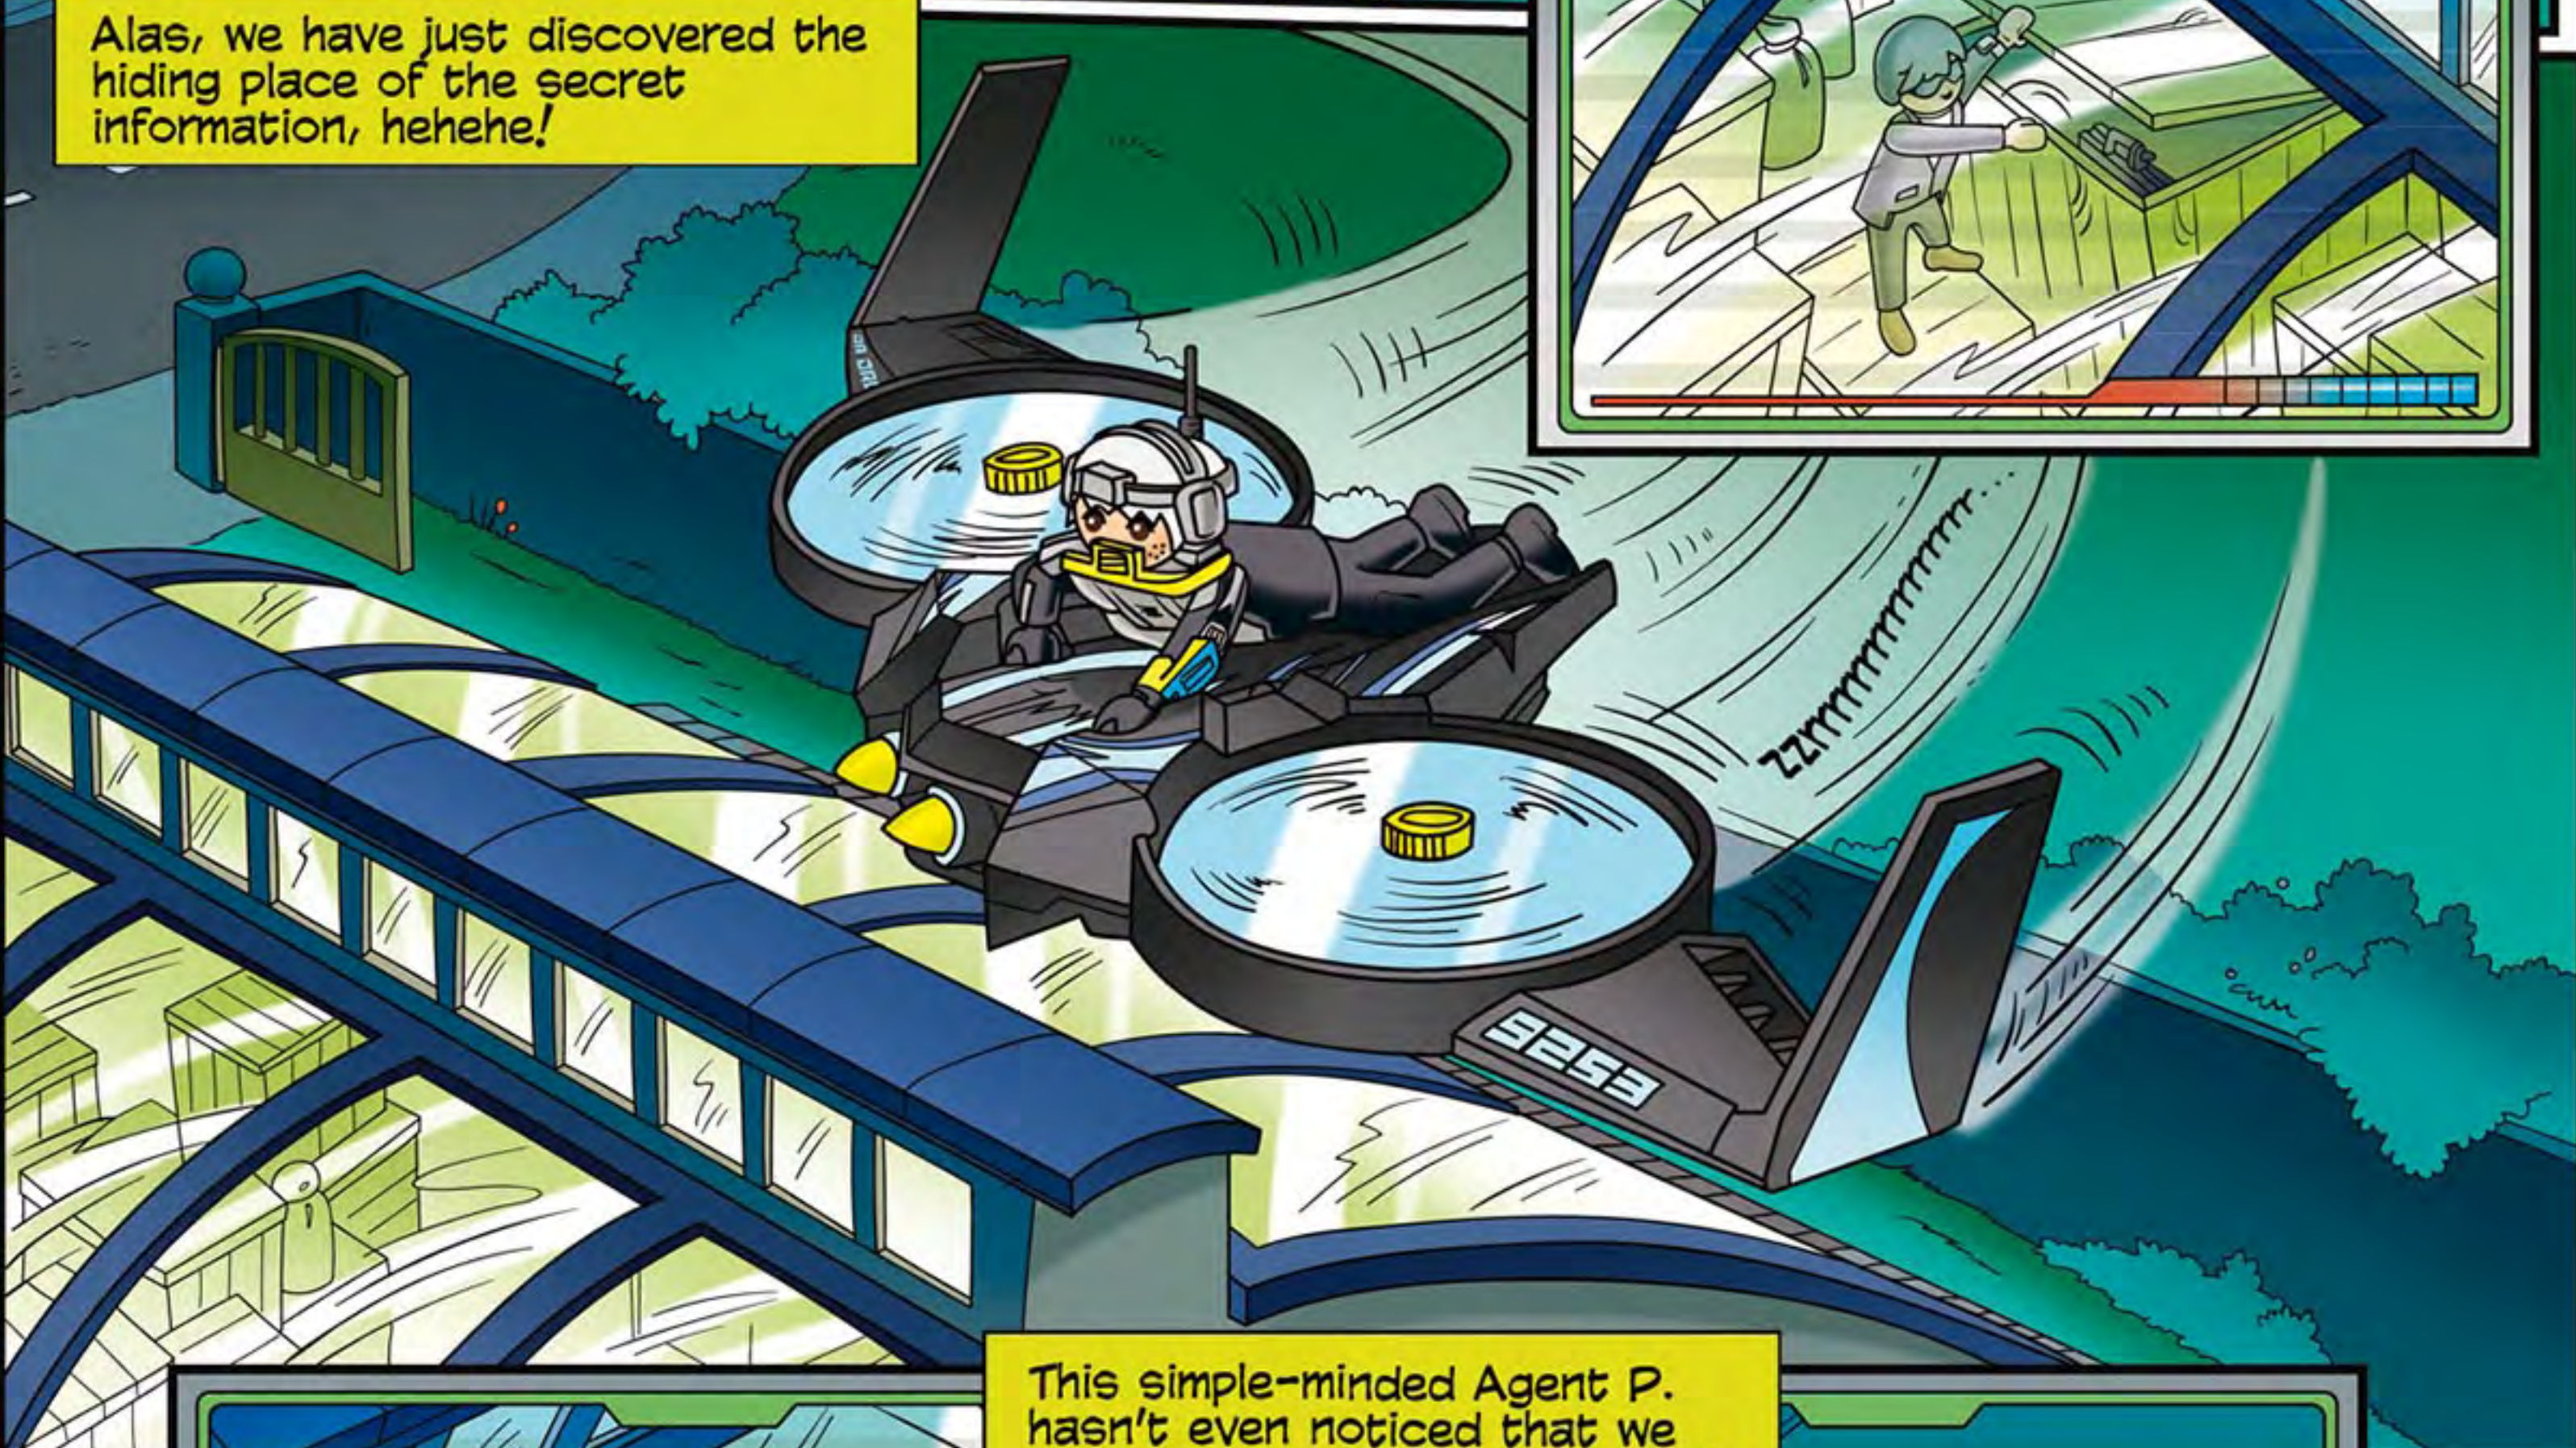

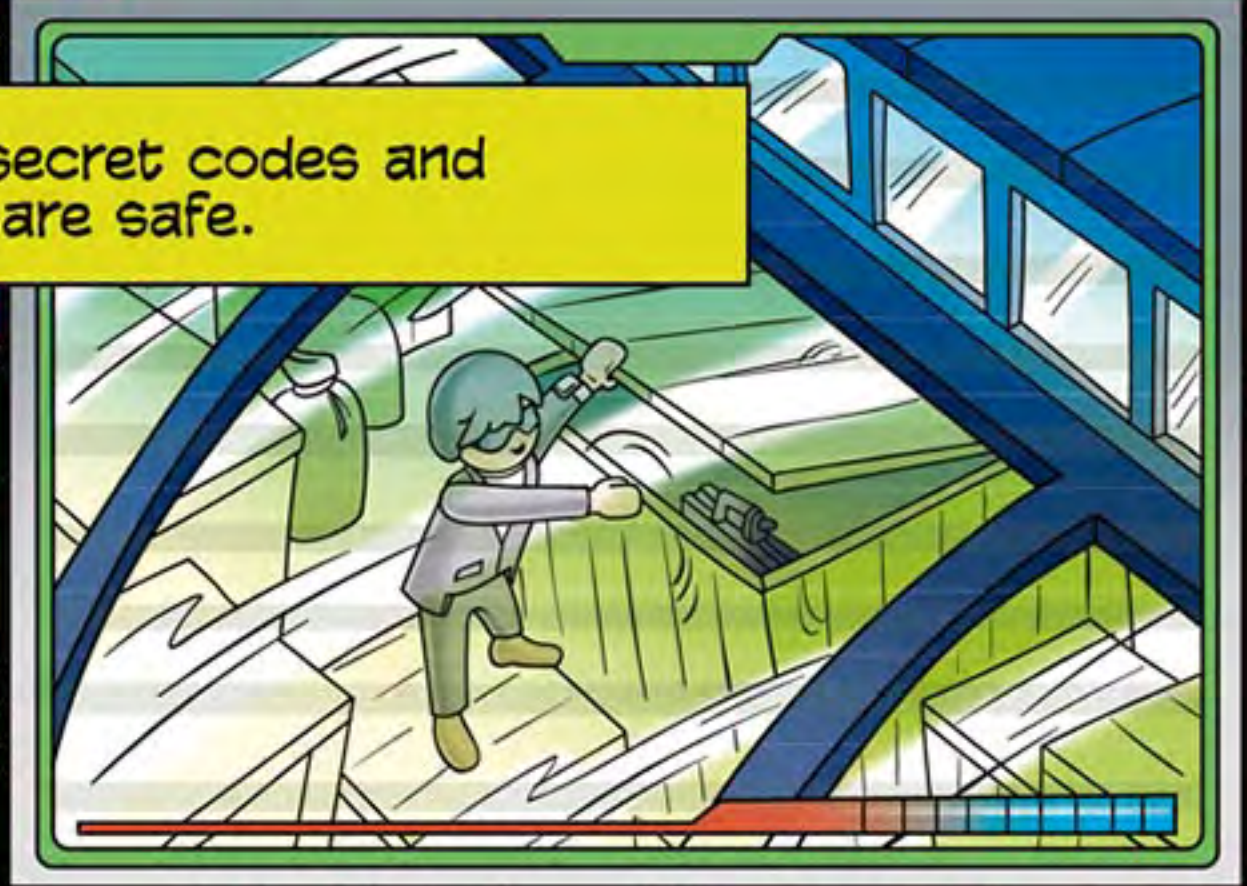

Fortunately, the nasty drones are no match for Agent P.'s nimble Spy Racer.

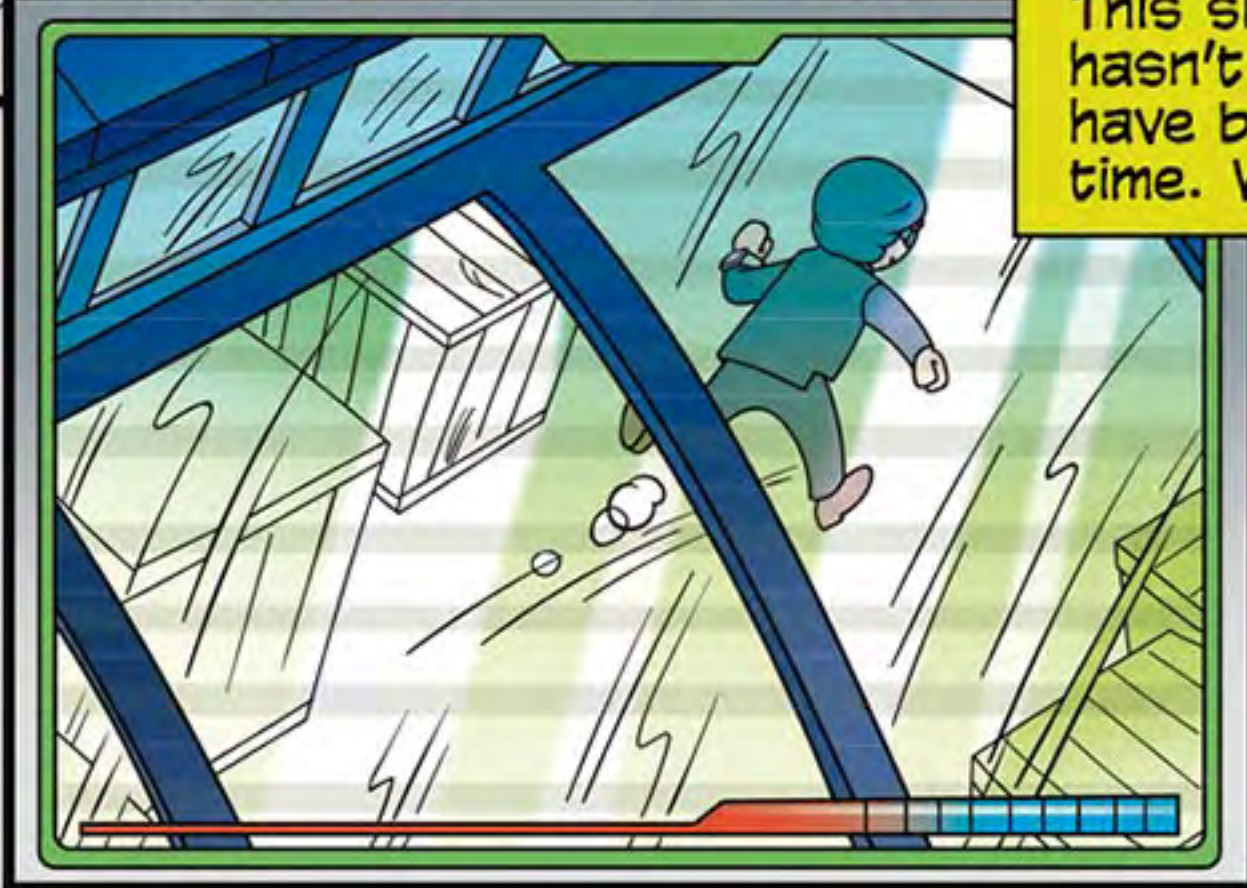

Done! The secret codes and information are safe.

