

PORSCHE

Sports car meets driving fun in everyday life

The new Porsche Macan GTS from PLAYMOBIL

Sporty design, optimal performance, and plenty of space.

THE PORSCHE MACAN GTS - MAXIMUM PERFORMANCE MEETS SUITABILITY FOR EVERYDAY USE

Porsche

Thanks to its unique qualities, the new Porsche Macan GTS offers even more driving pleasure and gives even more of that Porsche feeling. This solidifies Porsche's claim once again that the Macan is a sports car among their compact SUVs.

Height: 1.609 mm - Length: 4.692 mm - Total weight: 2550 kg

PLAYMOBIL Porsche

The Porsche Macan GTS is already the fourth Porsche model to be implemented with true detail as a PLAYMOBIL miniature. Like its great role model from Zuffenhausen, the PLAYMOBIL model is a sports car with the additional power and versatility of an SUV. Finally there is a Porsche with enough space for the many hobbies and leisure activities of the PLAYMOBIL population. Whether it's used for summer vacations, sports, or horse riding, all luggage, sports equipment, or riding equipment can be easily stored in the spacious trunk.

Height: 120 mm - Length: 285 mm - Weight: 816 g

DISTINCTIVE, POWERFUL, AND SPACIOUS

Those who prefer to blaze their own trail do not follow the path of others. This is where the compact SUVs come in. With 5 doors, 5 seats, all-wheel drive, and of course an elevated seating position, the Porsche Macan can do even more. It brings intense driving pleasure, is compact, concentrated and powerful, and offers plenty of space for hobbies, leisure time and sports. It is suitable for everyday use, but never mundane. The Macan is available in seven different versions, from the dynamic entry-level model to the sporty S-version and the performance-enhanced GTS model. All Macan models are developed, tested, and built according to the Porsche philosophy and combine craftsmanship with a love of detail. The Porsche Macan brings sportiness from the race track to everyday life.

Like the original with 360 hp, the Porsche Macan GTS from PLAYMOBIL also leaves its own mark. The exterior captivates with its powerful SportDesign front end, exclusive sideblades, and a real sport-seats for driver and passenger. A real top-class athlete all round! The new GTS version of the Porsche Macan is inspired by racing, just like all Porsche models with this title. This sports car, among all the SUVs, also impresses with its suitability for everyday use. It includes a child seat that ensures the safety of the smallest of passengers and there is enough room for luggage in the spacious trunk.

Top speed: 255 km/h

Power: 360 hp

Type of drive: all-wheel drive

Capacity: 3 mL

in 5,2 sec from
0 to 100 km/h!
