

The PLAYMOBIL Fire brigade

The most important thing in the event of a fire
is to stay calm.

You should
also follow
these steps:

1

Leave the building
as soon as possible

2

Never hide or go back inside -
not even to get your valuables

3

If you see smoke, crawl
outside on all fours. The
air is clearer outside, so
you'll get to safety
faster.

The fire department's emergency number
is 999. Dial 999 immediately in the event
of a fire or if someone is in danger.

Here's how to spot sources of danger:

1. Candles:

There are candles in most homes. As
a safety tip, never touch burning
candles and alert an adult when a
burning candle is unobserved.

2. Stove and oven:

You have to be particularly careful in
the kitchen. Never light the stove
alone or touch hot cooking pots as
there is a risk of burning.

3. Sockets:

Caution: sockets and electrical appliances are not toys.
Never insert your fingers or put objects into an electrical outlet.

Now you're a real PLAYMOBIL firefighting expert and
know exactly what to do in an emergency.