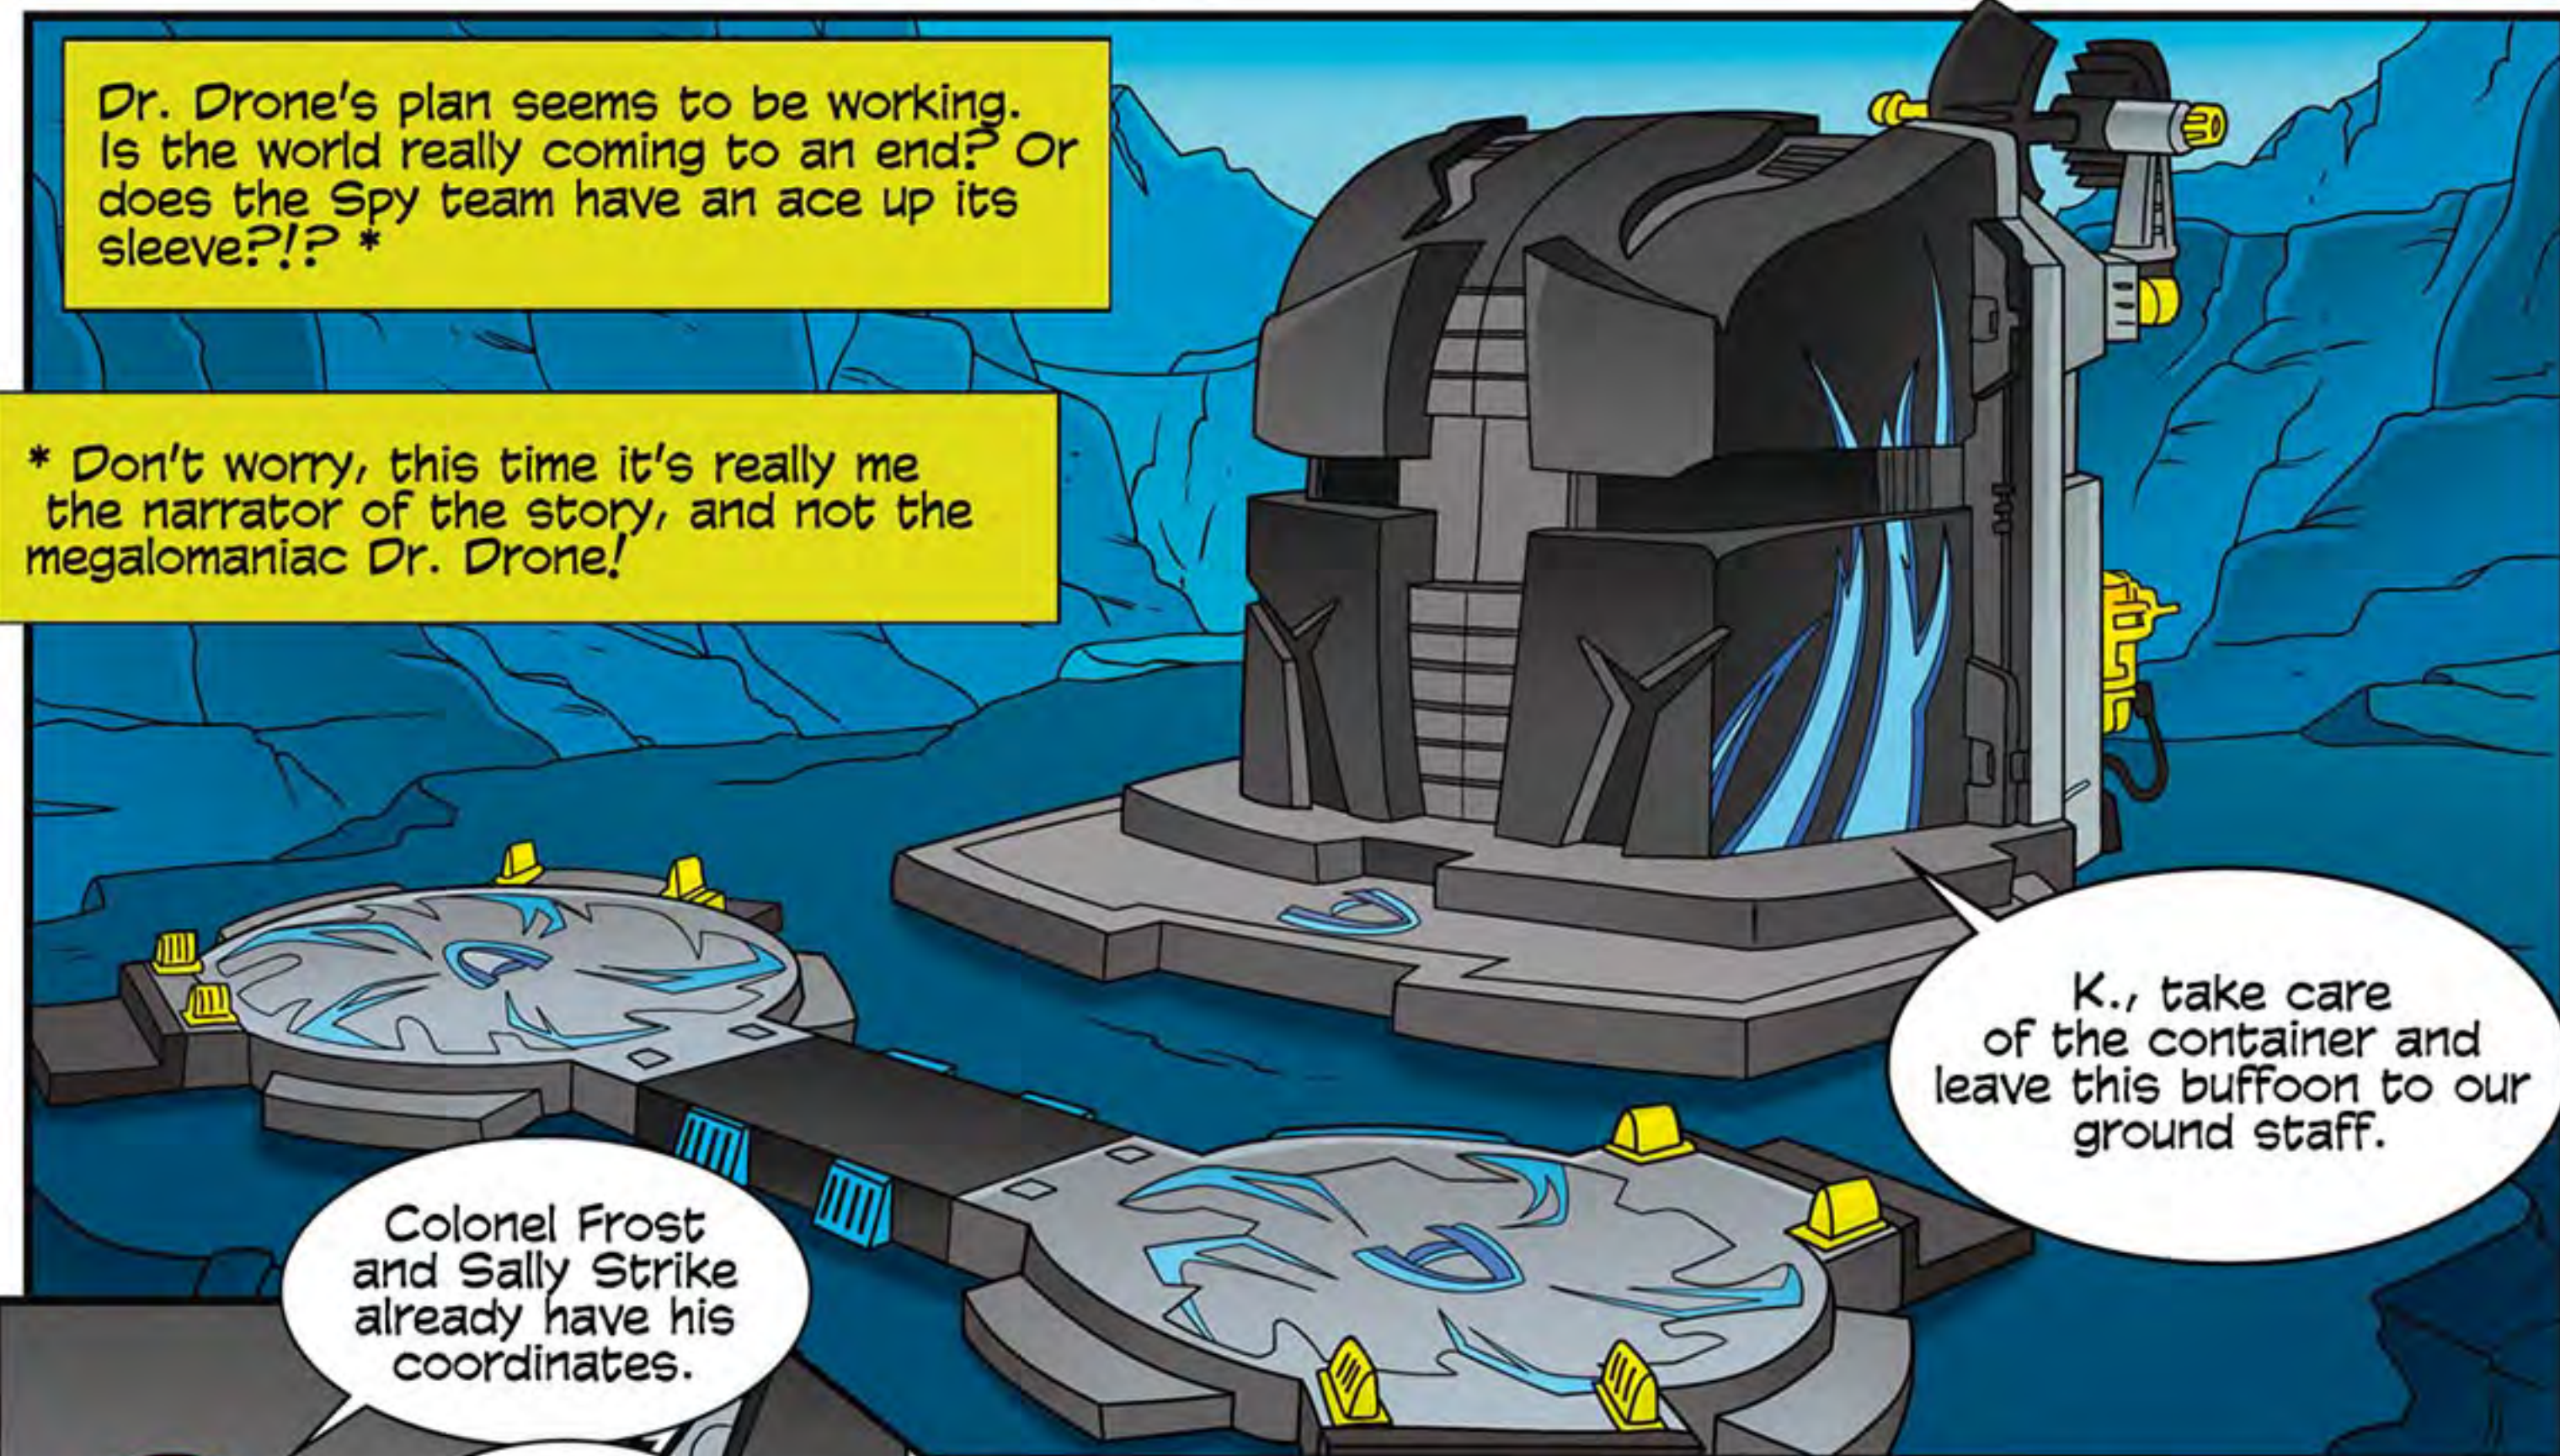

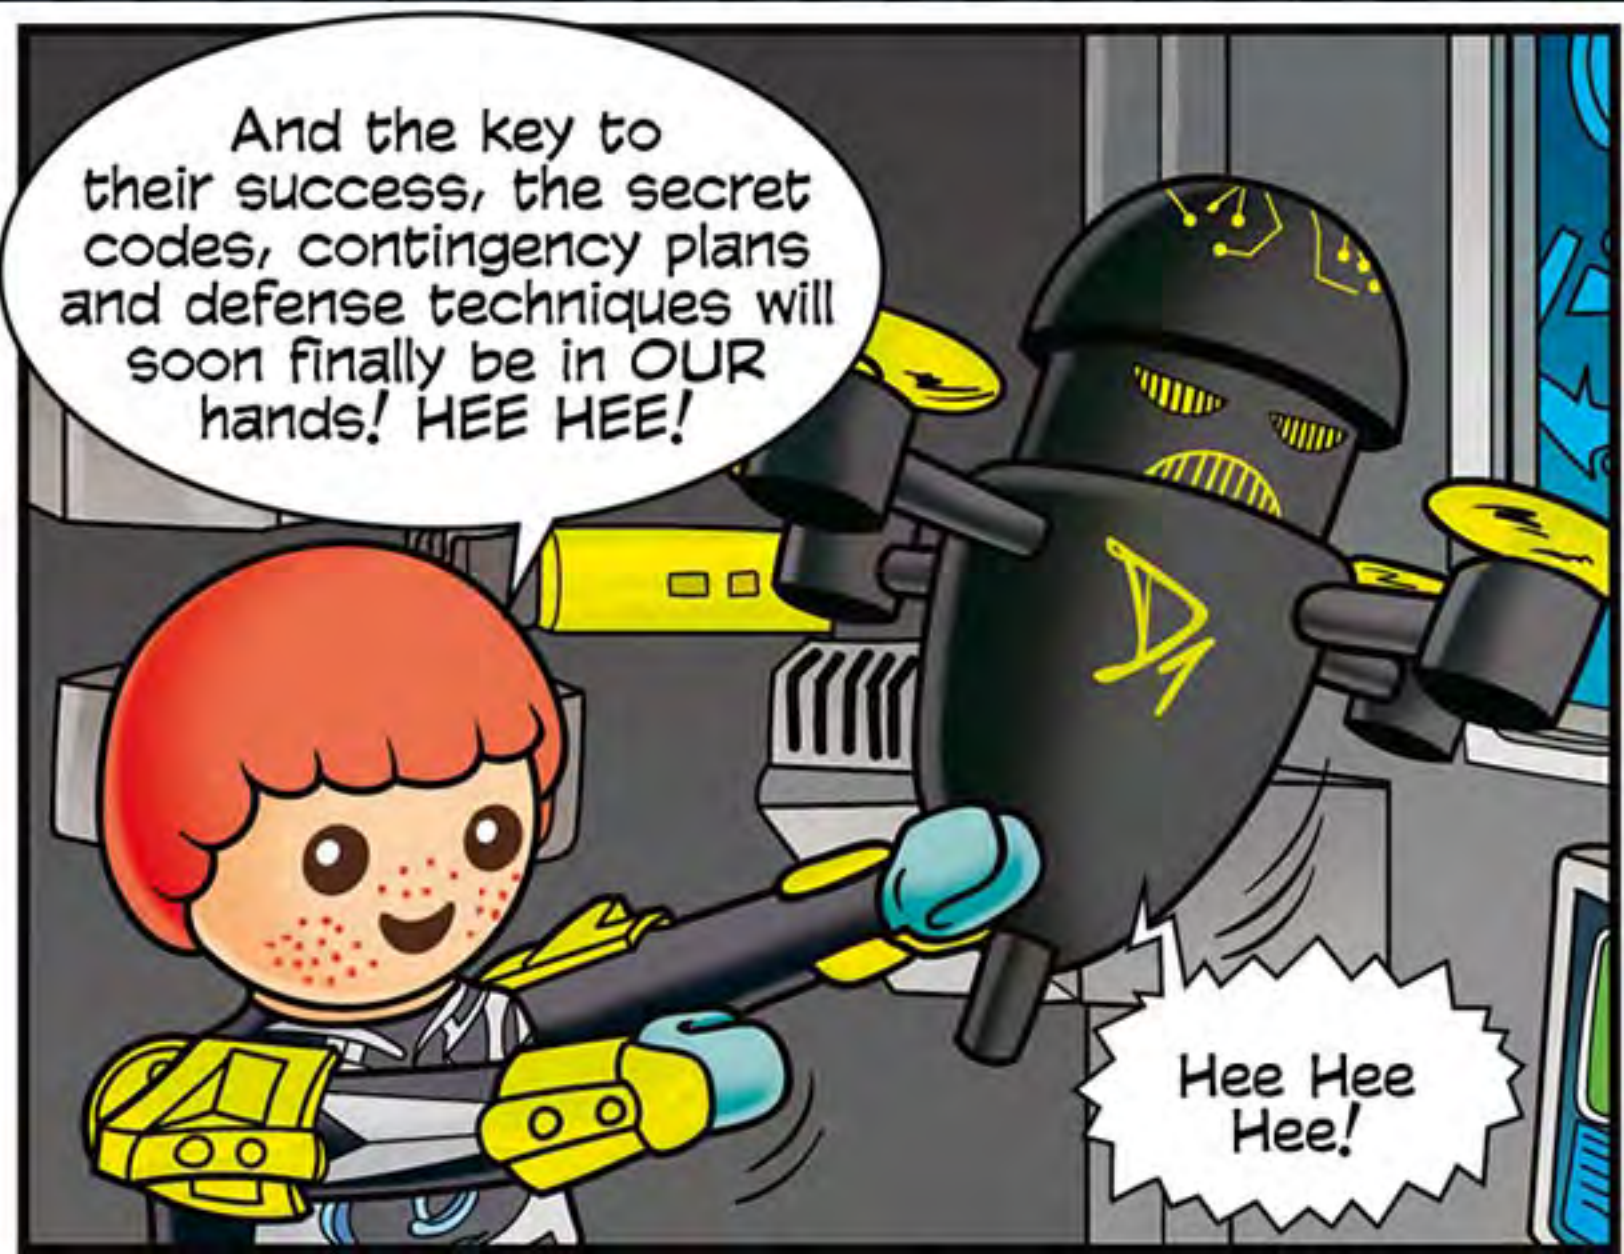

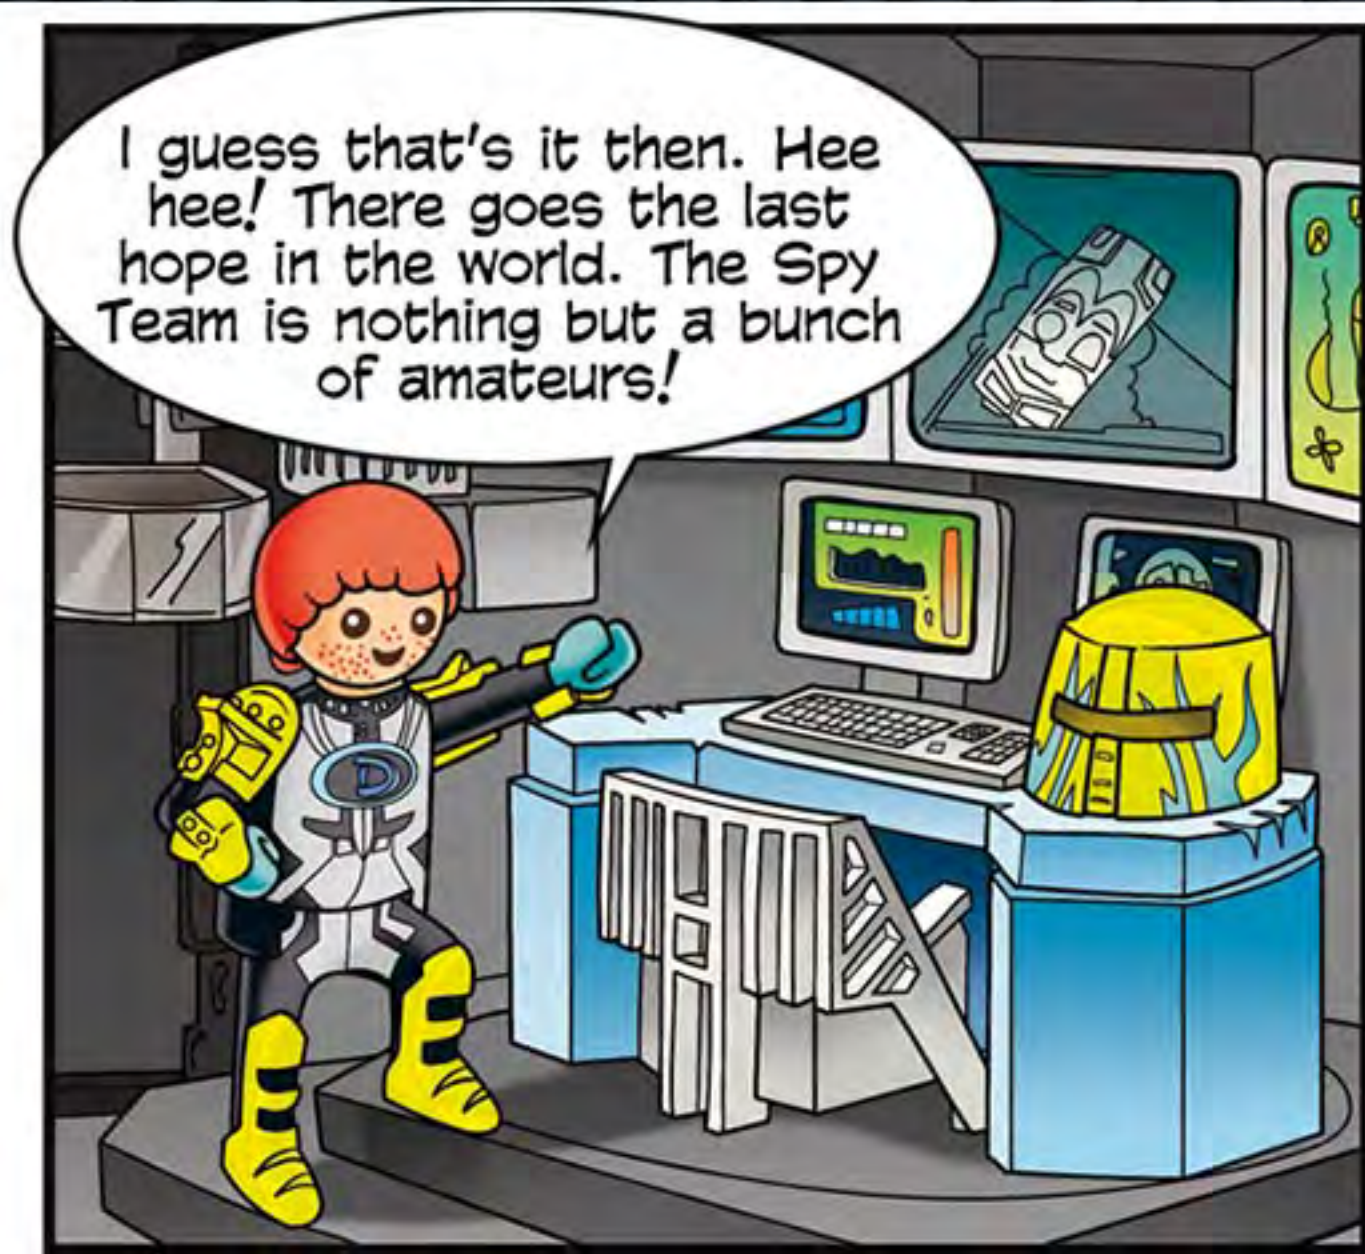

Alas, we have just discovered the hiding place of the secret information, hehehe!

This simple-minded Agent P. hasn't even noticed that we have been monitoring him all the time. Well done, Sergeant K.!

