

If there is something to discover anywhere in the world, the four explorers Nick Northstone, Emma Easton, Will Weston, and their dog Sammy, are usually the first to visit. This time Emma, the brain of the team, has chosen a very special location...

THE DINOSAUR ISLAND

Let's go, guys,
we're almost
there!

Wow,
Emma...
you were
right.

Whew, Sammy,
you really are
heavier than
you look.

Whimper

Of course I was
right. My sources
are always
reliable!

A... but ... but,
haven't dinosaurs
been extinct for
millions of years?

Apparently
not in this
valley.

Something
seems to have led
to their survival,
and we need to
find out what!

Out of nowhere, an ancient map has
fallen into Emma's hands, showing the
way to a long forgotten island where
real dinosaurs still live today!

According to my map, the island stretches for a few miles. I would be interested to know what this strange ruin is all about!

Then we should not lose any time and start the descent.

Are we almost there?

We've only been on the road for 10 minutes ...

It's not far now. Look down there!

WOOF!

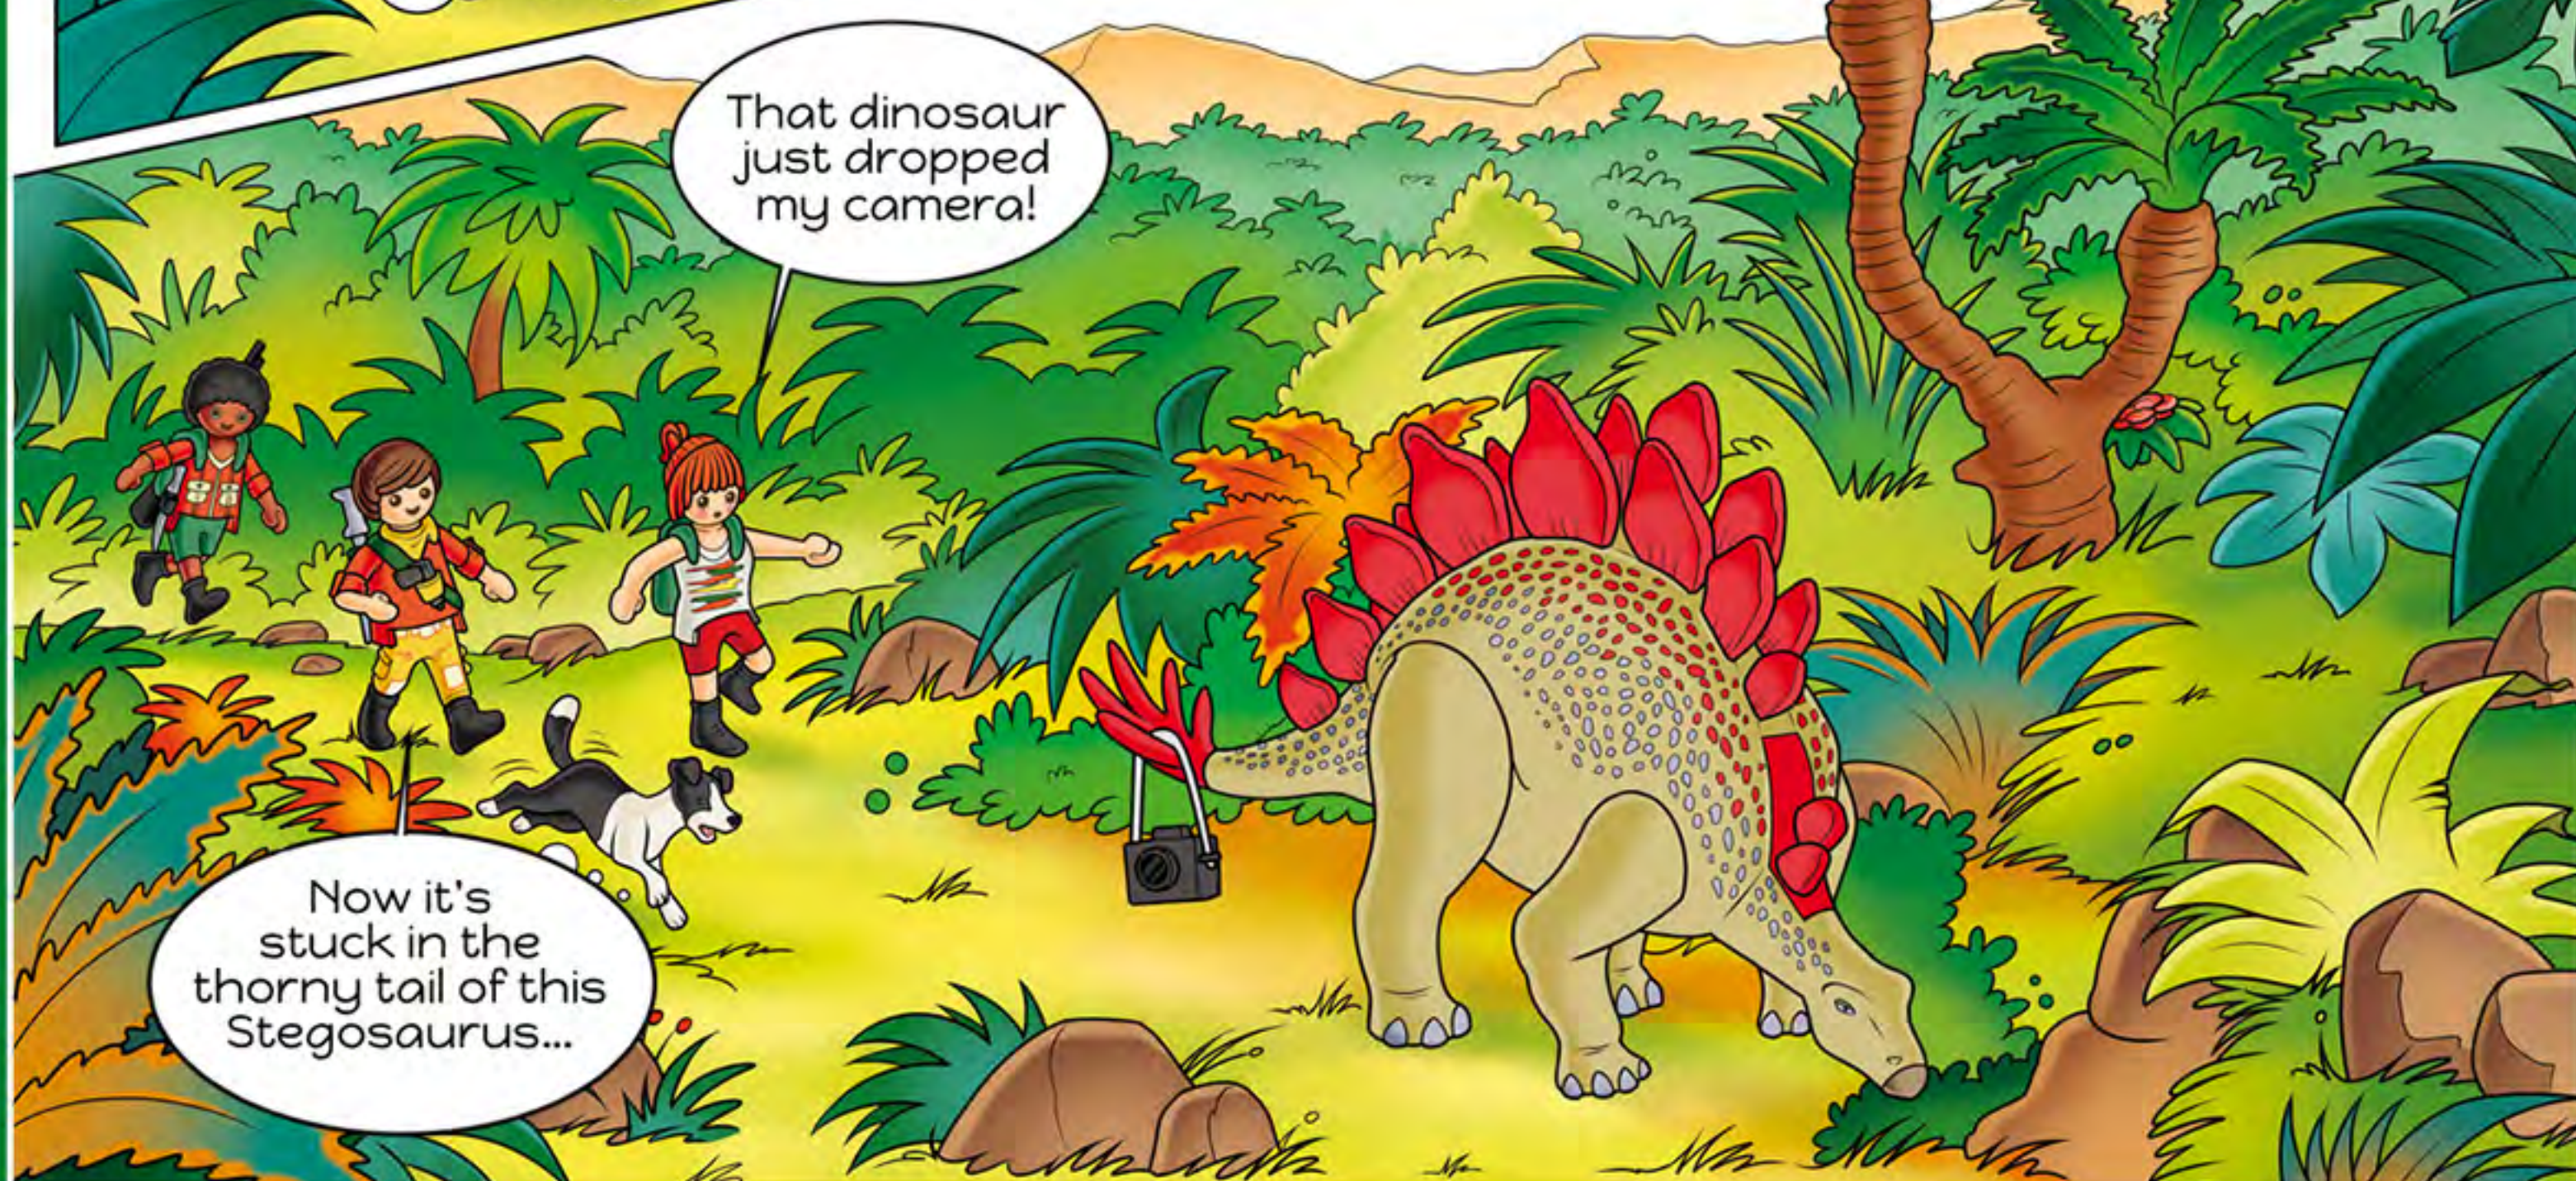

Wow... a Triceratops. I always thought he was the coolest when I was a kid!

Sniff

Did you know Triceratops means something like Triple Horn Face?

How beautiful. A real Triceratops with his baby!

