TURN YOUR PLAY ROOM INTO A RACETRACK:

The new Porsche 911 Targa 4S from PLAYMOBIL

Every big dream starts small: For the second time running, the PLAYMOBIL designers have created the miniature of an iconic Porsche sports car. The Porsche 911 Targa 4S is the latest addition to the PLAYMOBIL Porsche family.

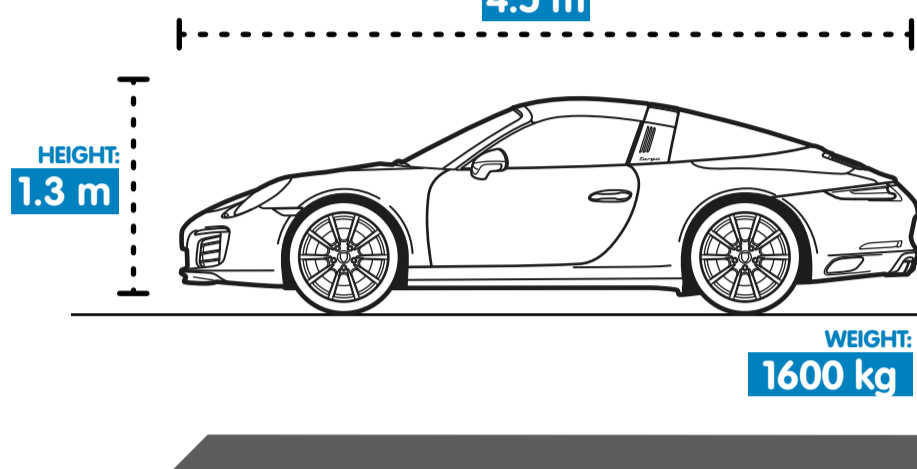

TIMELESS ELEGANCE

The Porsche 911 Targa

A legendary and classic sports car, the Targa has always held an important place at Porsche. More than 50 years ago, the Targa was designed as a 'safety cabriolet' and became with its style-defining roll bar a design icon. With the new fully automatic roof system, the Targa has reached perfection.

Since 1965, the iconic 911 models with removable roof are called 'Targa'. A key characteristic of the legendary sports car is the solid roof frame with the 'Targa' inscription.

TARGA'S LITTLE BROTHER

The design of Targa's little brother, the PLAYMOBIL Porsche 911 Targa 4S, is true to its lifesize counterpart at a scale of approx. 1:20. The construction drawings of the real 911 served as a model!

LEGENDARY TARGA ROOF

The new Porsche 911 Targa 4S from PLAYMOBIL is not only equipped with the sharp rear design and innovative lighting effects, but also with the typical legendary Targa roof. The playset is completed by a showroom including furniture.

ITS ORIGINS

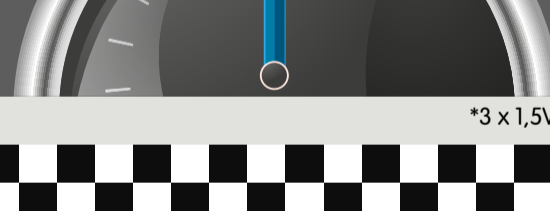

The Targa - The Shield

The expression 'Targa' means shield in Italian, and became known through the Targa Florio, a famous long-distance race that took place between 1906 and 1977 in Sicily.

From 0 to 100
The Porsche 911 Targa 4S can accelerate from 0 to 100 km/h in 4.2 seconds!

Top speed: 301 km/h
Displacement: 2981 cm³
Power: 309 kW (420 hp)
Drag coefficient: 0.30 cw

4,2 sec

Despite not having 420 horsepowers, the PLAYMOBIL Porsche also loves to speed.*

*3 x 1,5V AAA batteries required for lighting effects

Faster than a bird...

A hummingbird moves his wings 3000 times per minute. The turbocharger of the new Porsche 911 Targa 4S turns 200,000 times per minute - but still does not fly.

ENERGY EFFICIENT

With more than four decades of experience in turbo engines, as well as in race cars, Porsche designed the innovative turbo engines of the new 911 to perform even better and burn less fuel. The latest motor uses almost twelve percent less energy, and declined its fuel consumption by up to one liter per 100 kilometers, depending on the model.

Fuel consumption
Urban: 10.4 l/100 km
Extra urban: 6.7 l/100 km
combined: 8.0 l/100 km
CO2 emissions in g/km: 184

VERSATILE

A sports car for every occasion

Coupe or convertible? With the PLAYMOBIL Porsche 911 Targa 4S, just take off the roof and experience the feeling of driving an open sports car. Let's go on a ride!