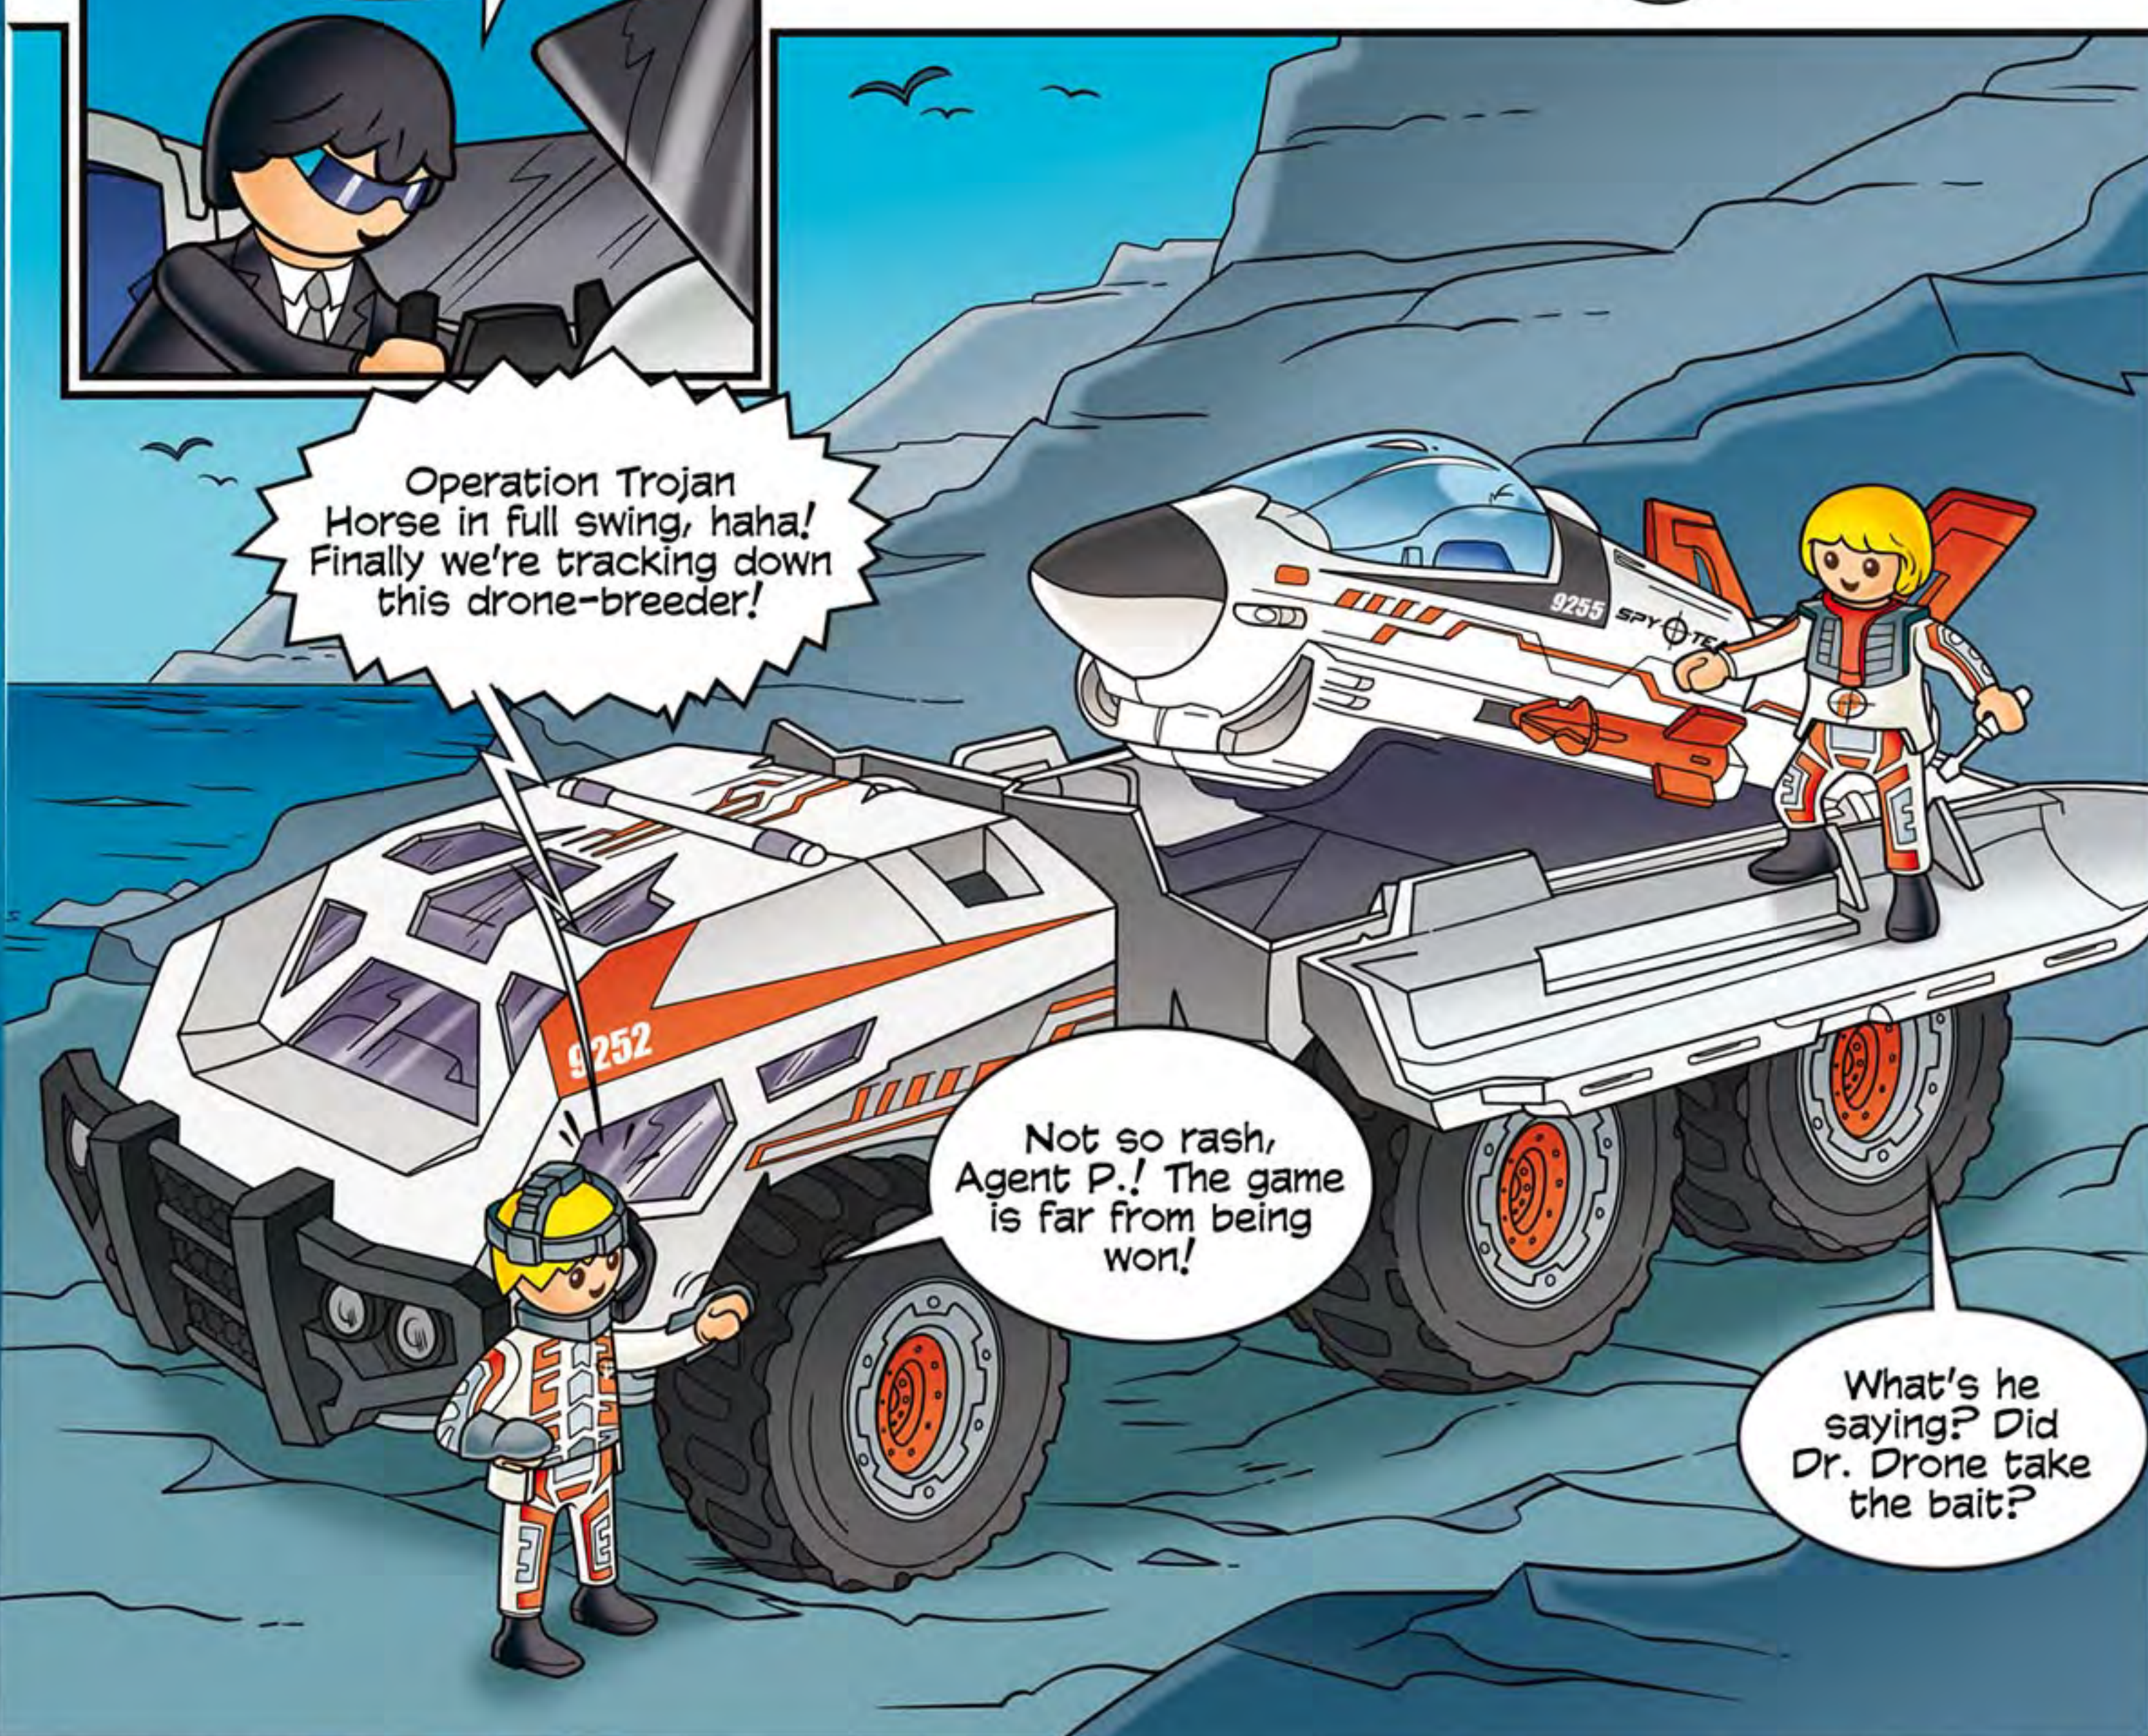

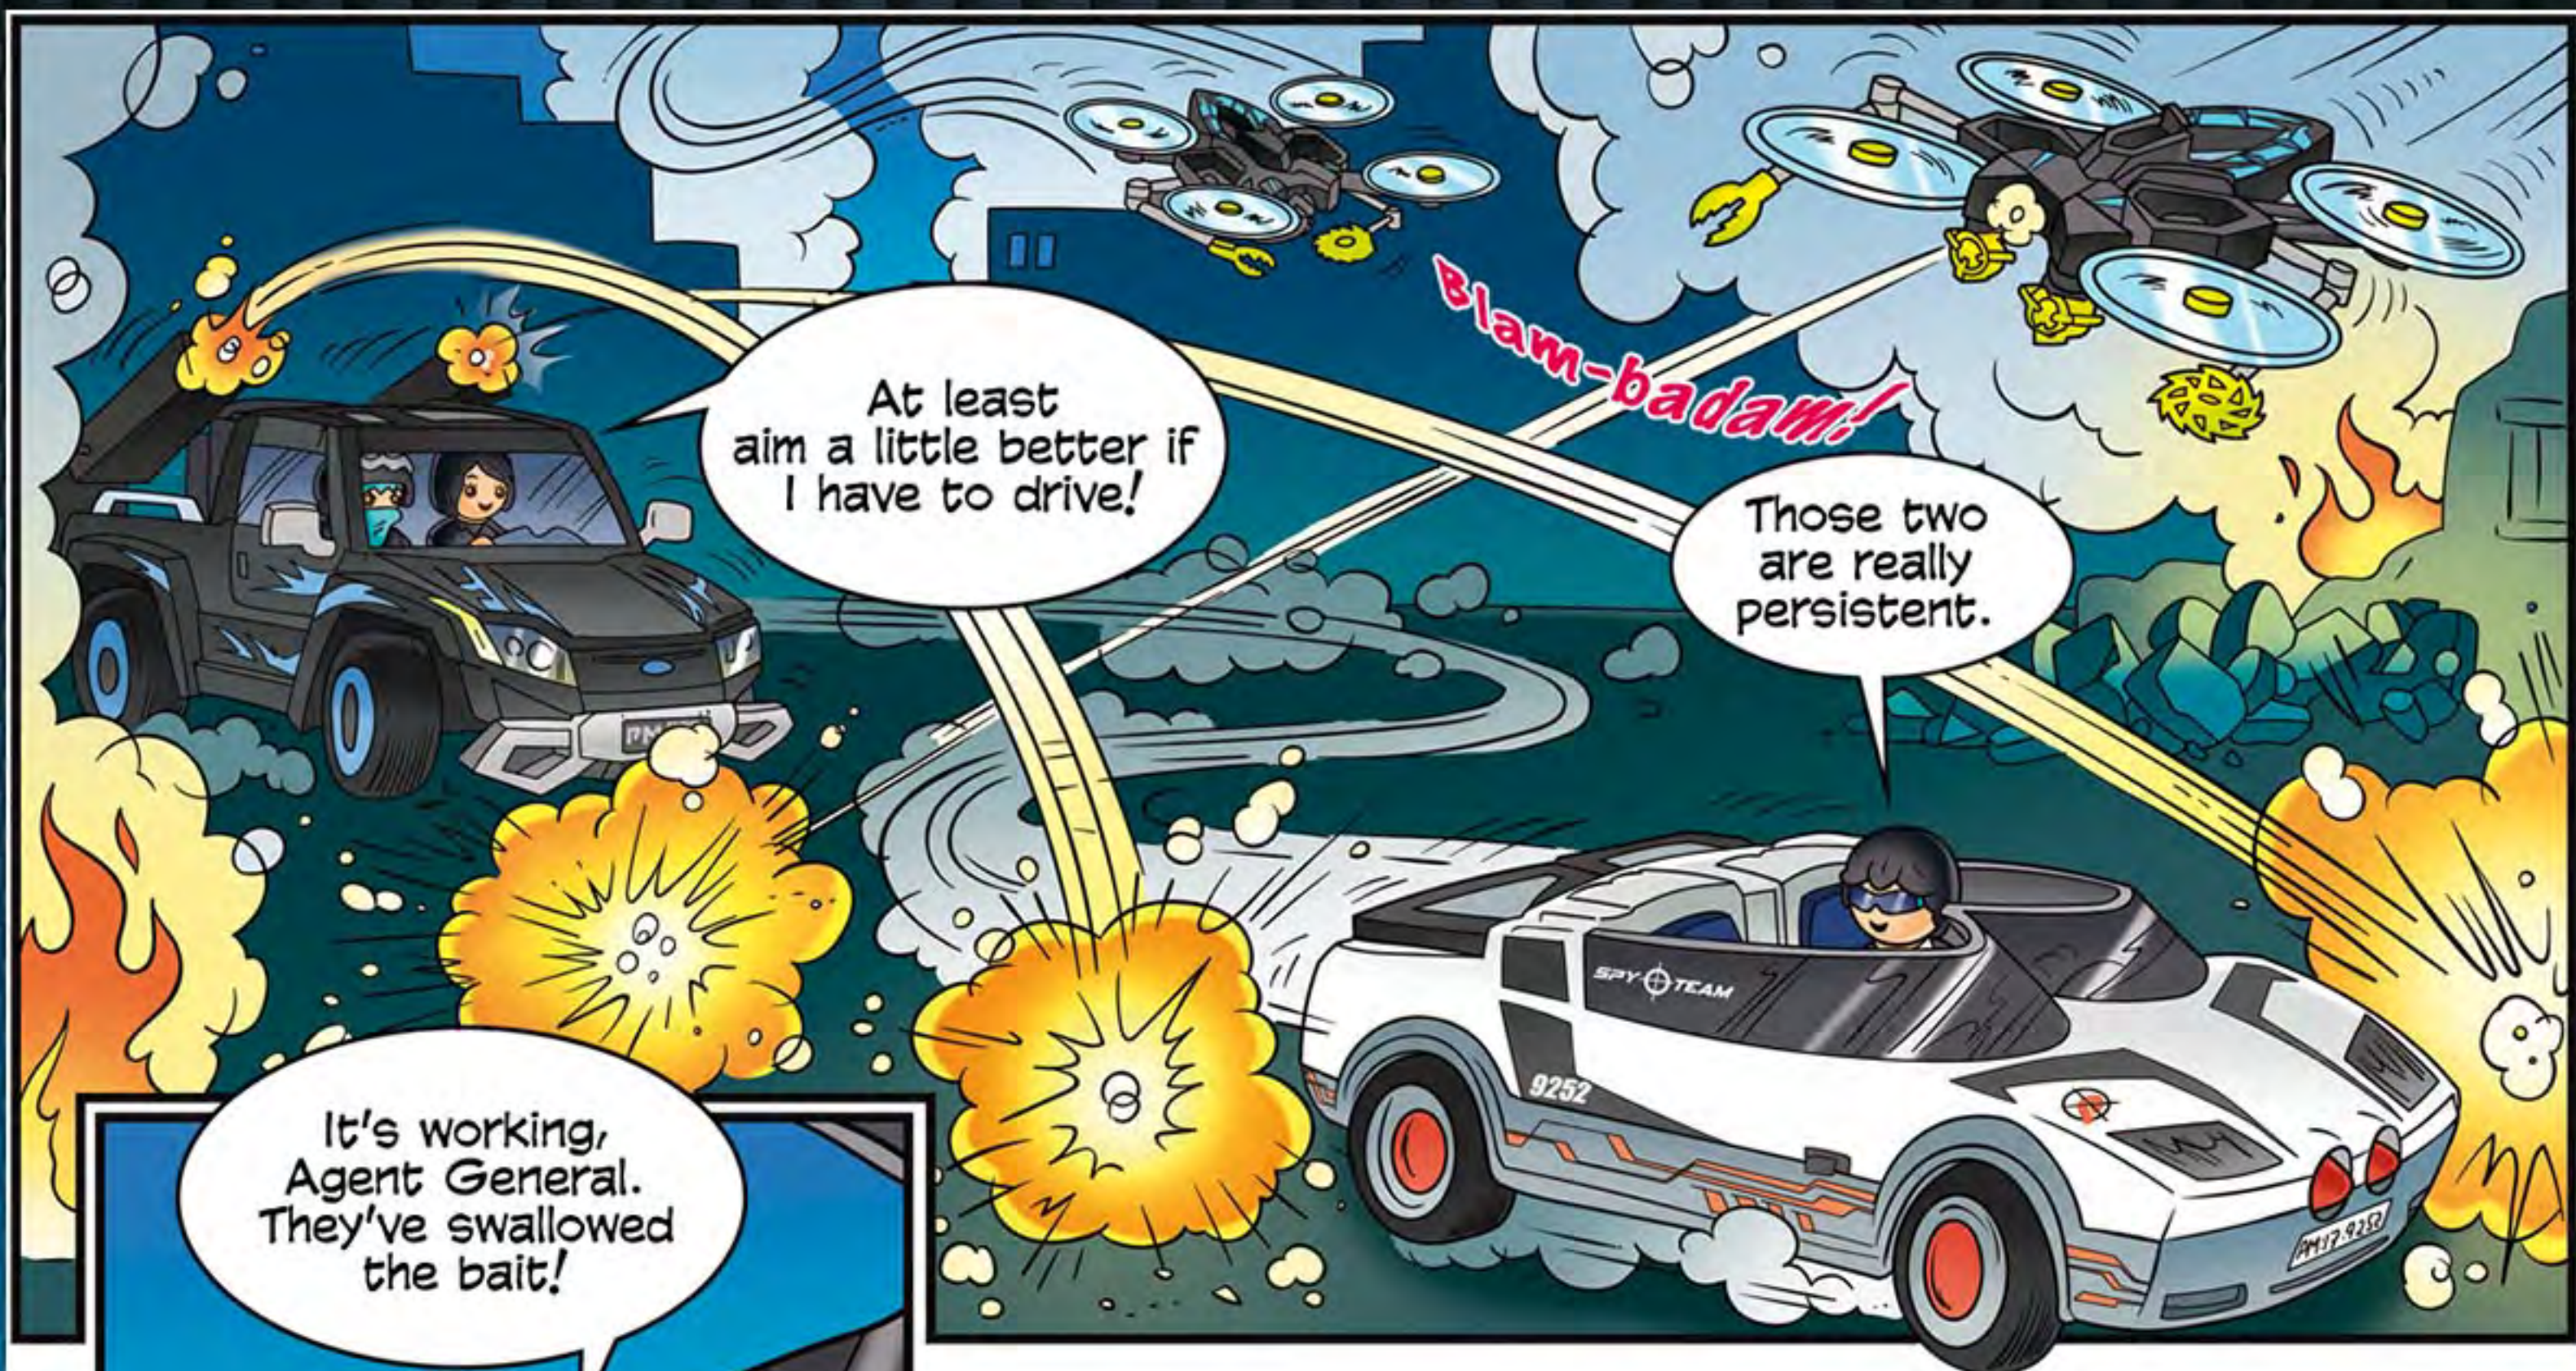

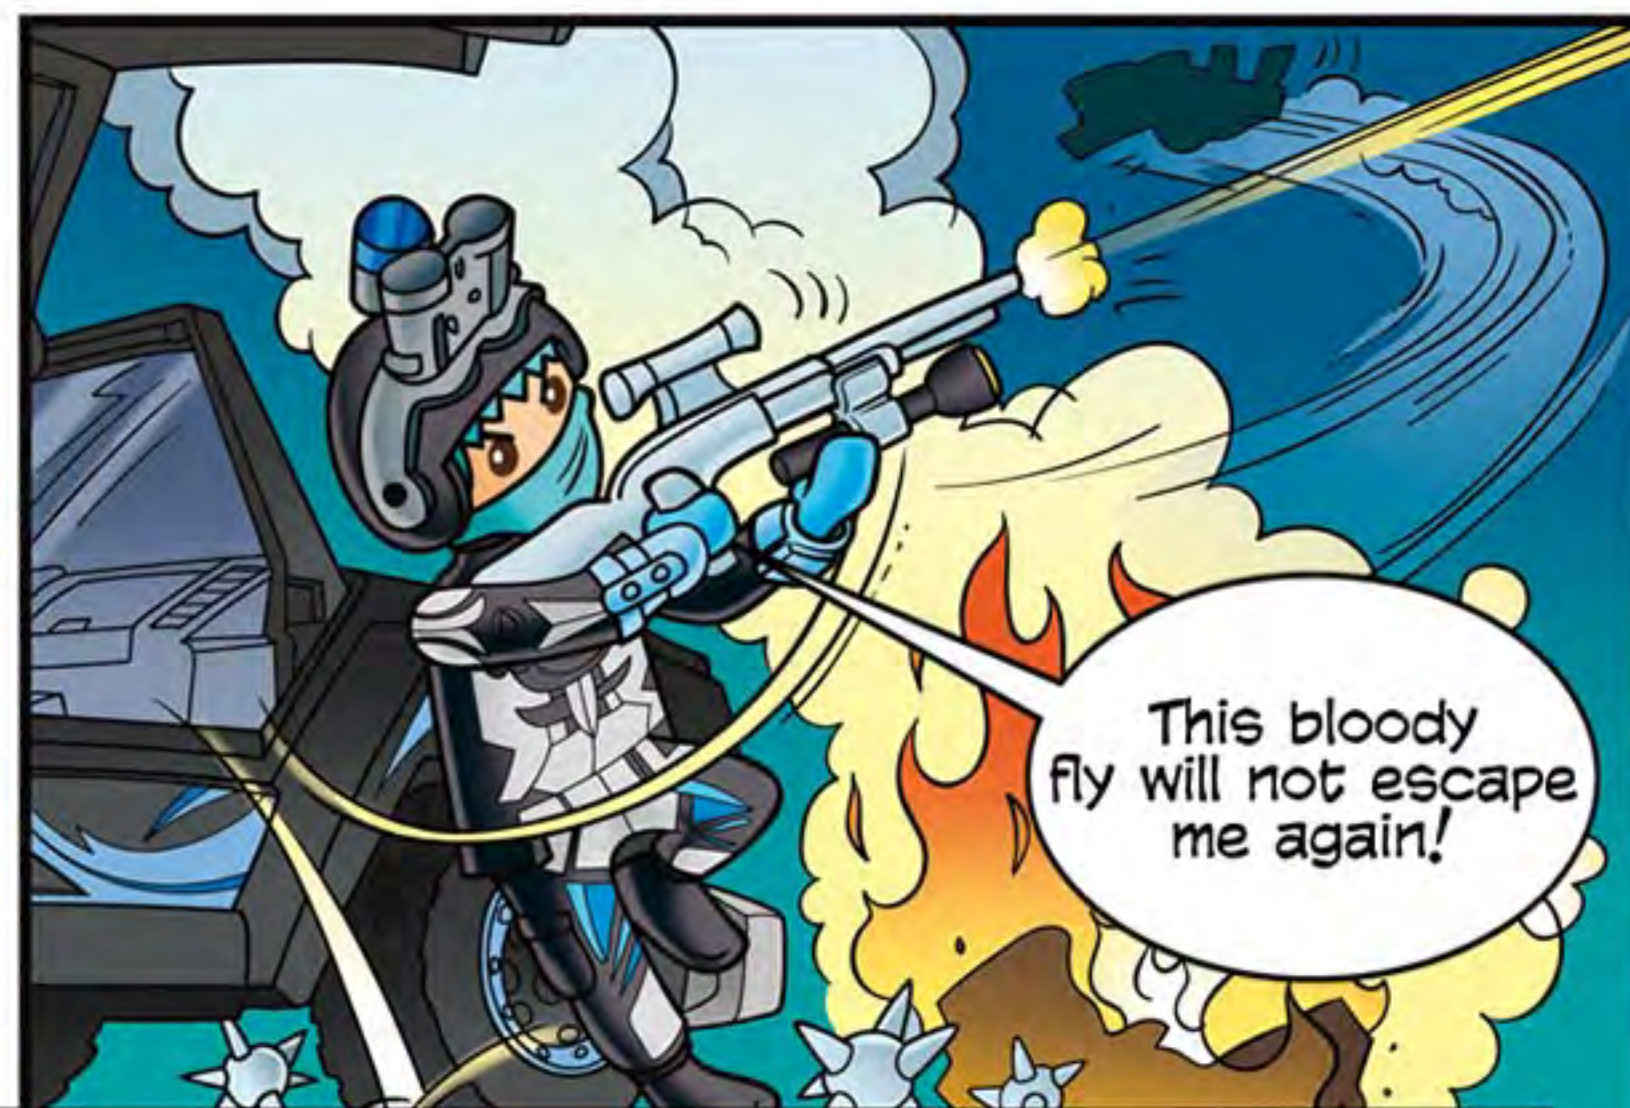

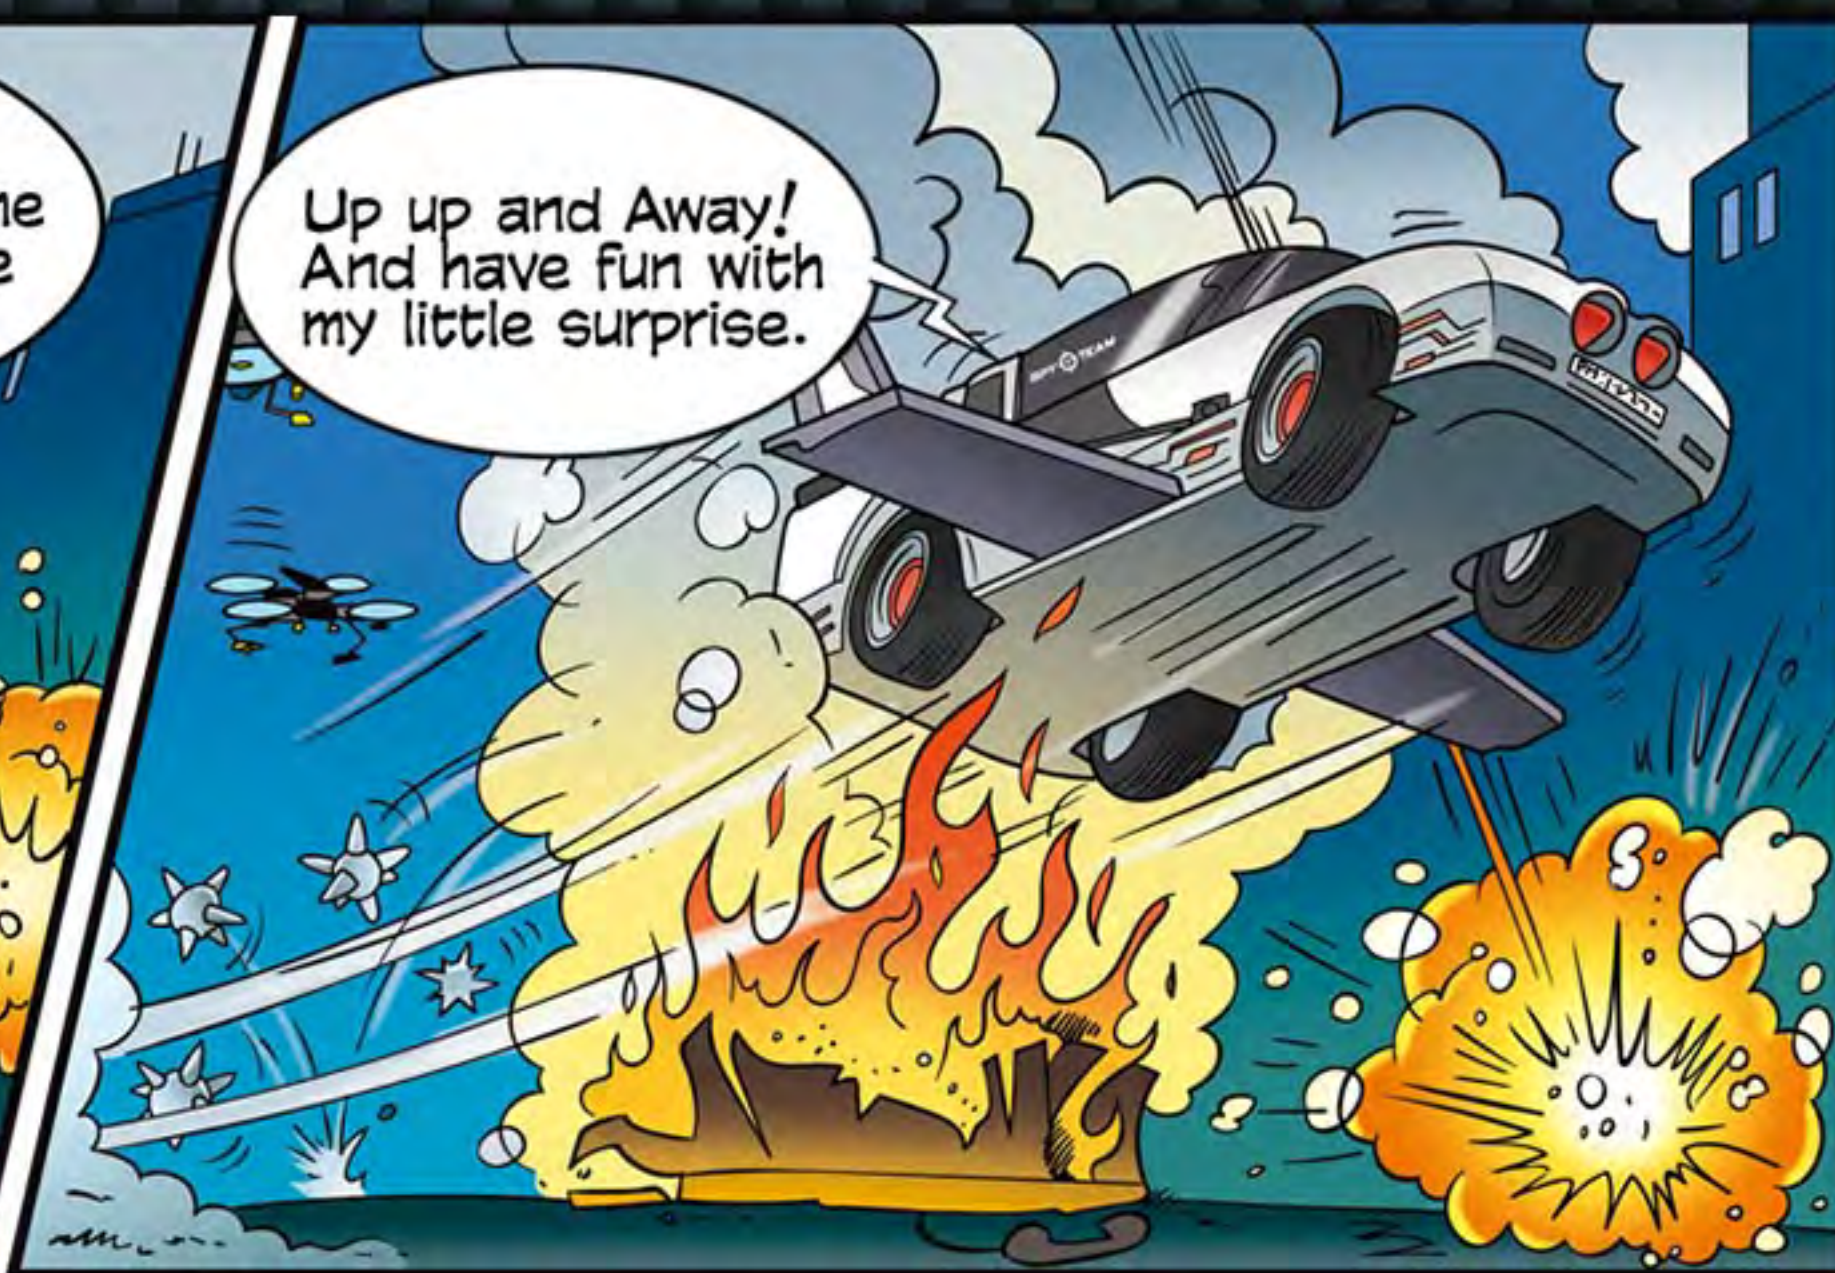