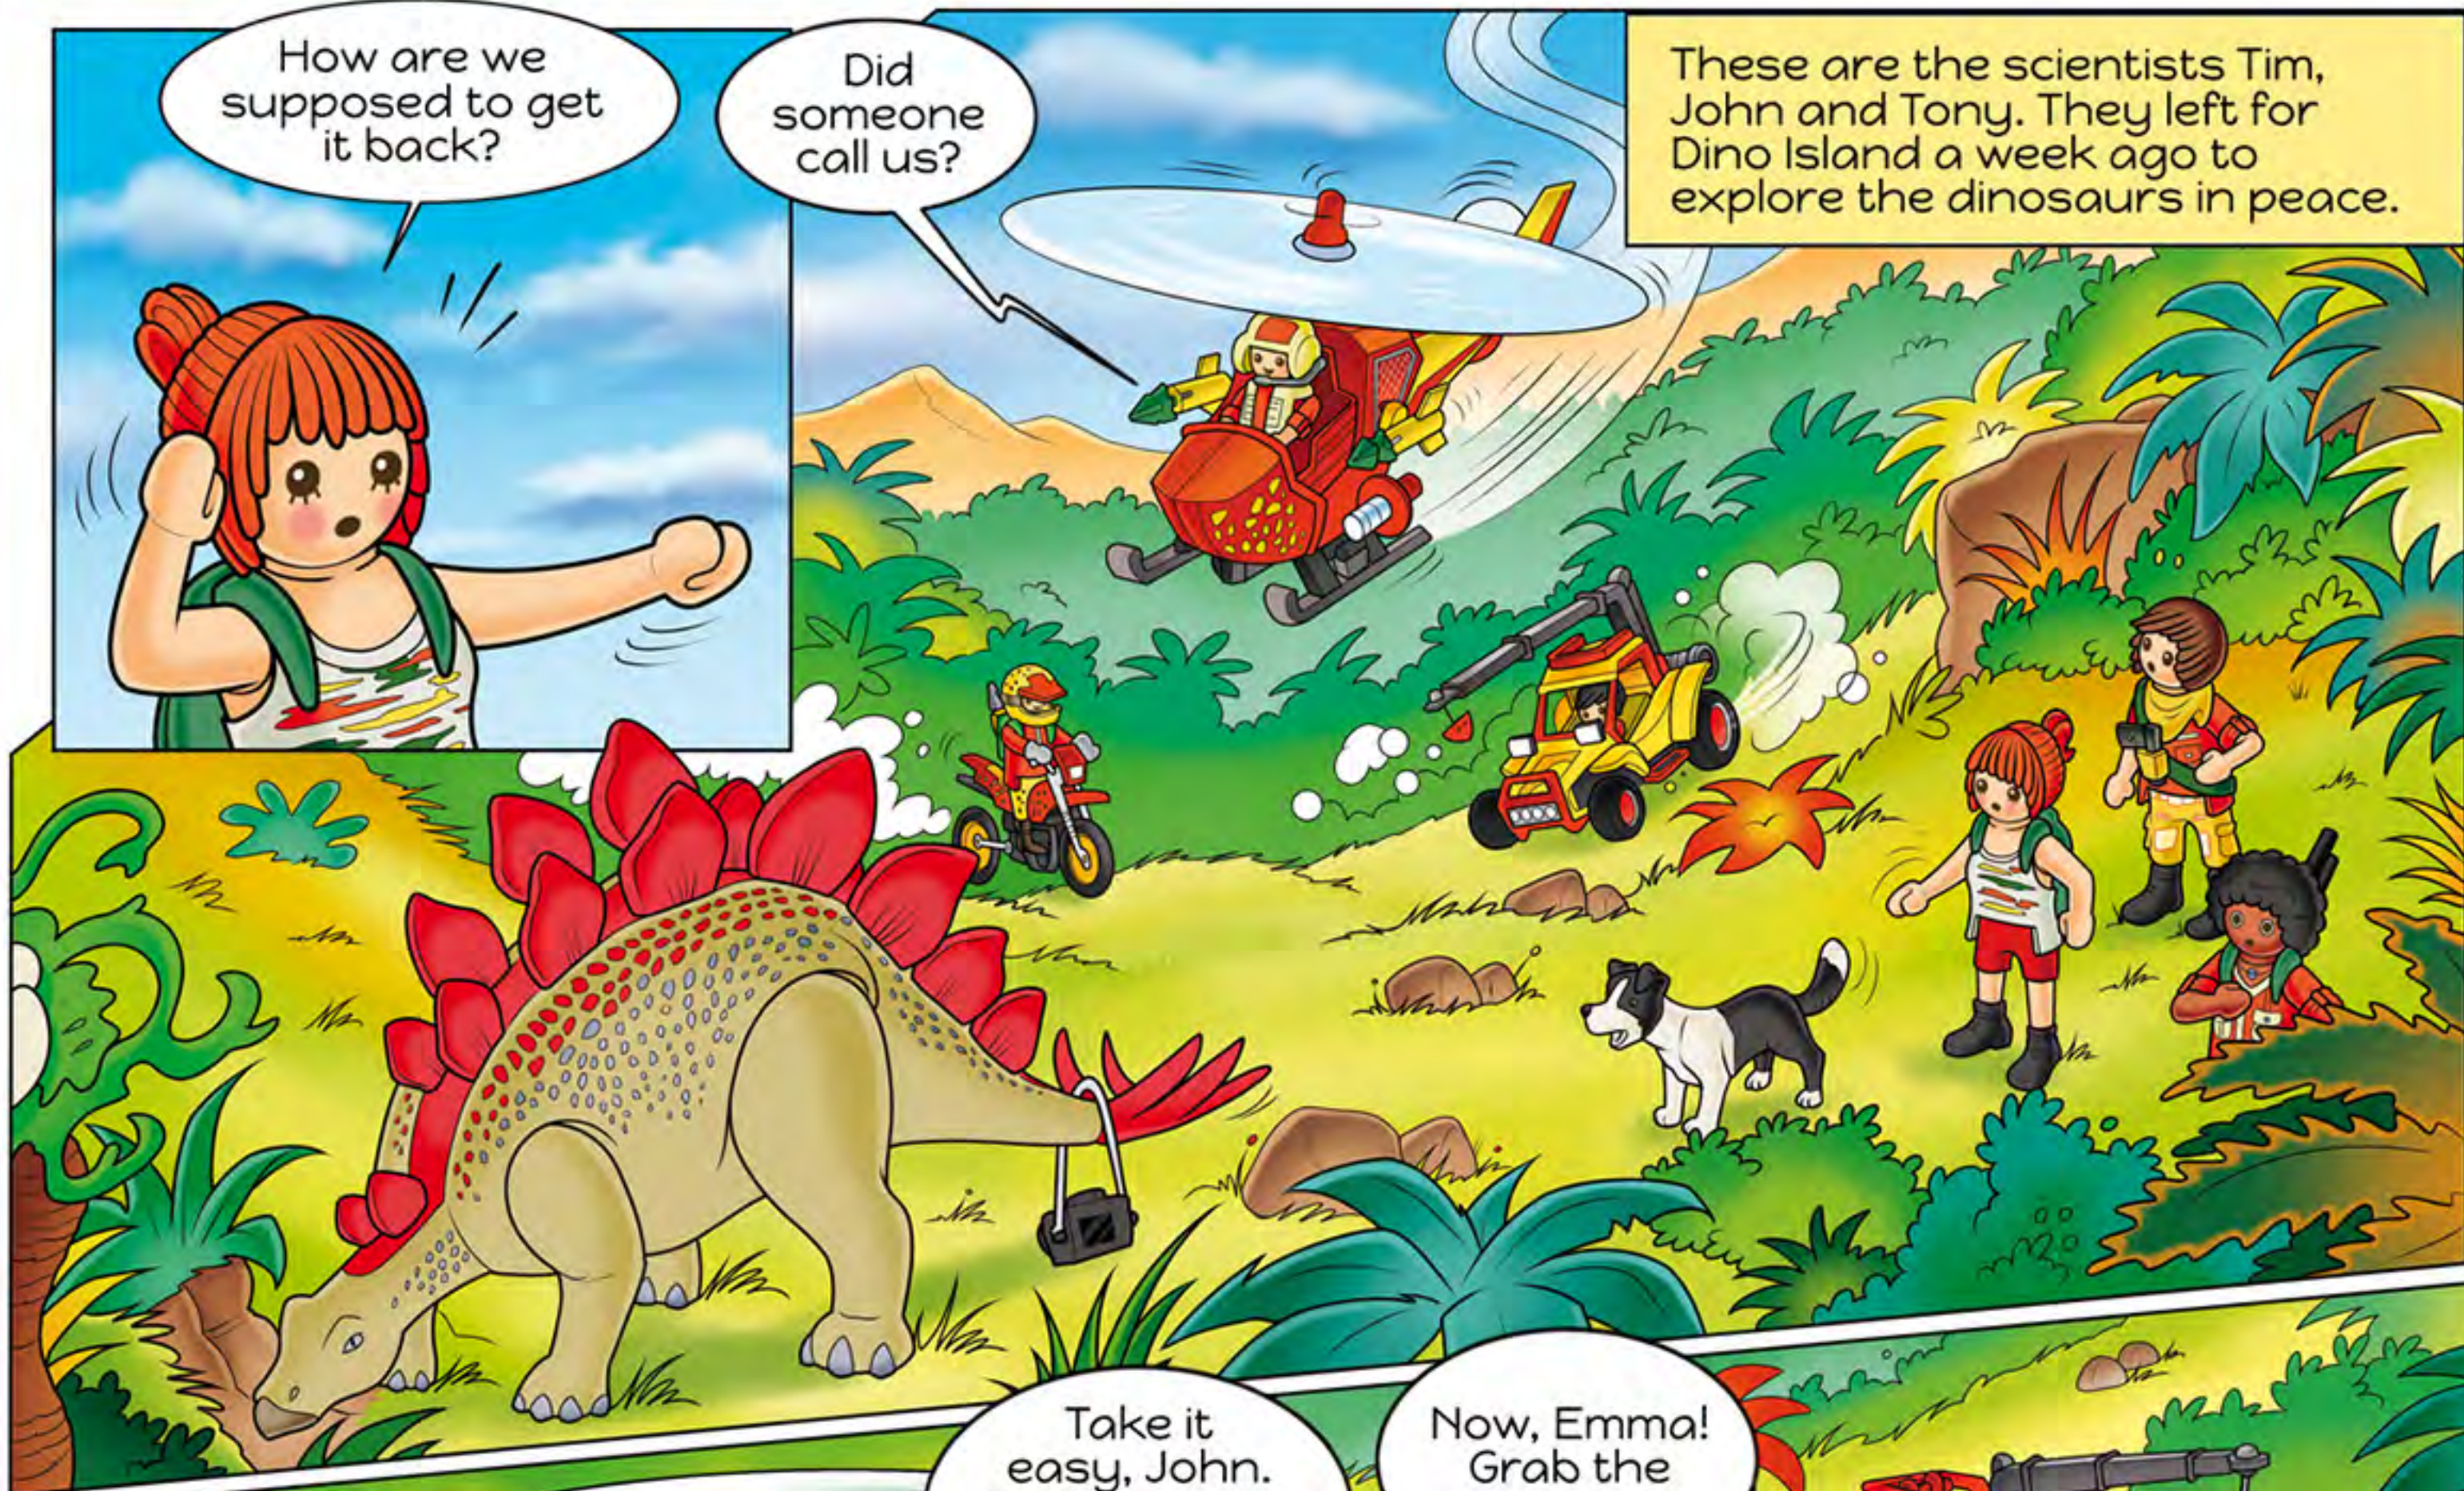

Nick, be careful. The dino mother is protecting her child.

How are we supposed to get it back?

