*PLAYMOBIL is committed to greater sustainability!

Our PLAYMOBIL JUNIOR playsets are manufactured from at least 90% plastics that can be traced back to materials left over from food or paper production using the mass balance approach used in the circular economy and based on the ISCC 208 standard. These plastics are robust and easy to clean like all PLAYMOBIL products. We use at least 90% recycled cardboard and 100% recycled paper for our packaging and avoid plastic wherever possible.

You can find out more about the materials used and the mass balance approach in your local language by scanning the QR code.