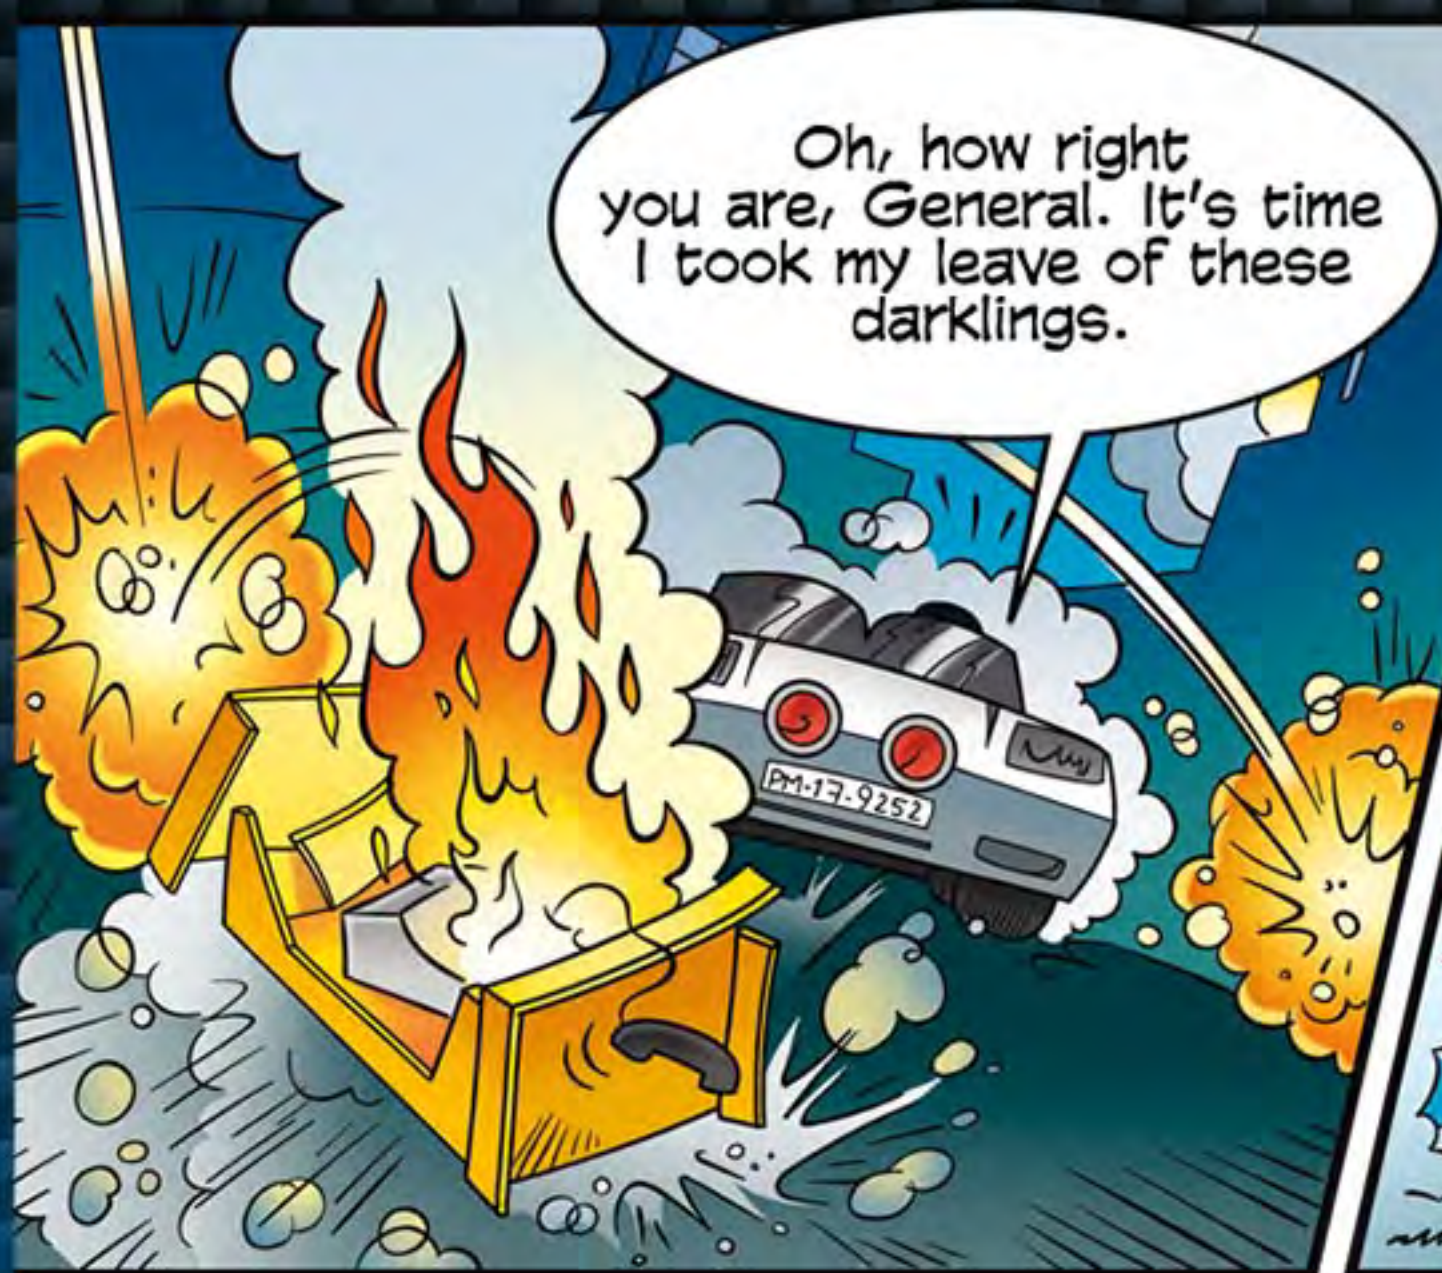

HAHAHAHA

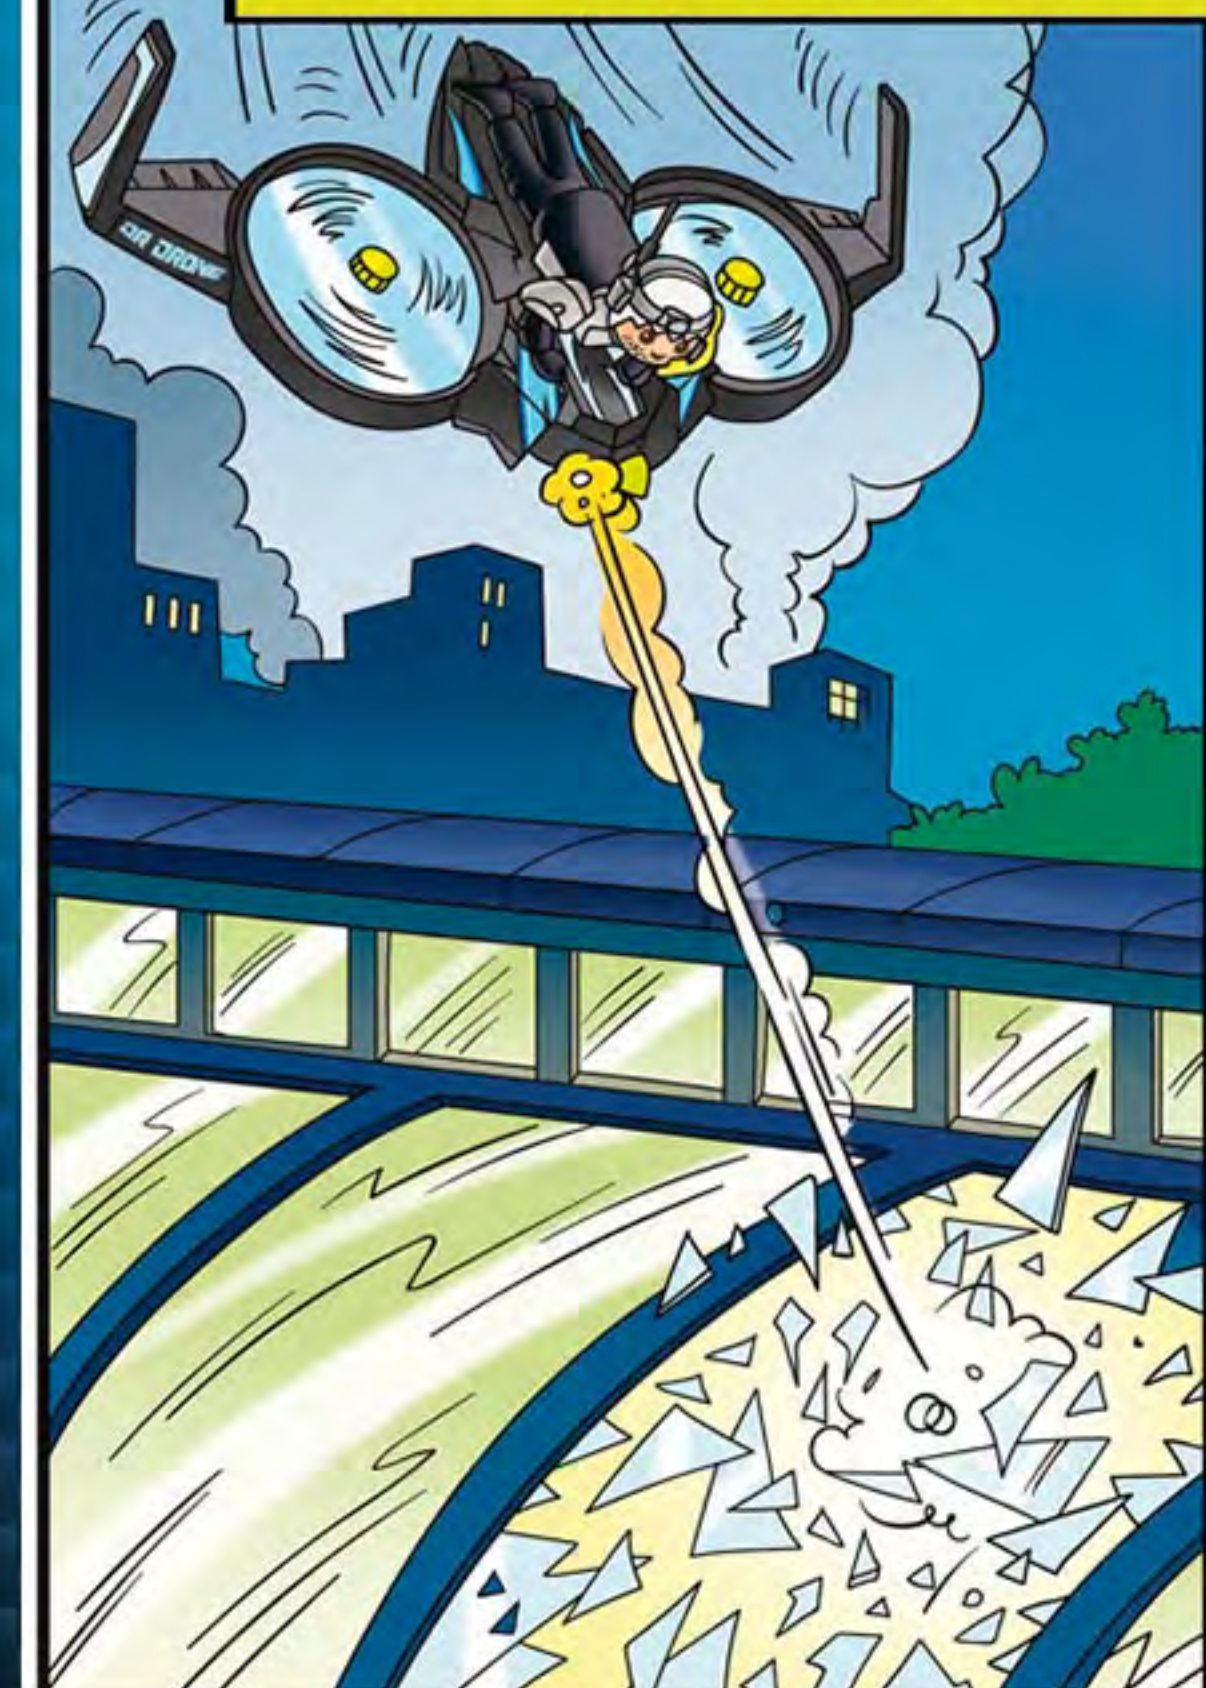

* Don't worry, this time it's really me the narrator of the story, and not the megalomaniac Dr. Drone!