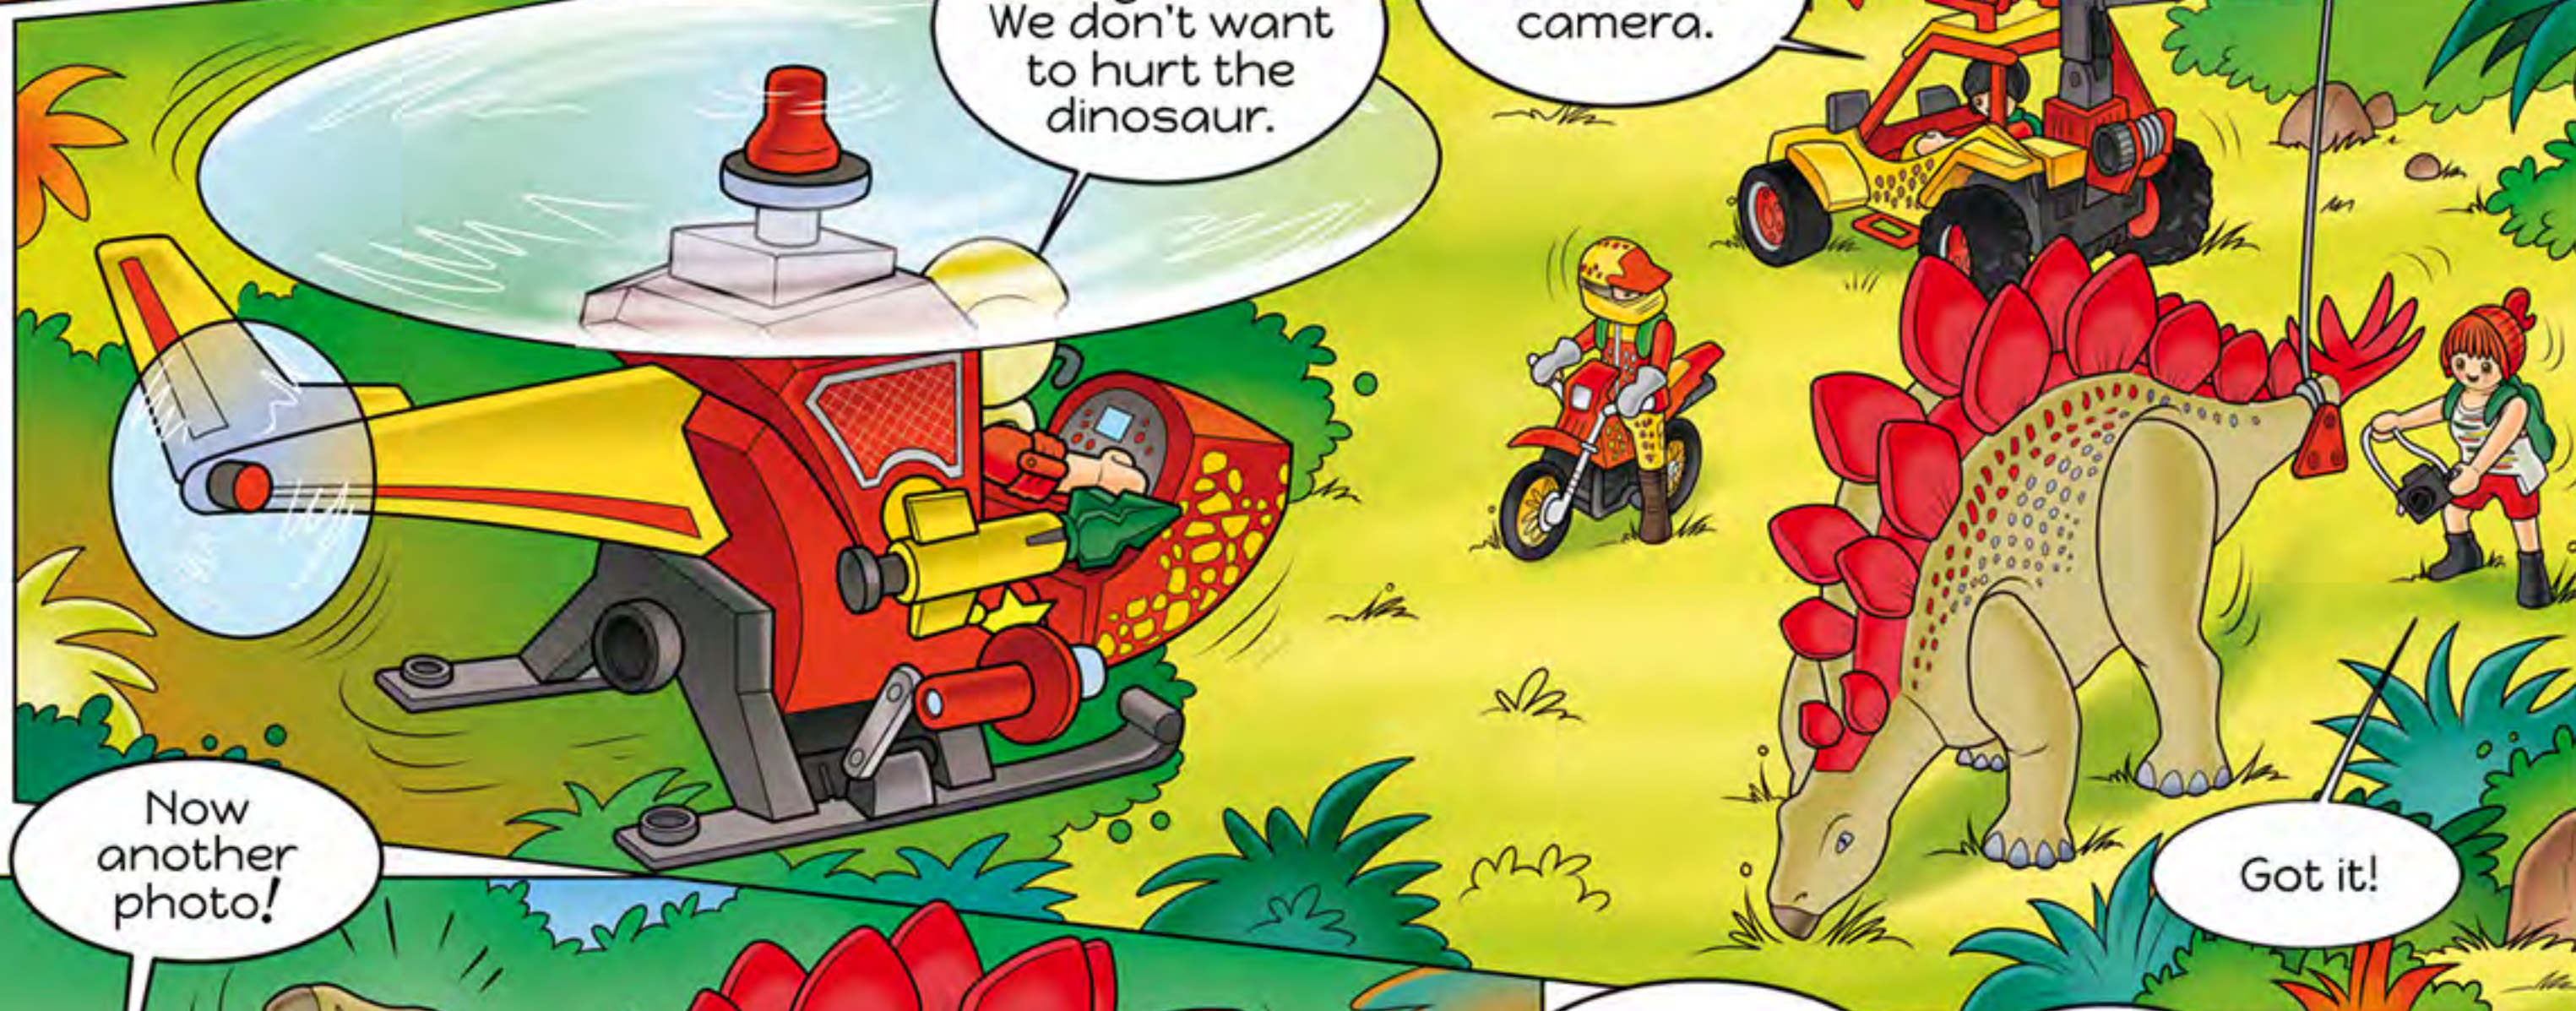

Did someone call us?

These are the scientists Tim, John and Tony. They left for Dino Island a week ago to explore the dinosaurs in peace.

Take it easy, John. We don't want to hurt the dinosaur.

Now, Emma! Grab the camera.

Now another photo!

