The iconic sports car, 911 Carrera S, and its counterpart in play

## LEGENDARY DESIGN

Timeless.  
Dynamic.  
Sleek. Elegant.

The design of the Porsche 911 has been reworked only six times during the last five decades. Across all generations, the 911 can be uniquely recognized by its shape and style.

Dynamic little brother:

The design of the PLAYMOBIL Porsche is true to its lifesize counterpart – at a scale of 1:20. The construction drawings of the real 911 served as the model!

## HISTORY

2015

The PLAYMOBIL Porsche had its first appearance at the International Toy Fair in Nuremberg.

The PLAYMOBIL figures and vehicles were invented by Hans Beck in the early 1970s.

1963

The first 911 was unveiled at the IAA in Frankfurt as type 901 (renamed later). (IAA = International Car Exhibition)

As early as 1900, Ferdinand Porsche designed the first hybrid vehicle.

## GLOBAL SUCCESS MADE IN GERMANY

Stuttgart-Zuffenhausen

PORSCHE

More than 820,000 Porsche 911s have been produced in Stuttgart-Zuffenhausen since 1963.

The PLAYMOBIL Porsche is built at the largest PLAYMOBIL production site in Diethofen, Germany.

## FROM 0 TO 100

The Porsche 911 Carrera S can accelerate from 0 to 62 mph in 4.5 seconds!

4,5 sec

Despite being 400 horsepowers less – the PLAYMOBIL Porsche loves to speed, too.\*

\*Fuel consumption: 3 x AAA batteries (light effects)

Since 1948, approximately two thirds of Porsche's 30,000 racing victories have been won by the 911.

The engine is located in the back, placing as much weight as possible on the rear axle!

247 mph is the fastest recorded speed reached by a Porsche.

247 mph

PLAYMOBIL figures have been racing since 1979. The number of victories in playrooms is unknown, but that number is predicted to rise, thanks to the 911!

The PLAYMOBIL Porsche accelerates solely by hand, but should not be underestimated!

How fast can the PLAYMOBIL Porsche go? There are no limits to the imaginations of little race drivers...

## THE VERSATILE SPORTS CAR

Coupe, convertible, or roadster-

more than 20 different versions of the 911 are available.

The speedster doesn't just look good on the race track. Take it for a joyride or on a family trip and show off your style!

Cool:

The PLAYMOBIL Porsche can be transformed from a coupe to a convertible and can even be equipped with exclusive accessories such as a rear and front spoiler and tire rims.