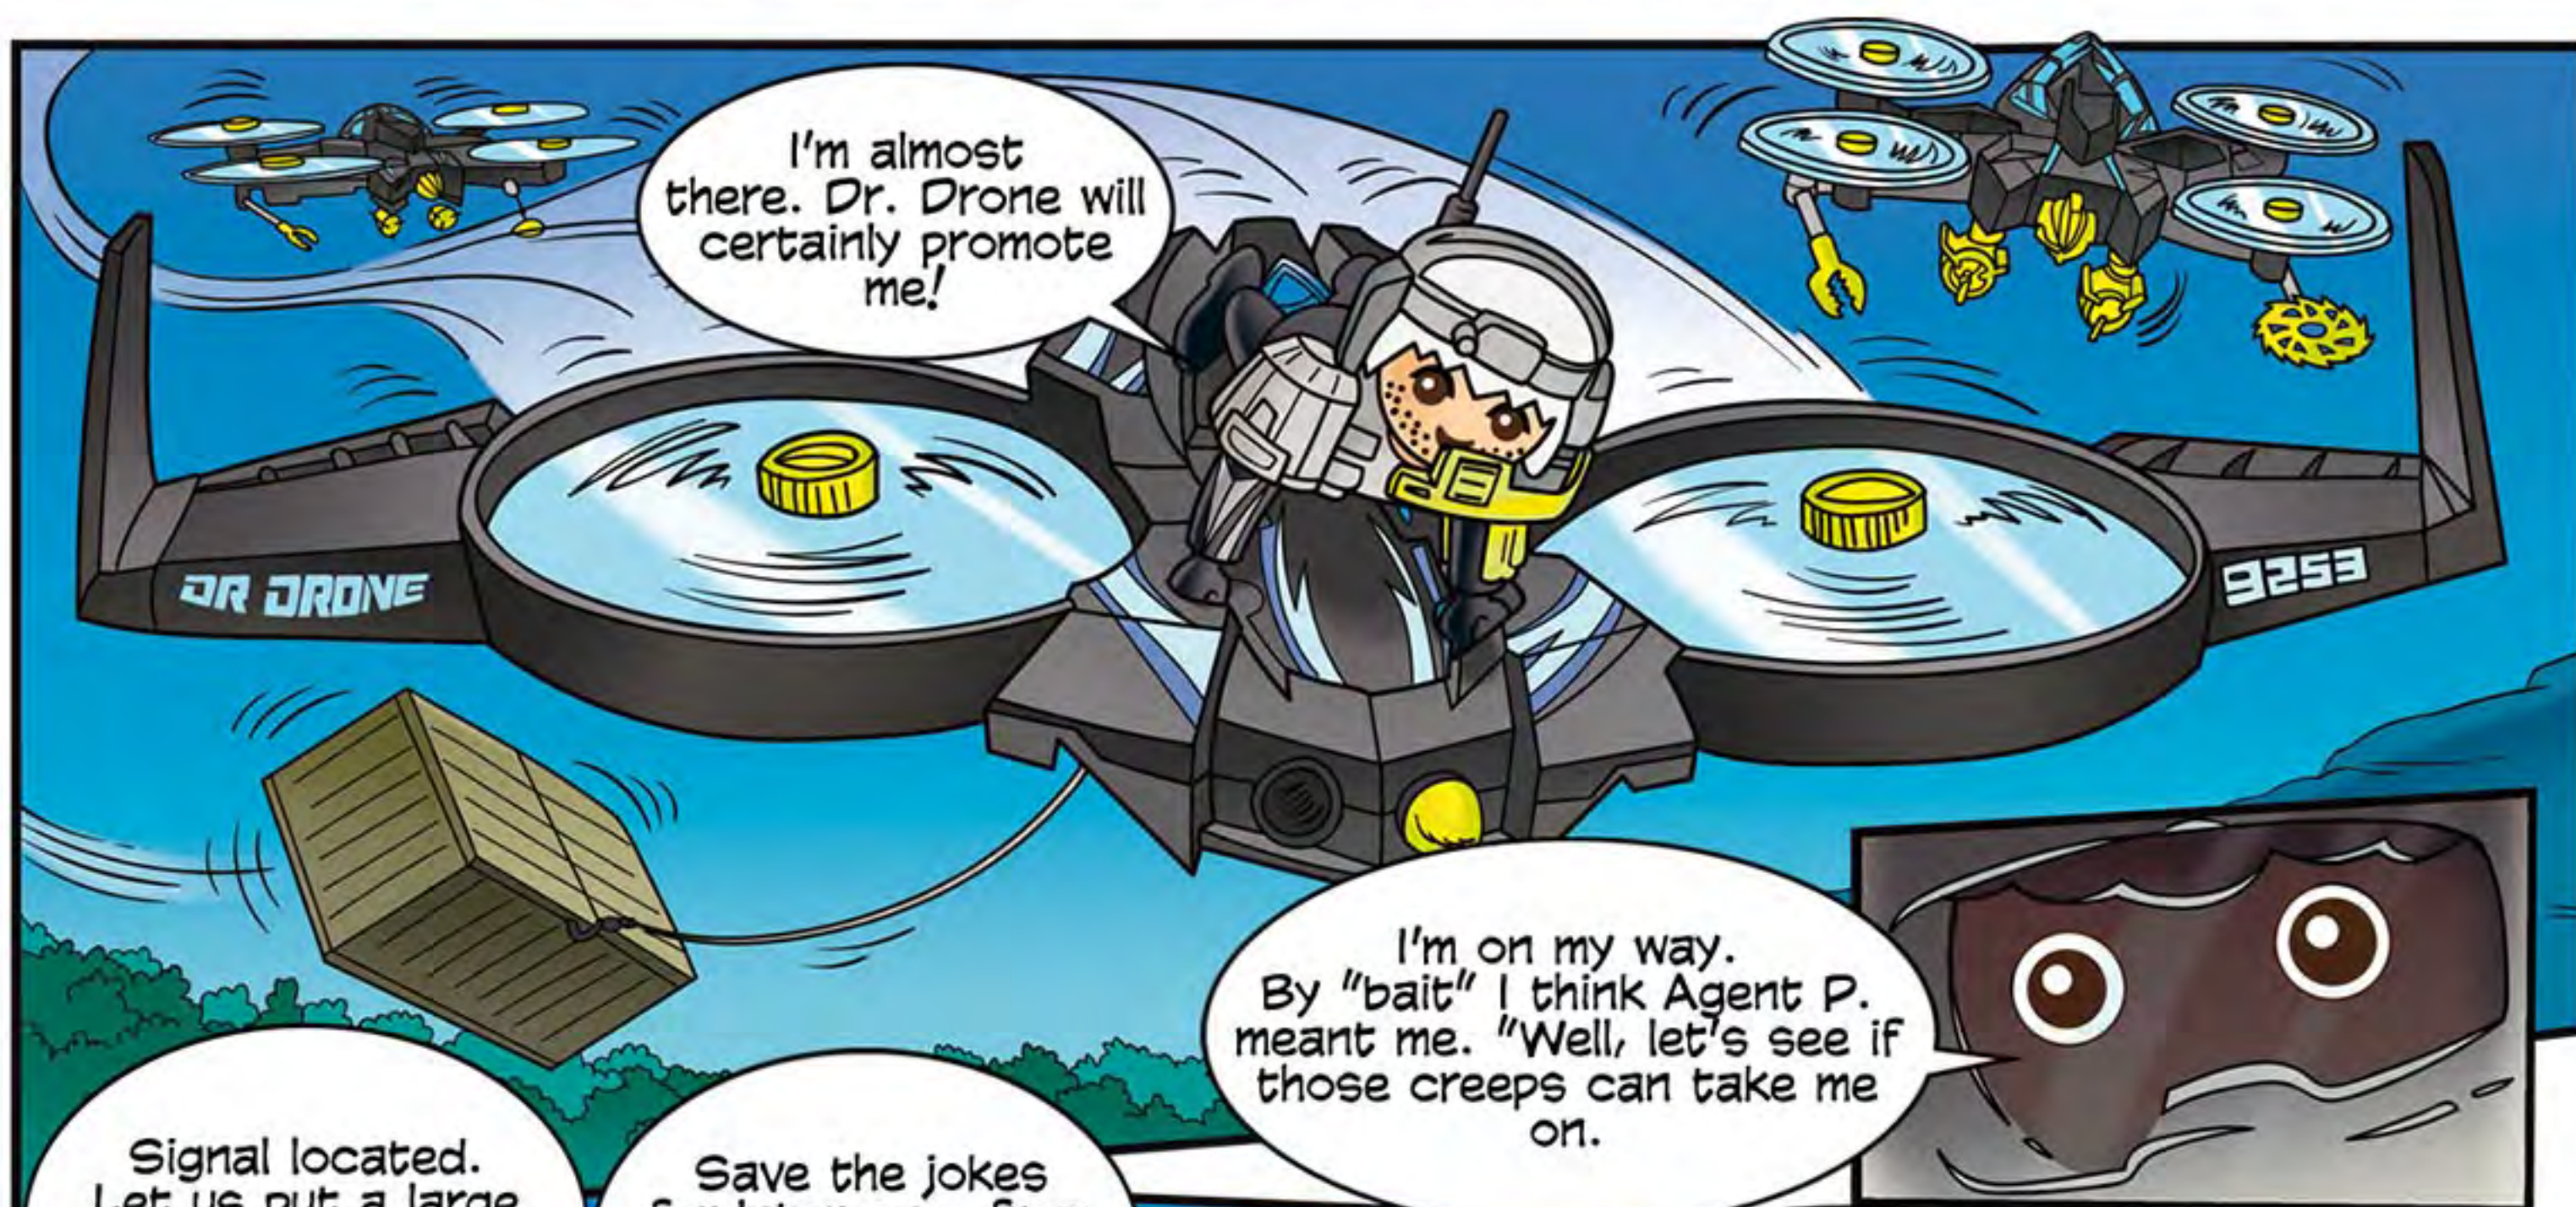

Meanwhile... Sergeant K steals the container with the classified information unnoticed.

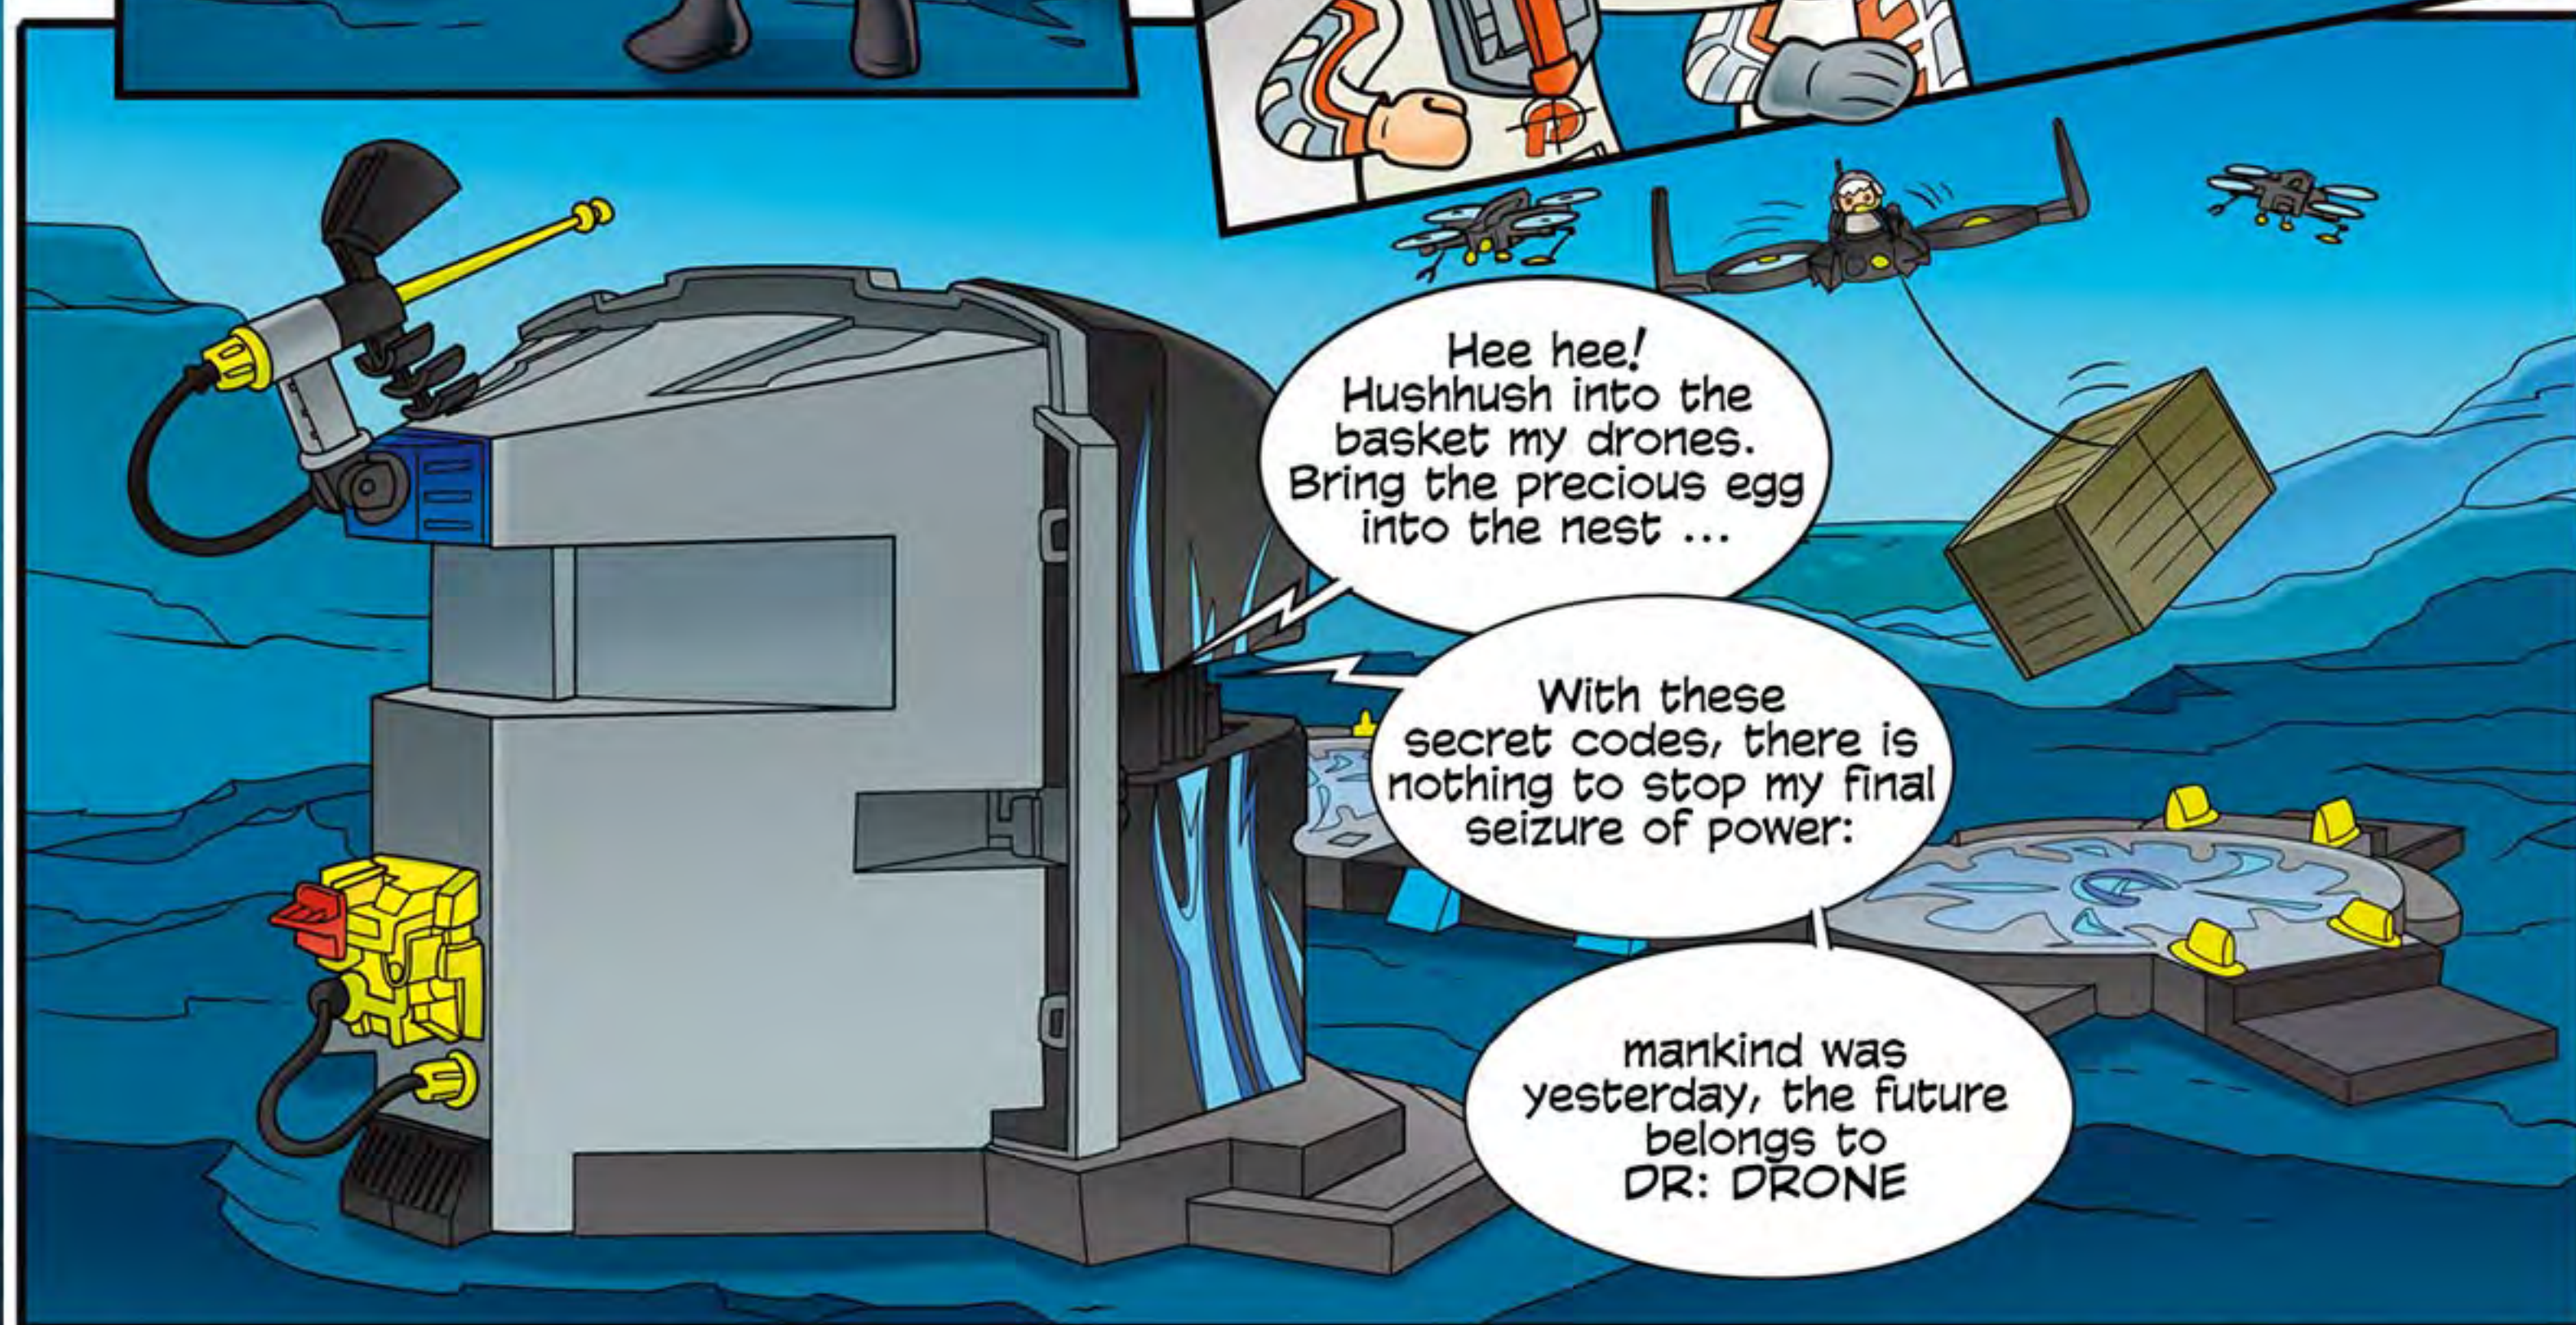

I'm on my way.
By "bait" I think Agent P.
meant me. "Well, let's see if
those creeps can take me
on.

Signal located.
Let us put a large
spoke in these
Drones' wheels,
T.E.C.

Save the jokes
for later on - from
now on, the highest
alertness is
required.

The tracking
transmitter will get
us to the exact
target!

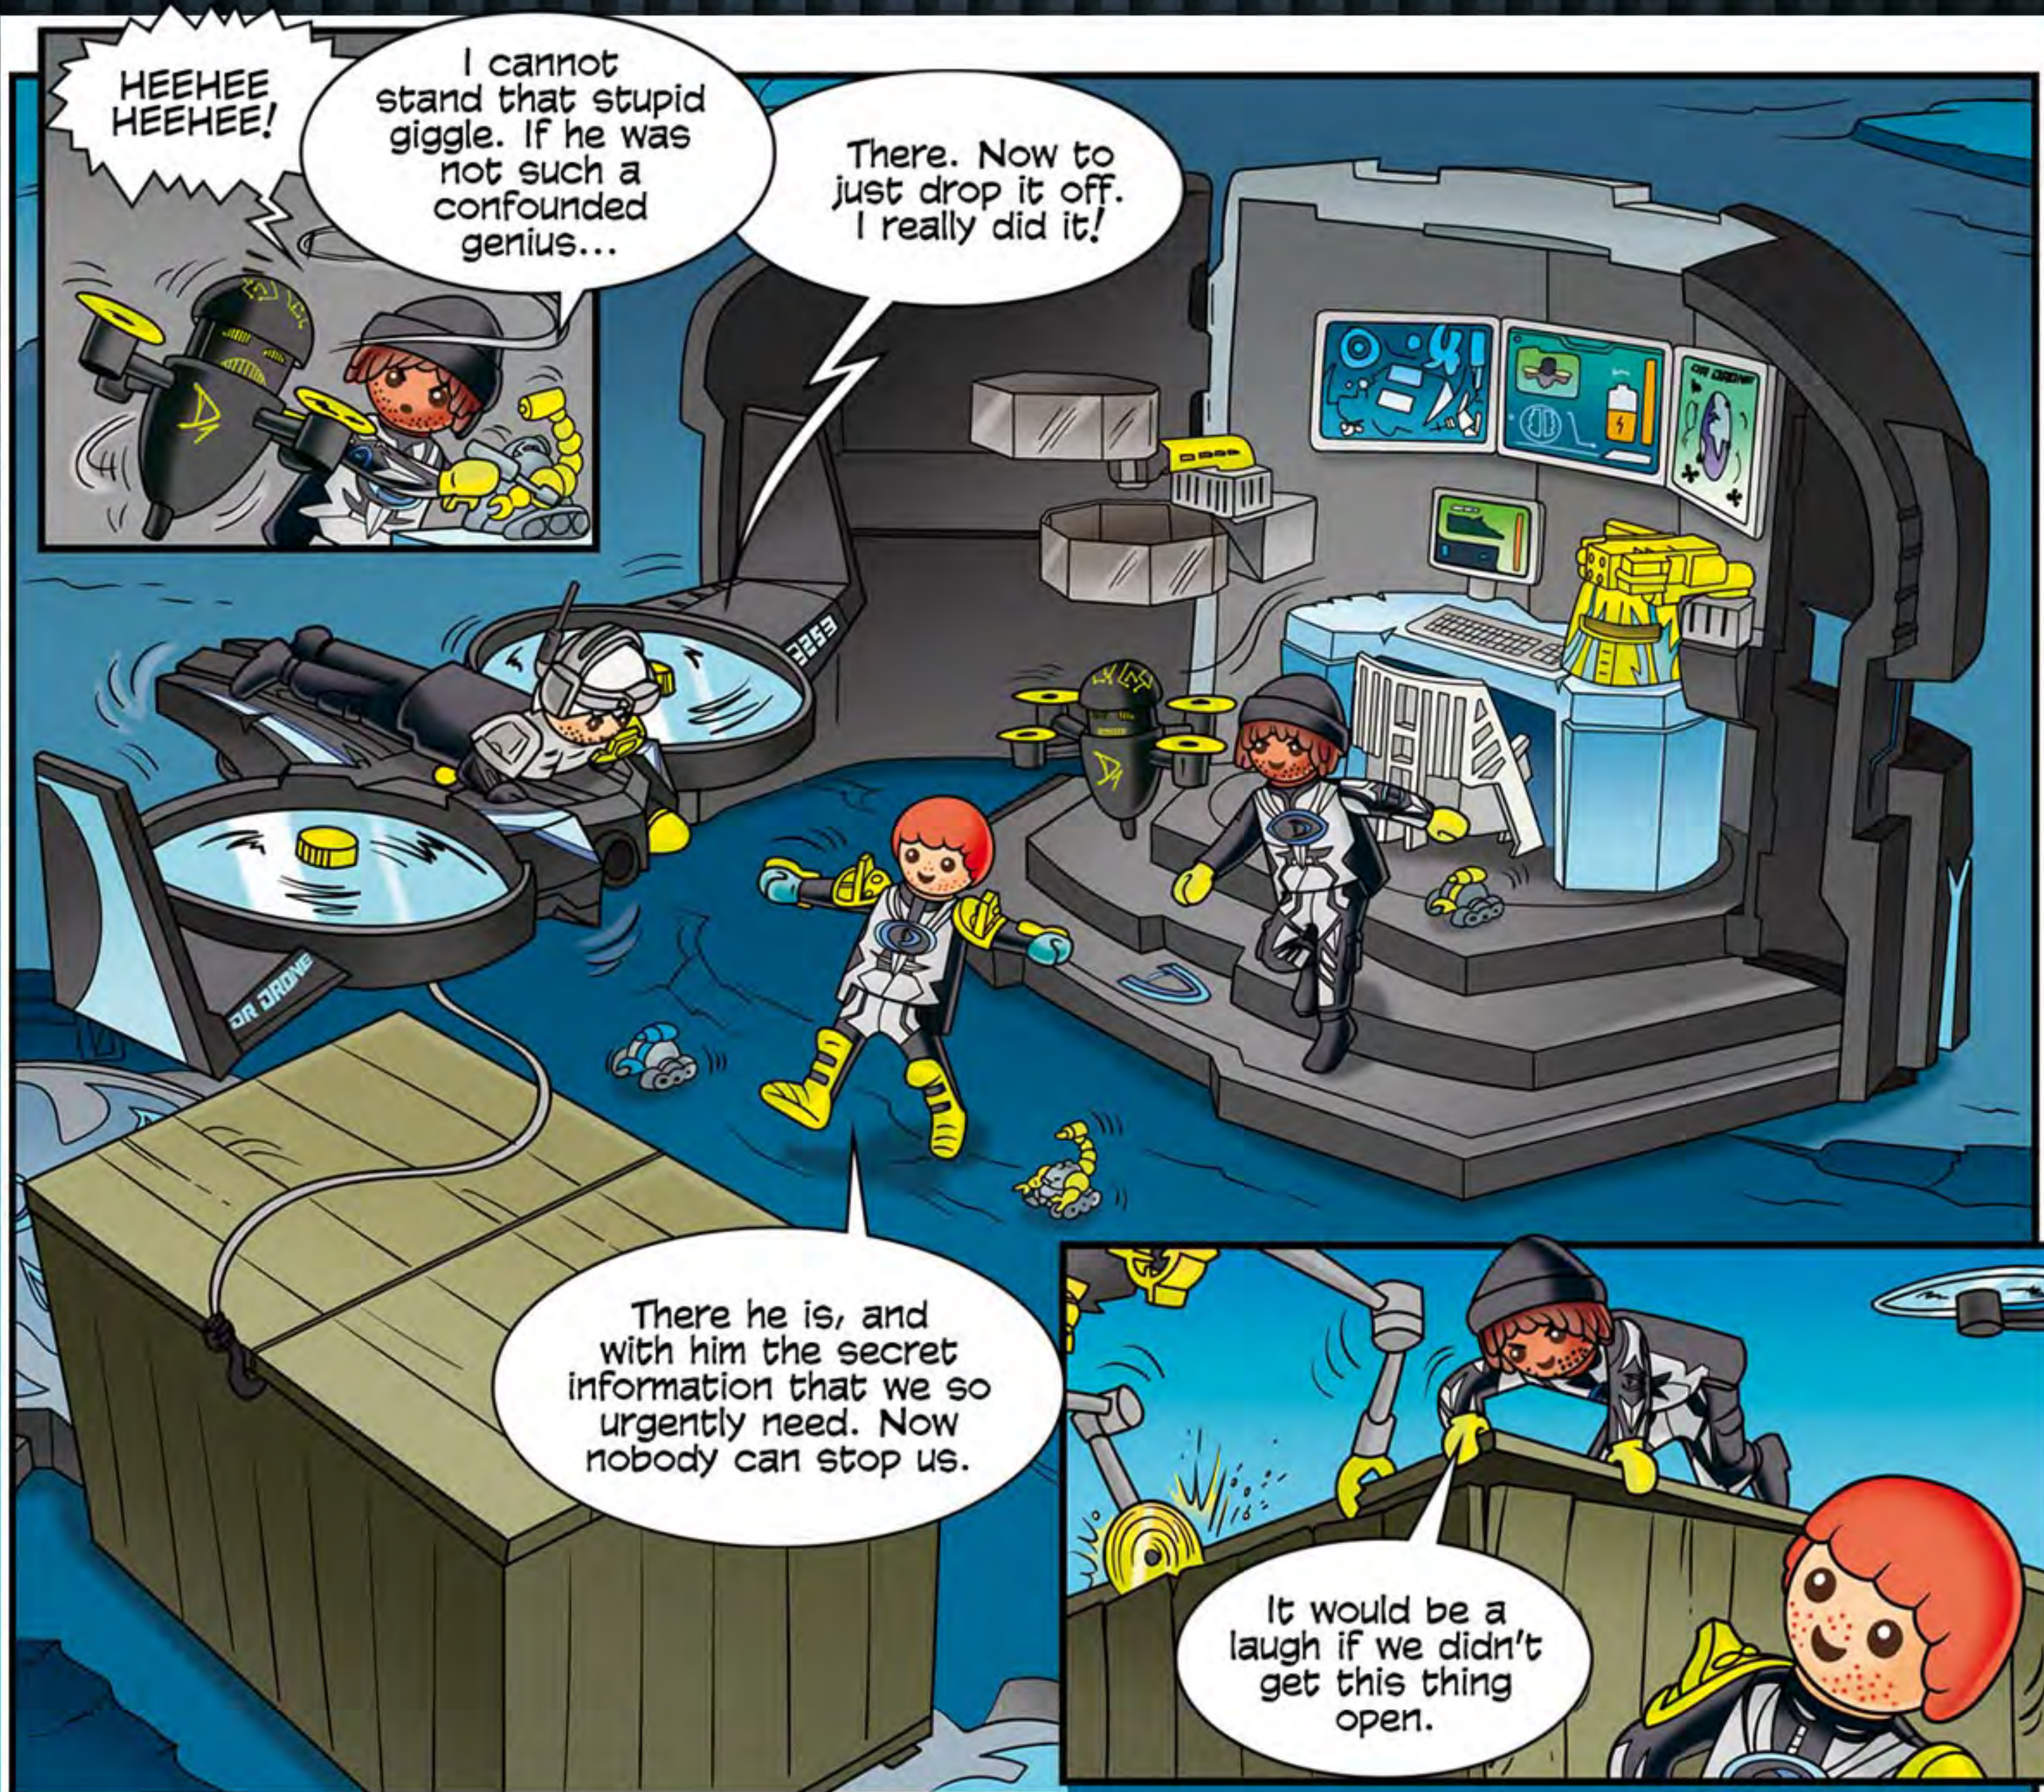

We were not far
off with our assessment of
Dr. Drone's position, but in
this rock labyrinth we could
have been searching
forever.

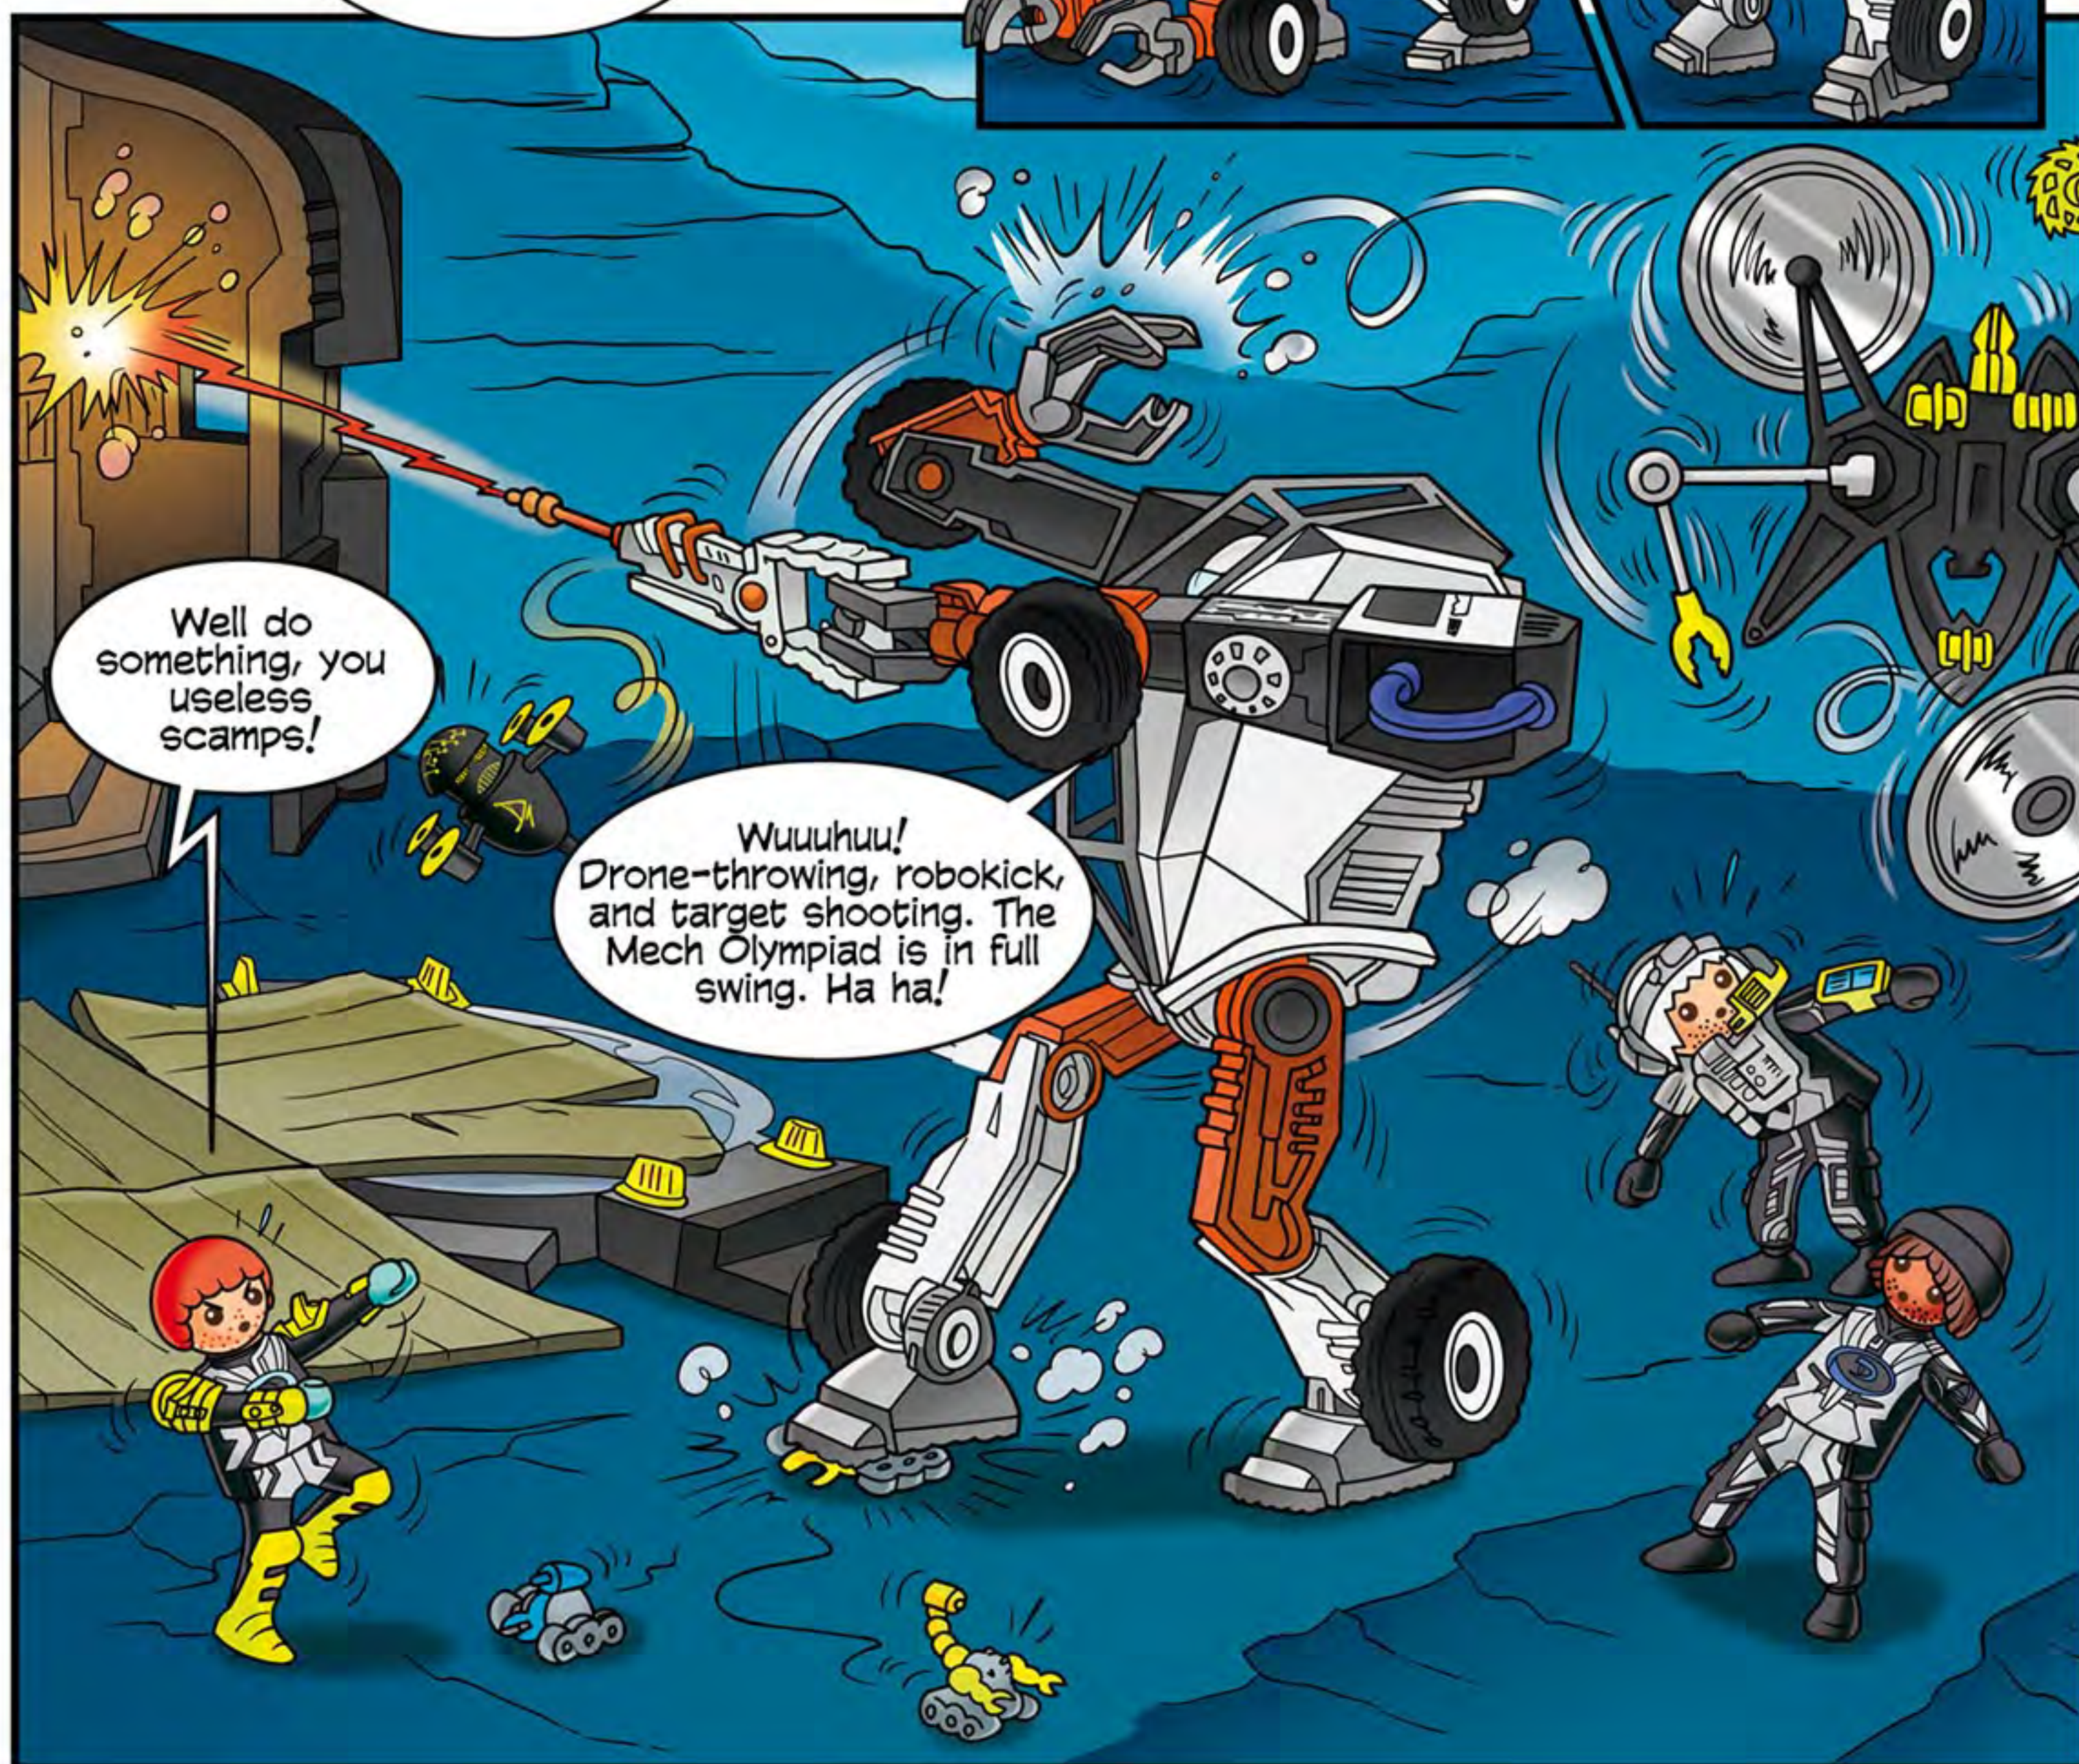

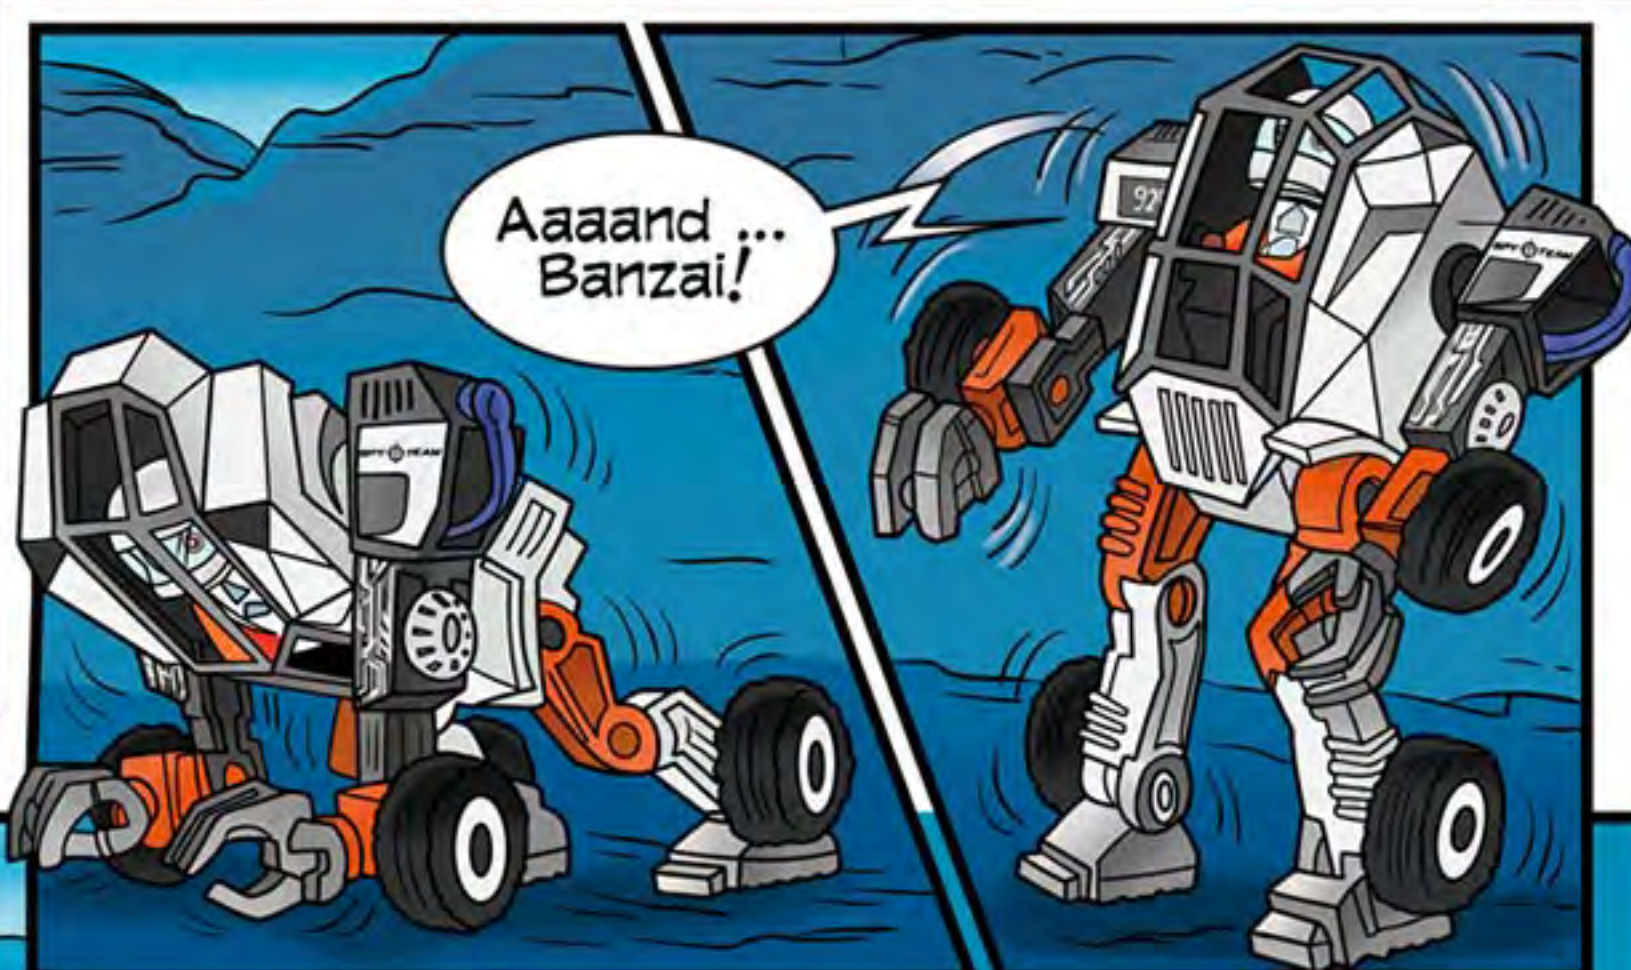

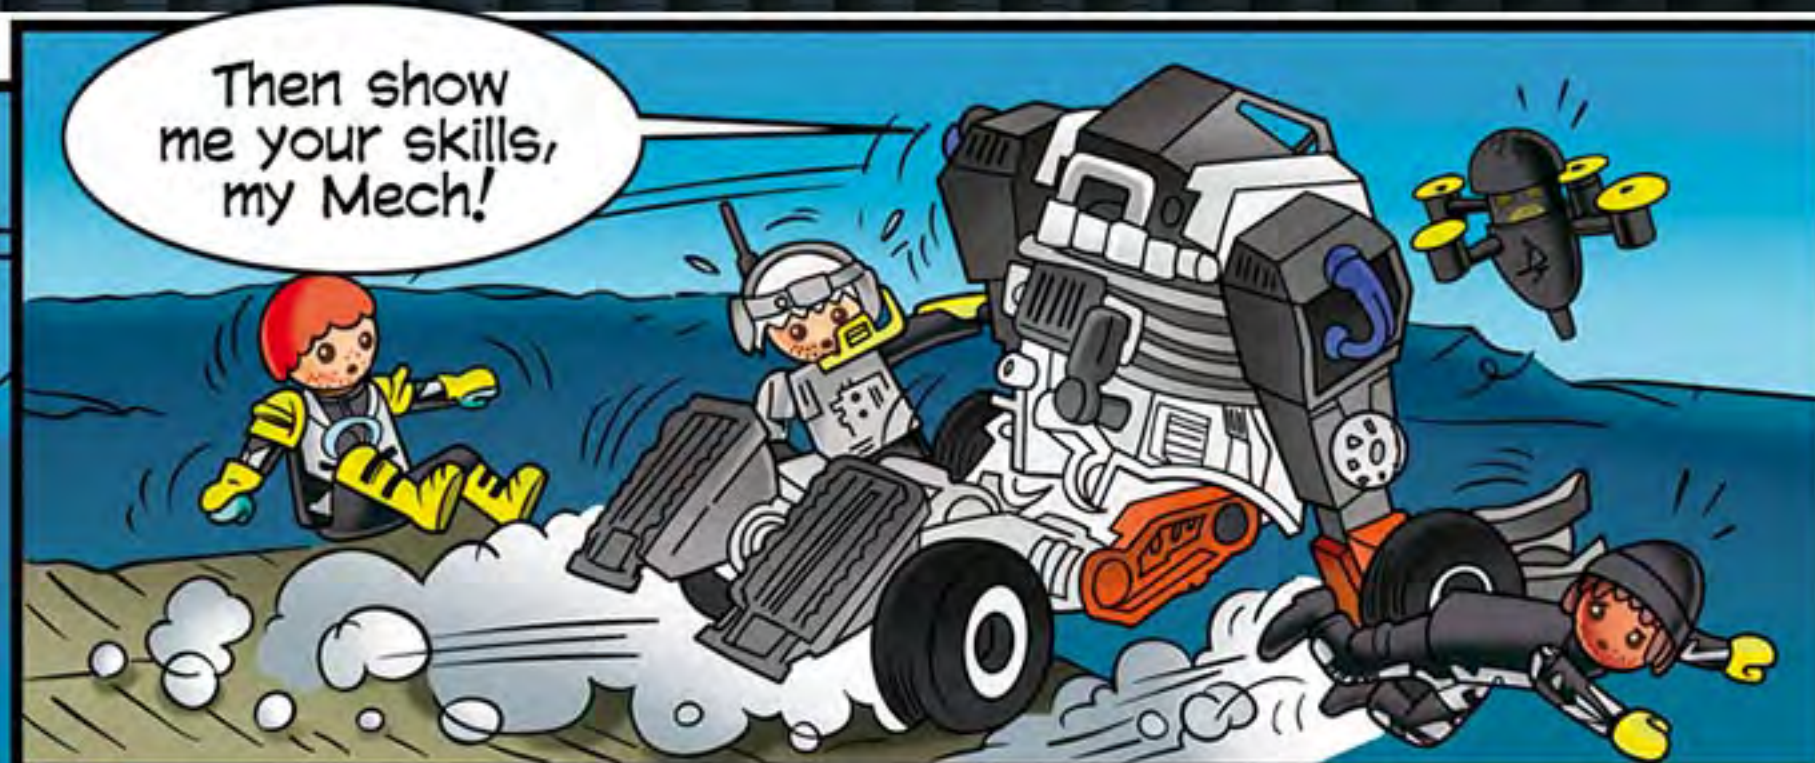

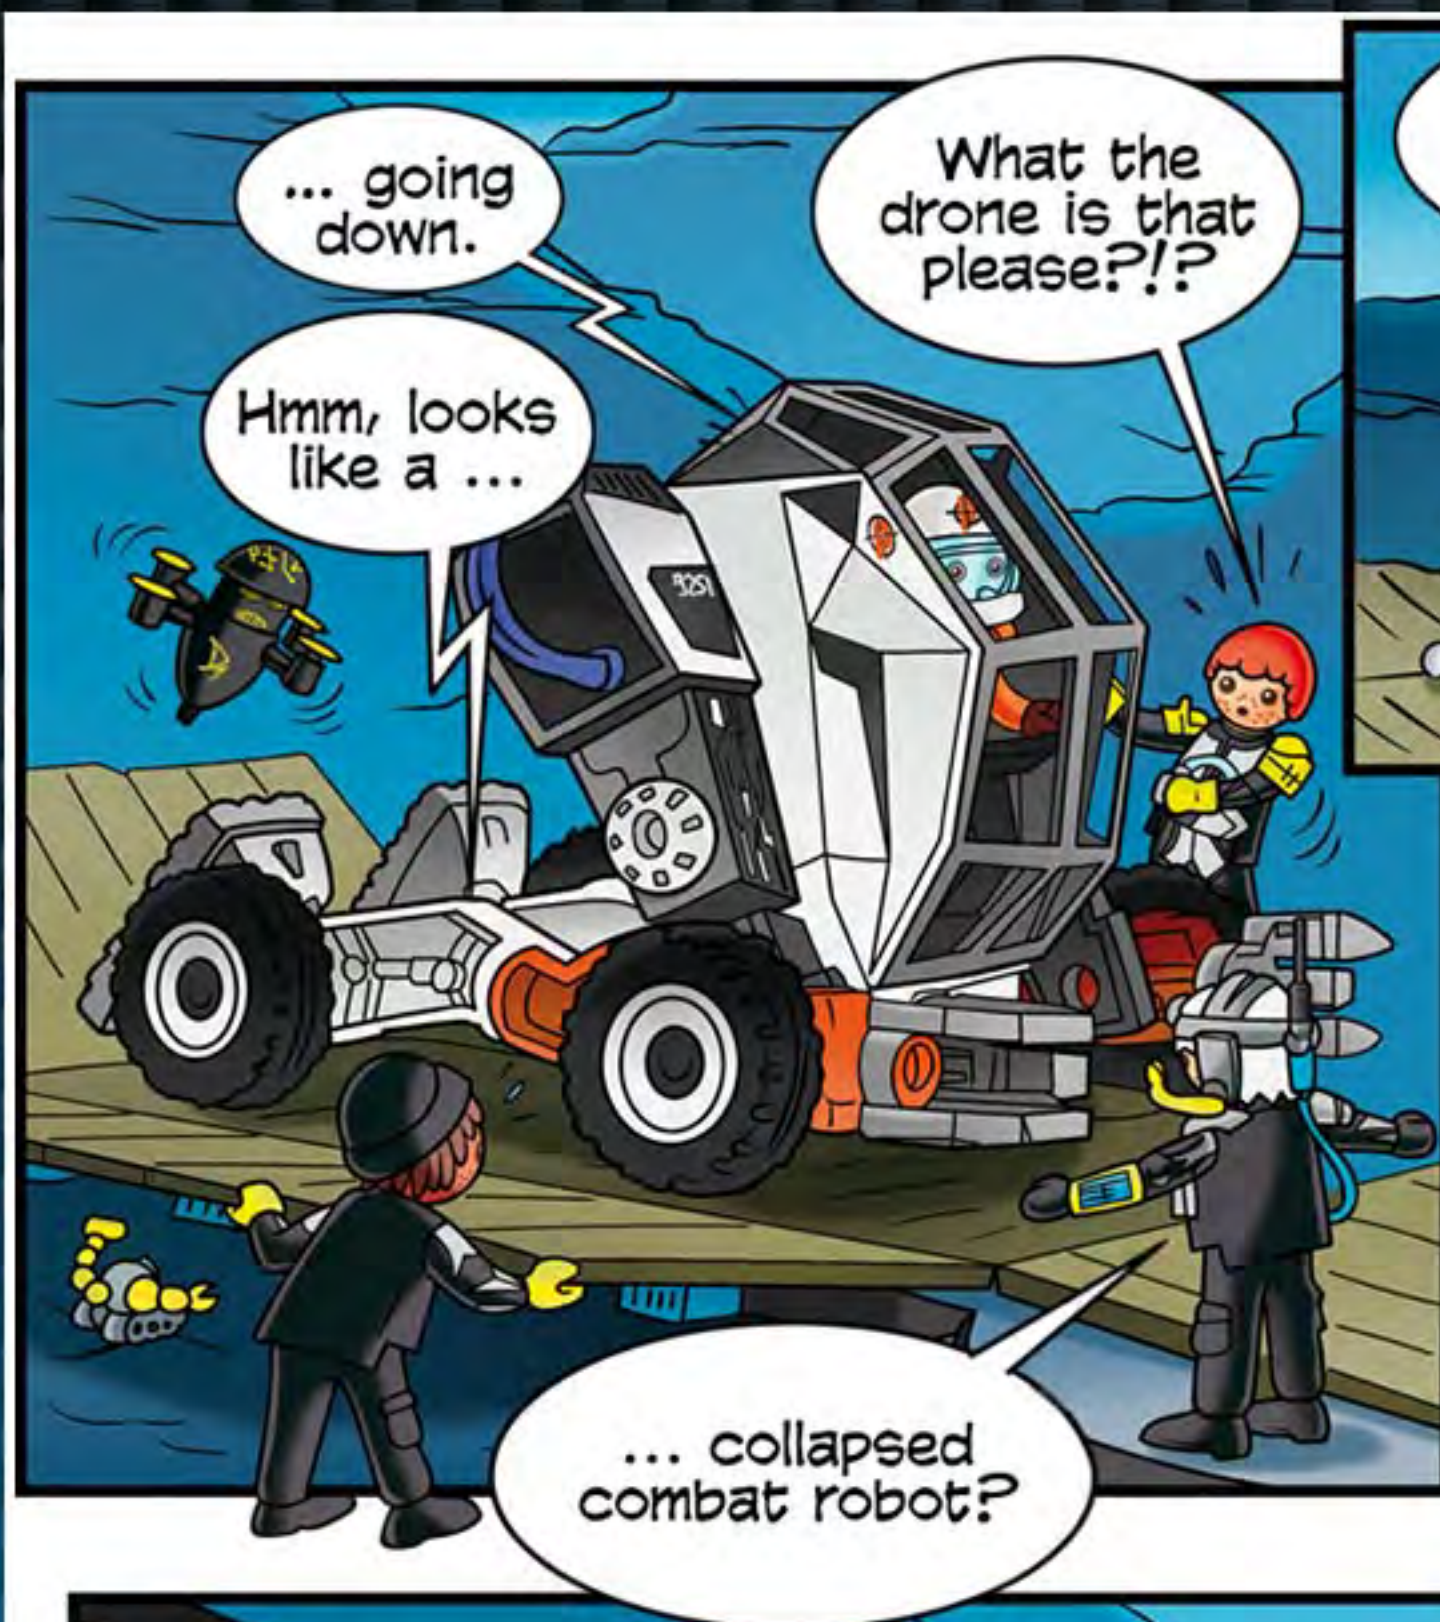

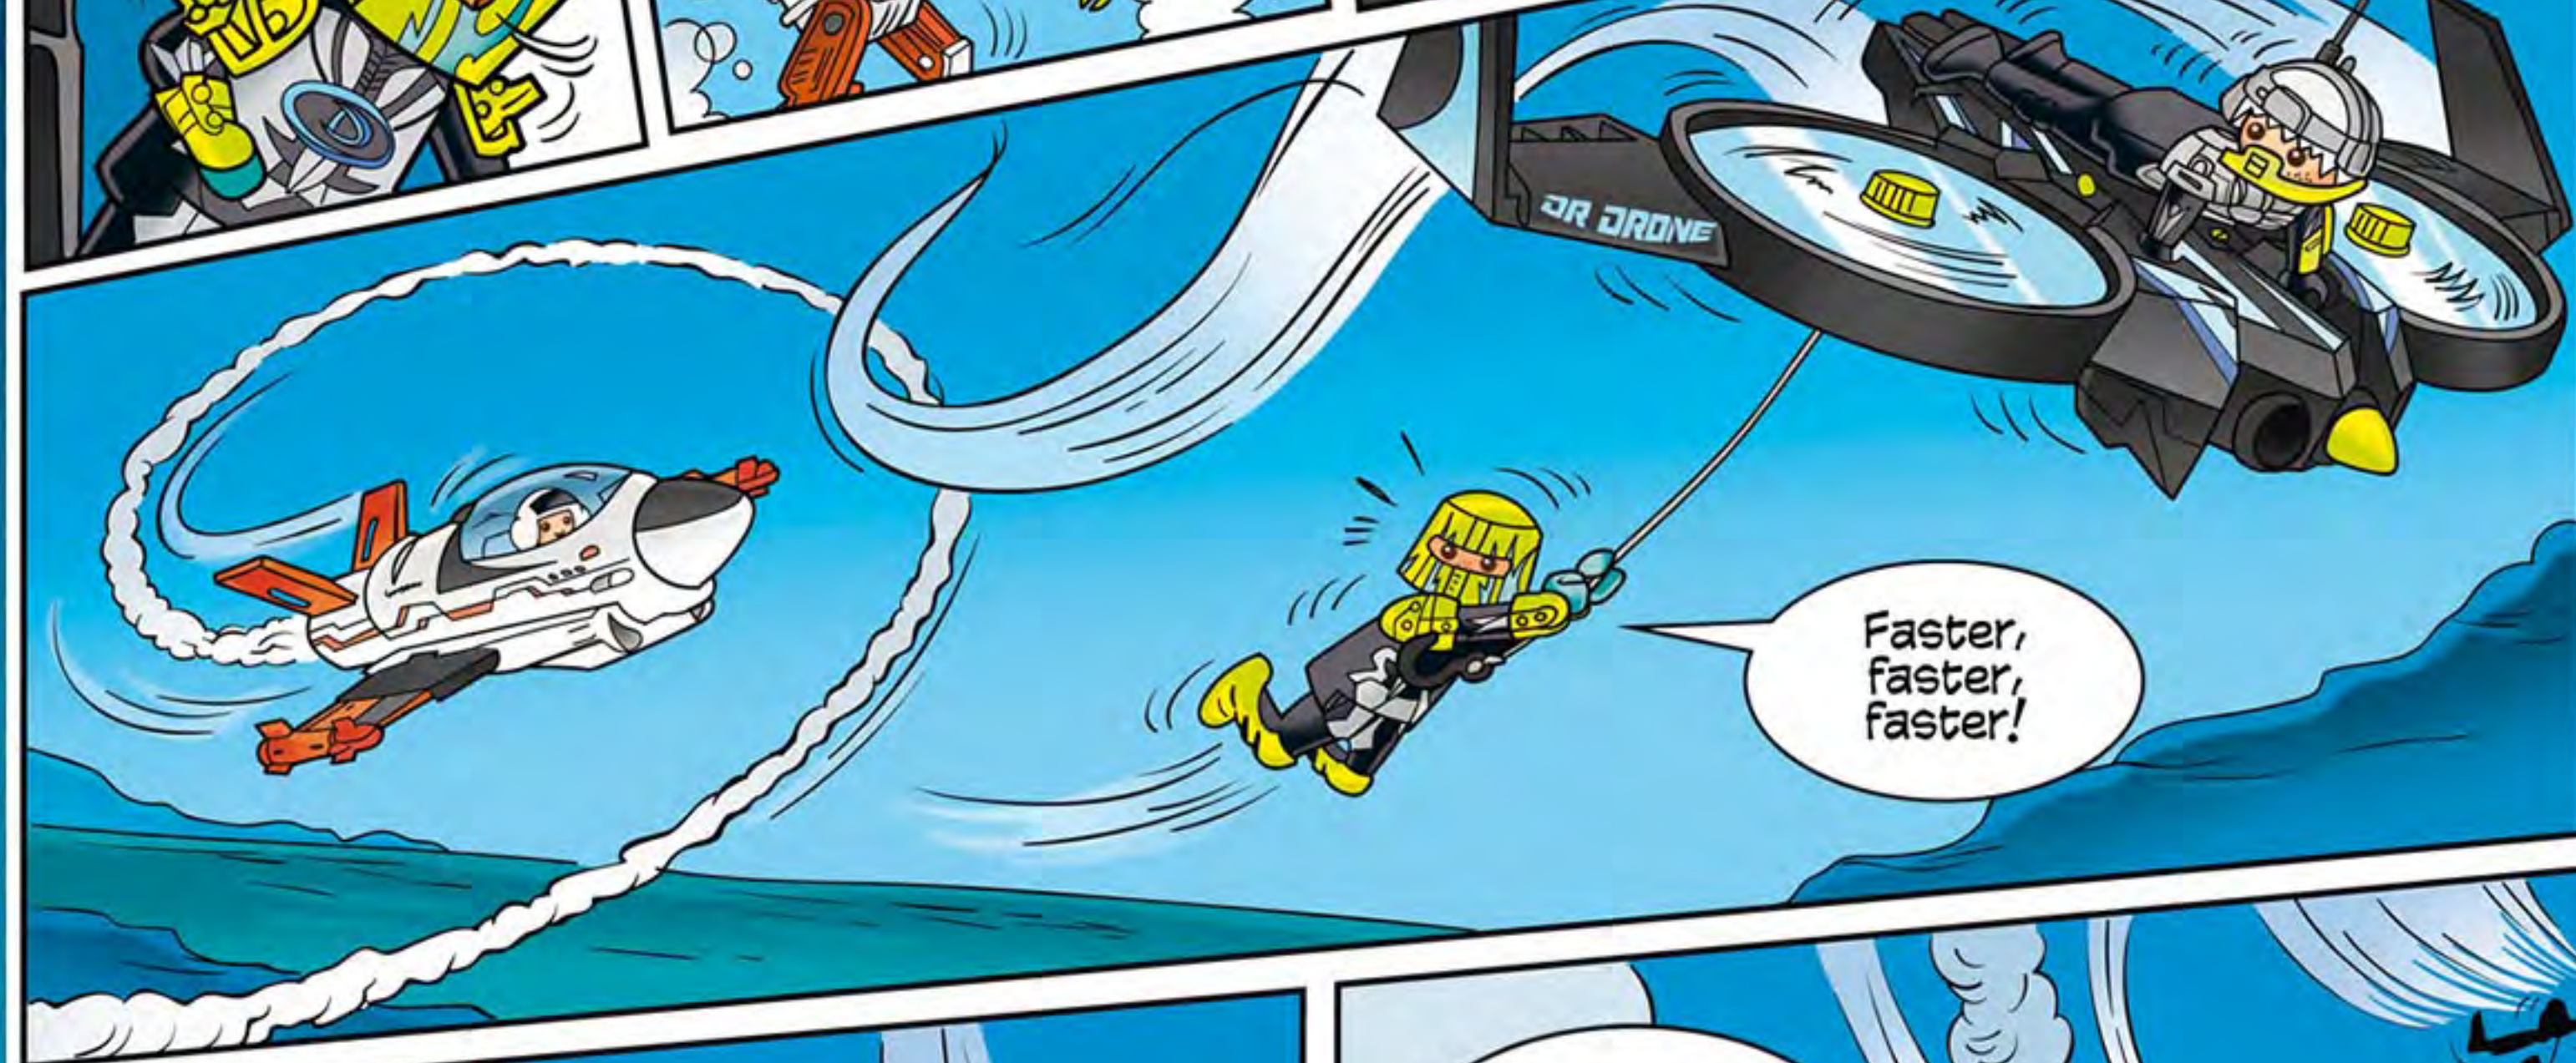

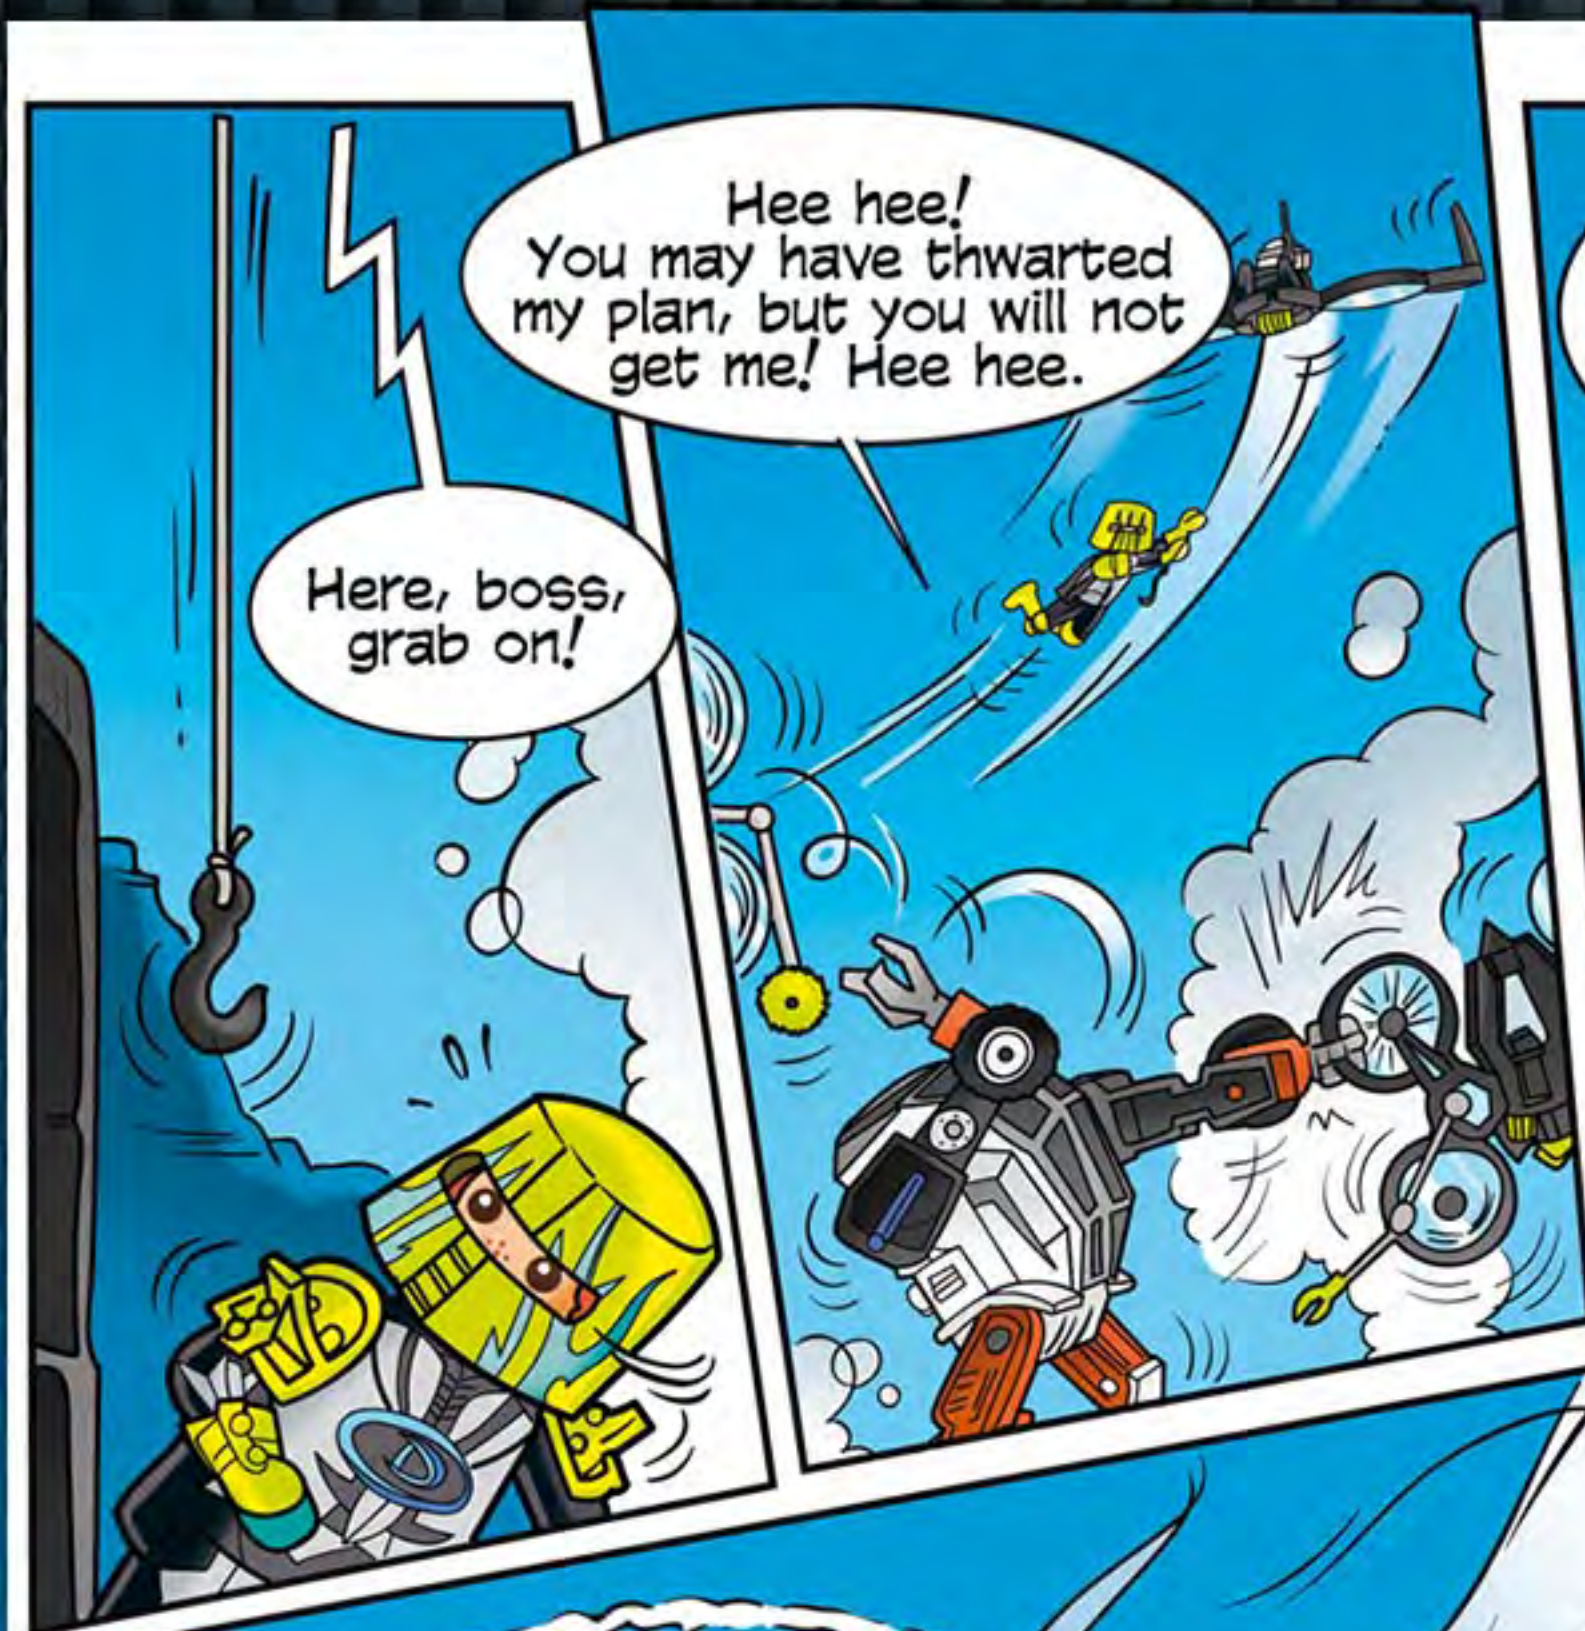

Hee hee!
Hushhush into the
basket my drones.
Bring the precious egg
into the nest ...

With these
secret codes, there is
nothing to stop my final
seizure of power:

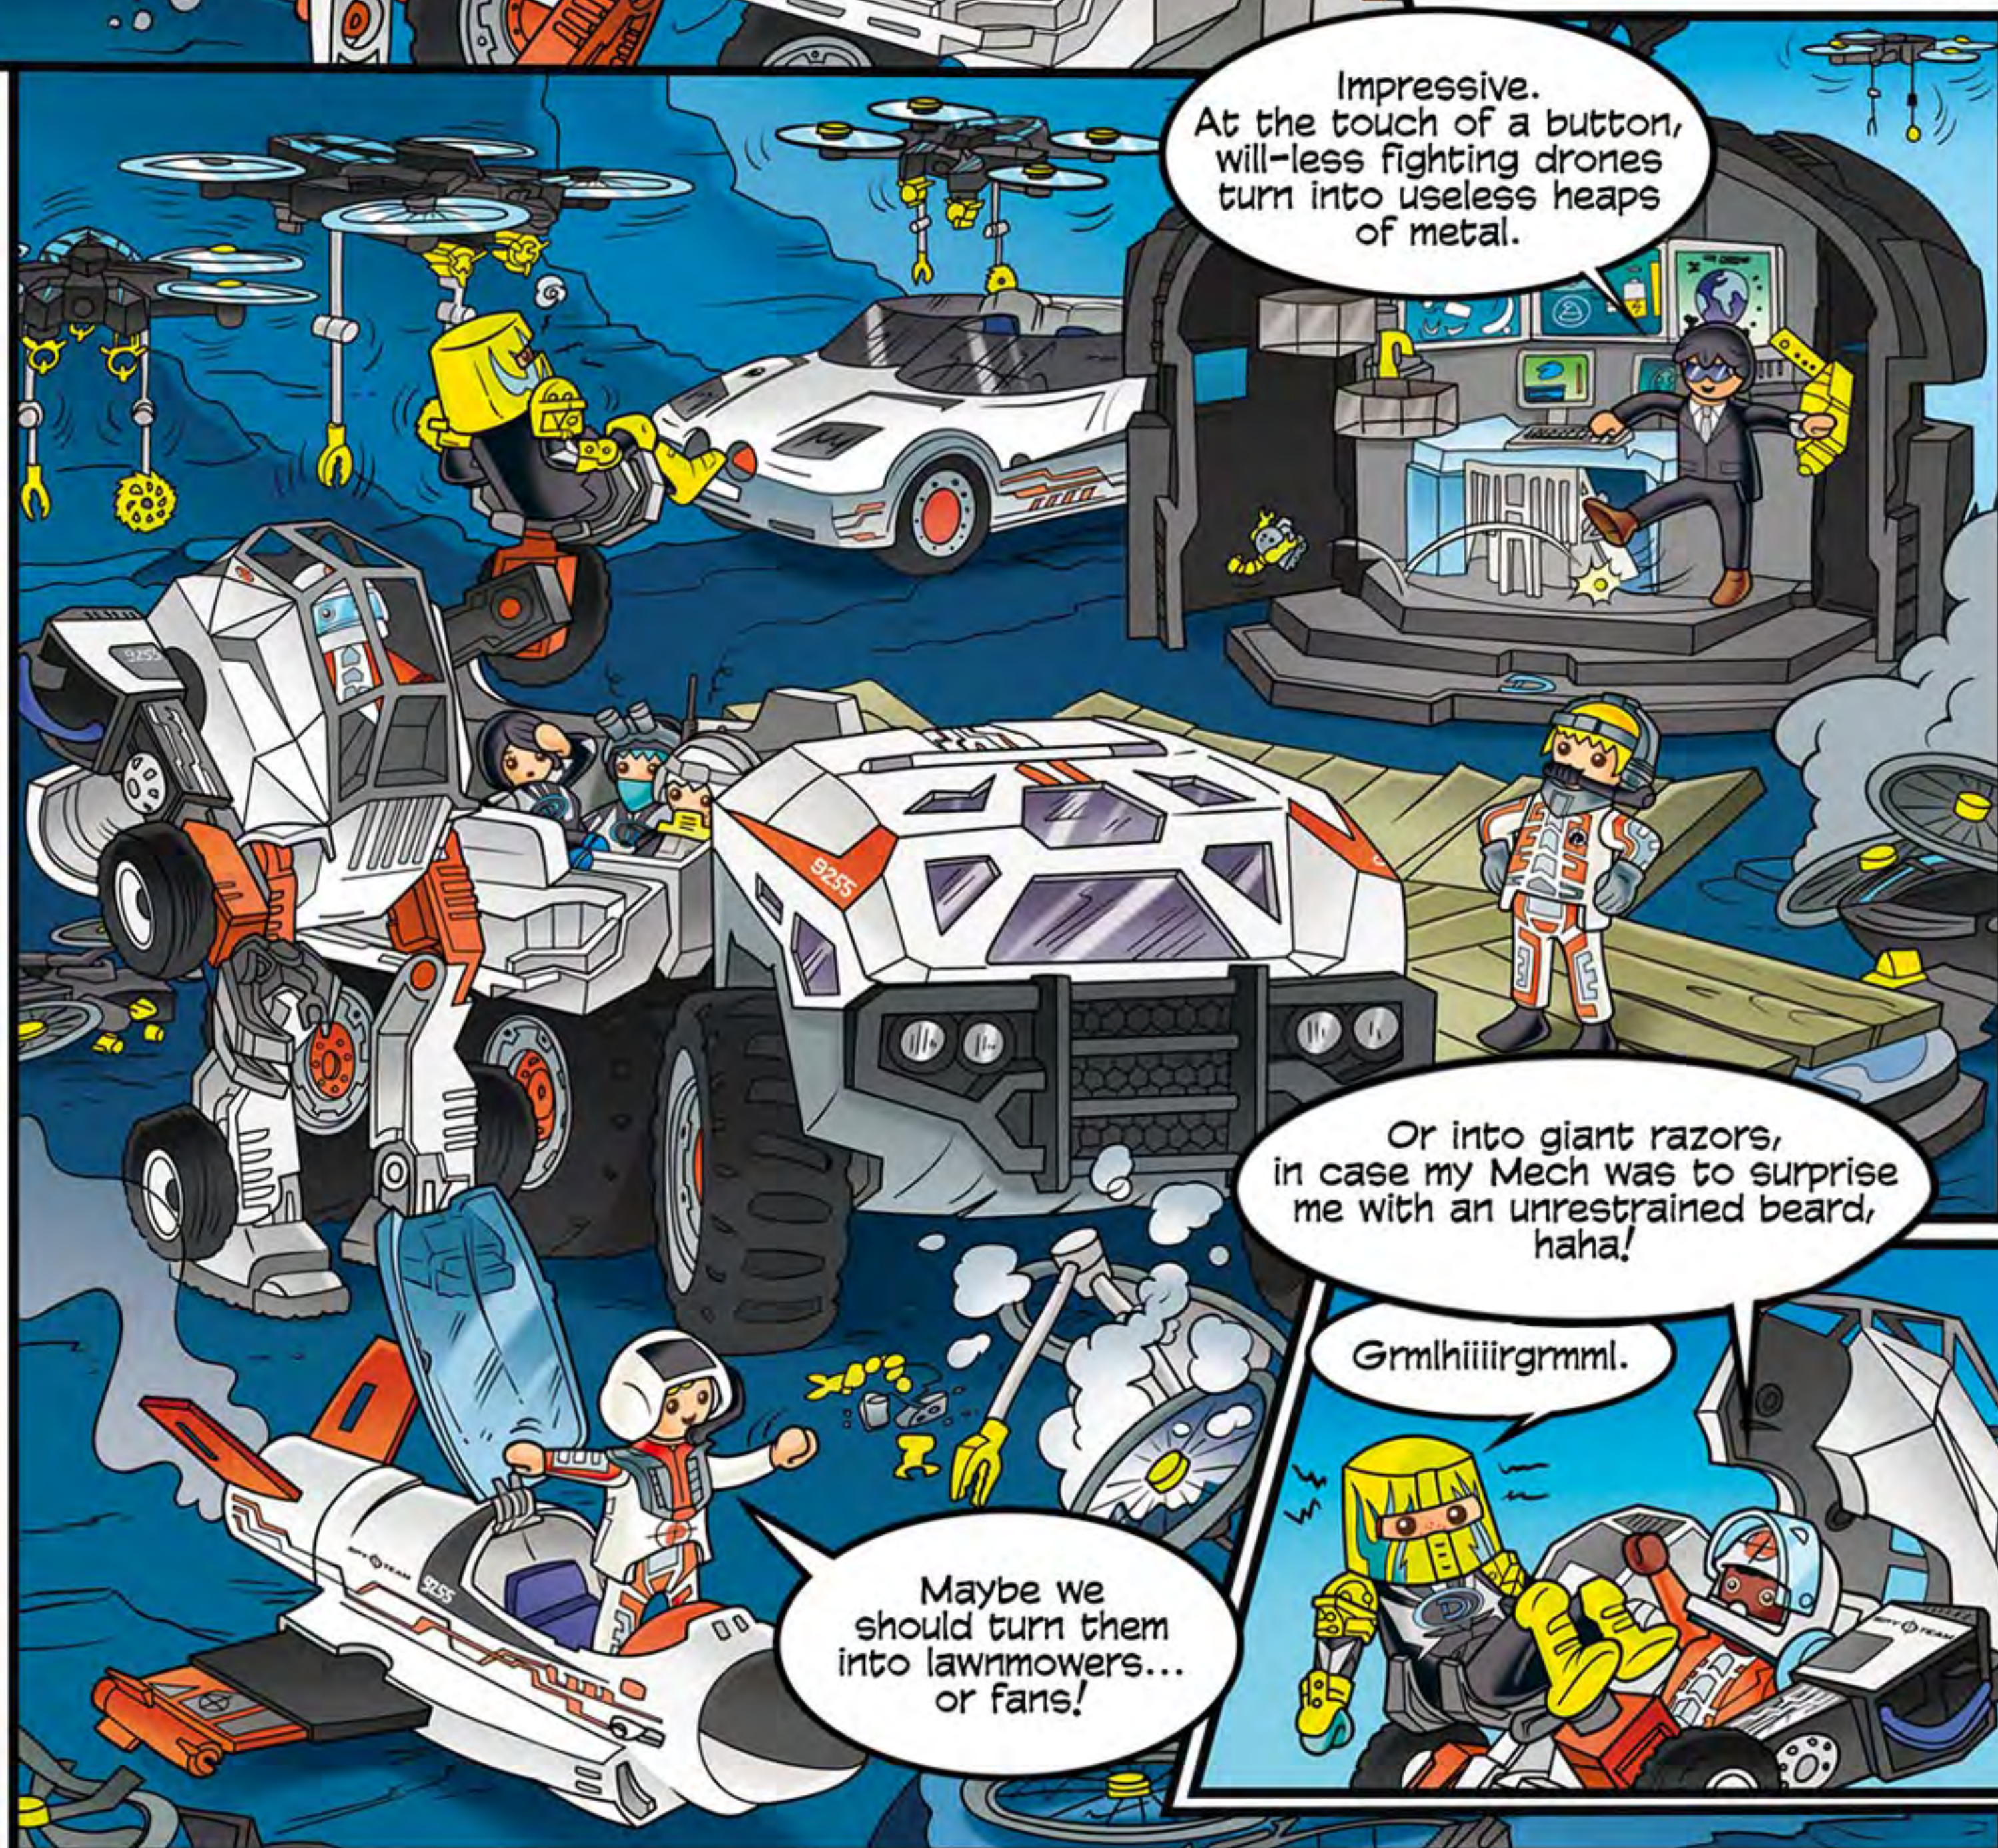

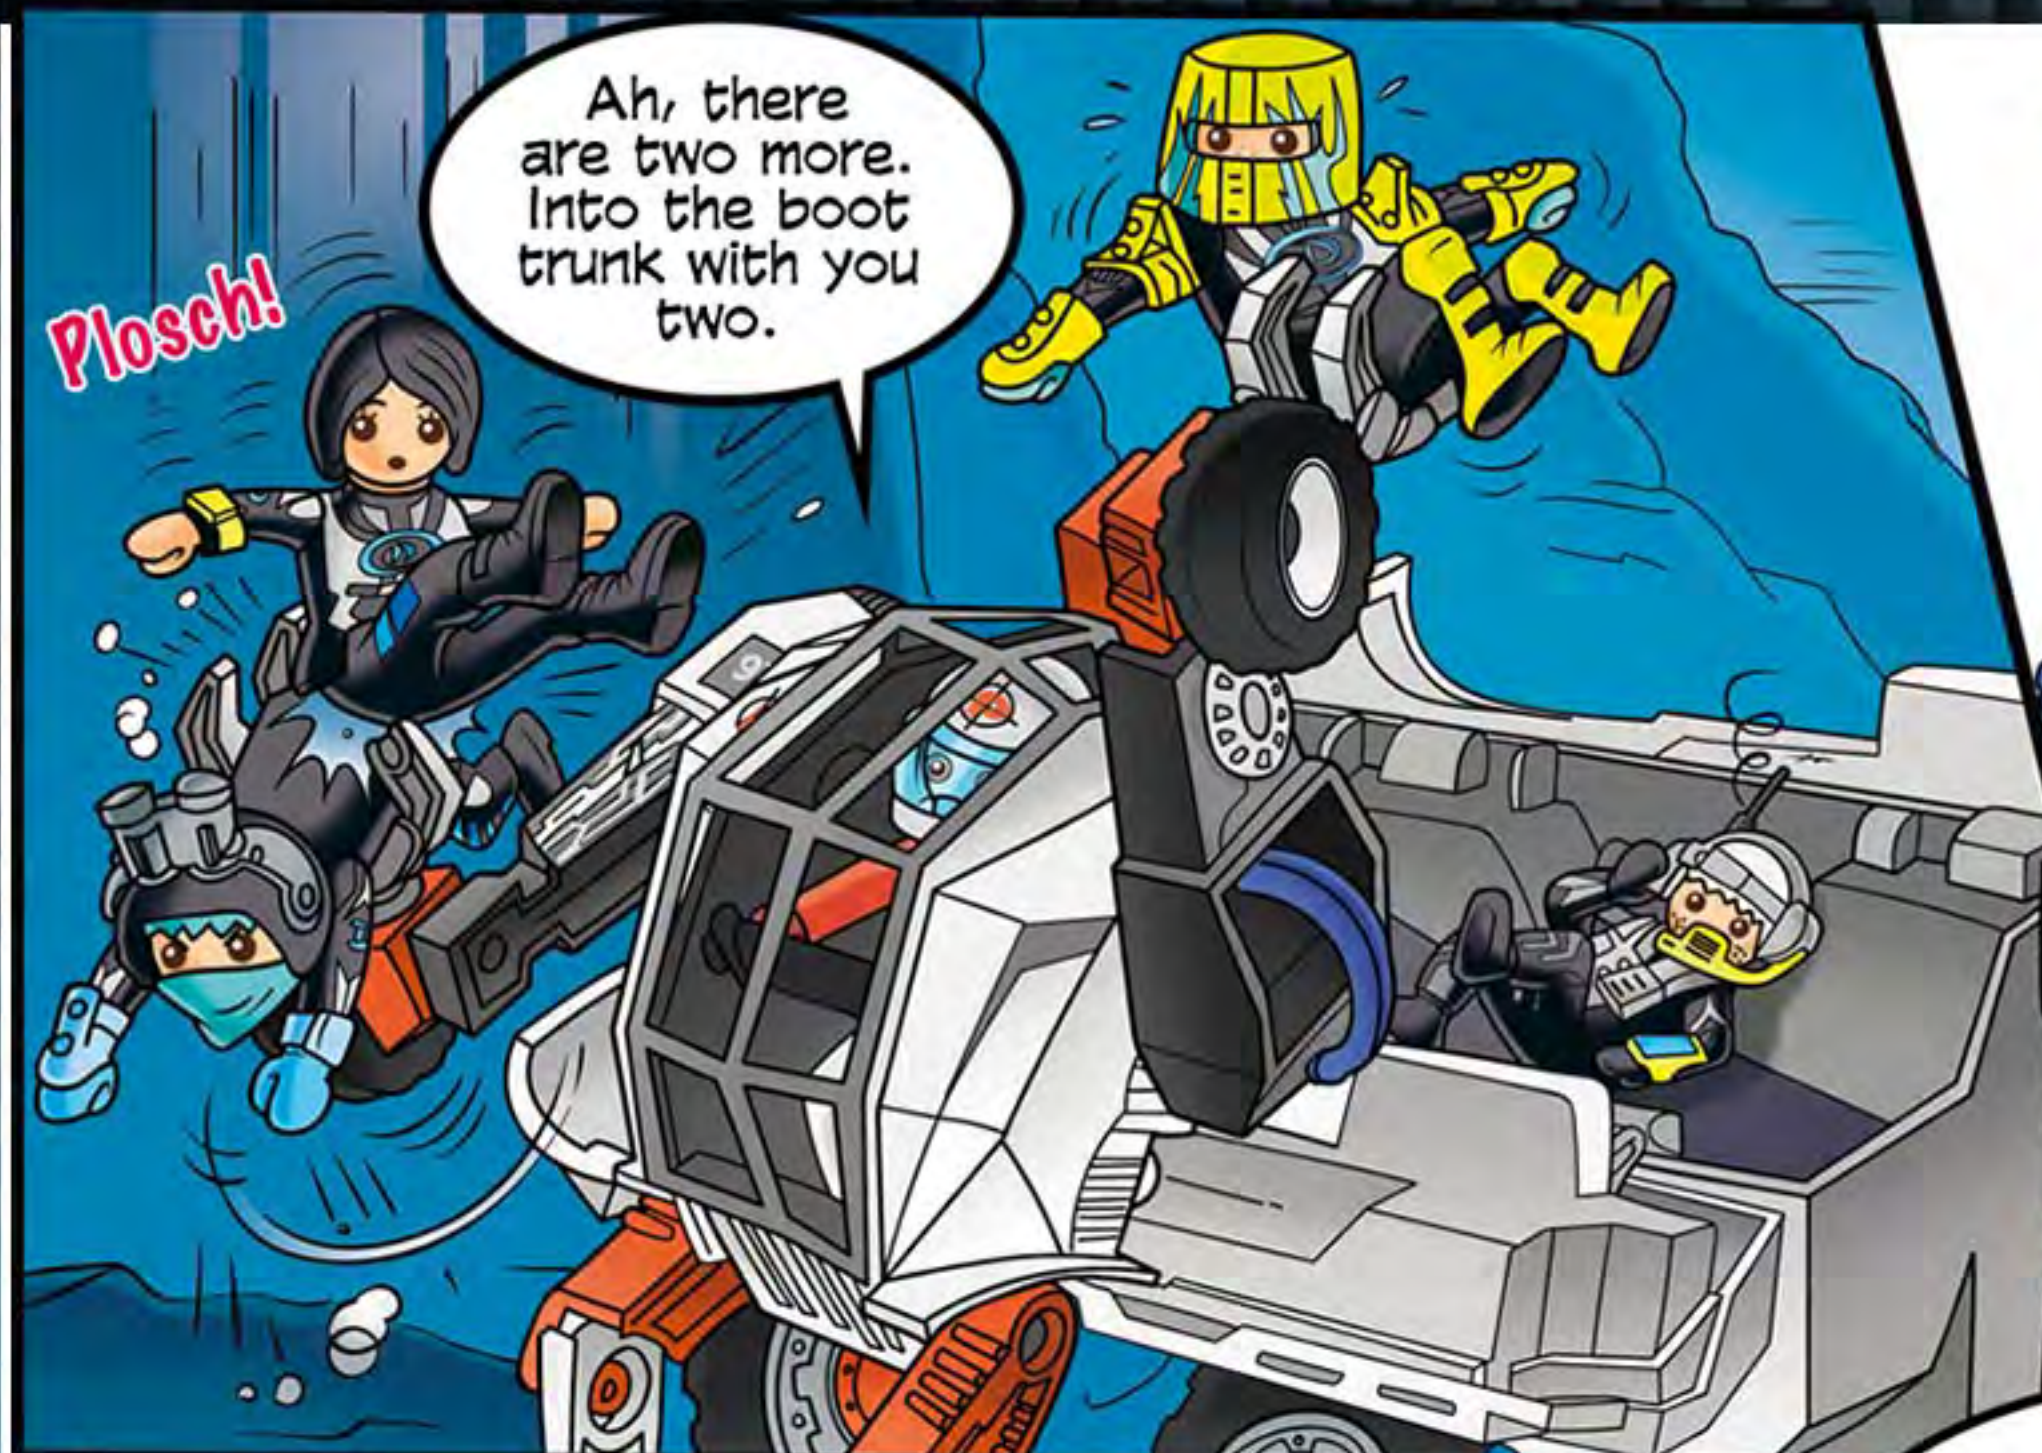

mankind was
yesterday, the future
belongs to
DR: DRONE

Well, doctor,
I guess you're all
droned out now.
Good work
agents.

When I'm down
from here, you'll lose
your filthy laughs!

Let's pack up here
and put the gang
behind bars.

Again the Spy Team has saved the world...

Fwuuuscchhhh...

Вххуоооиии...

Brrrrrrr....

Nothing
is lost yet! My
drones will set me
free....

And then my
revenge will be
TERRIFYING!
HEEEEEHEEEEE!