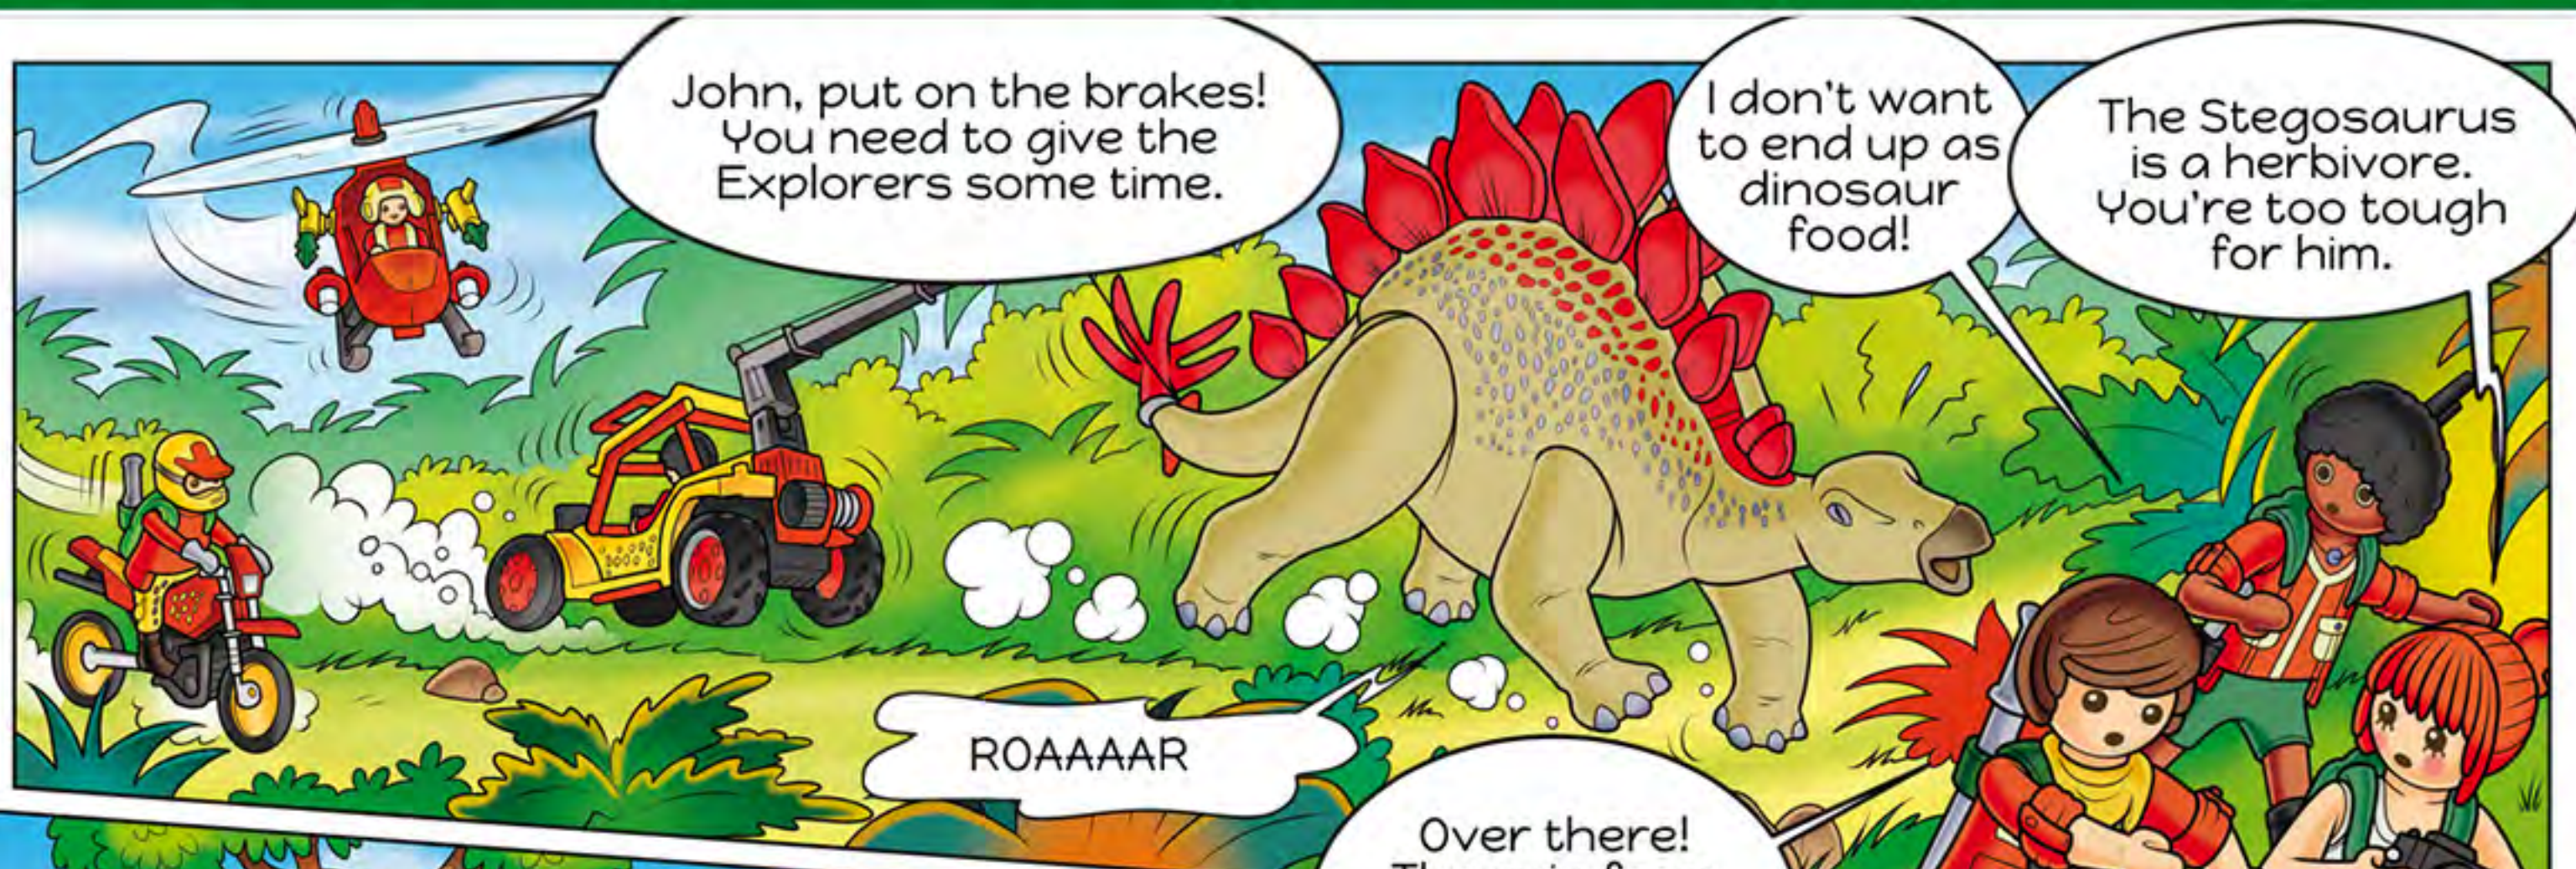

Got it!

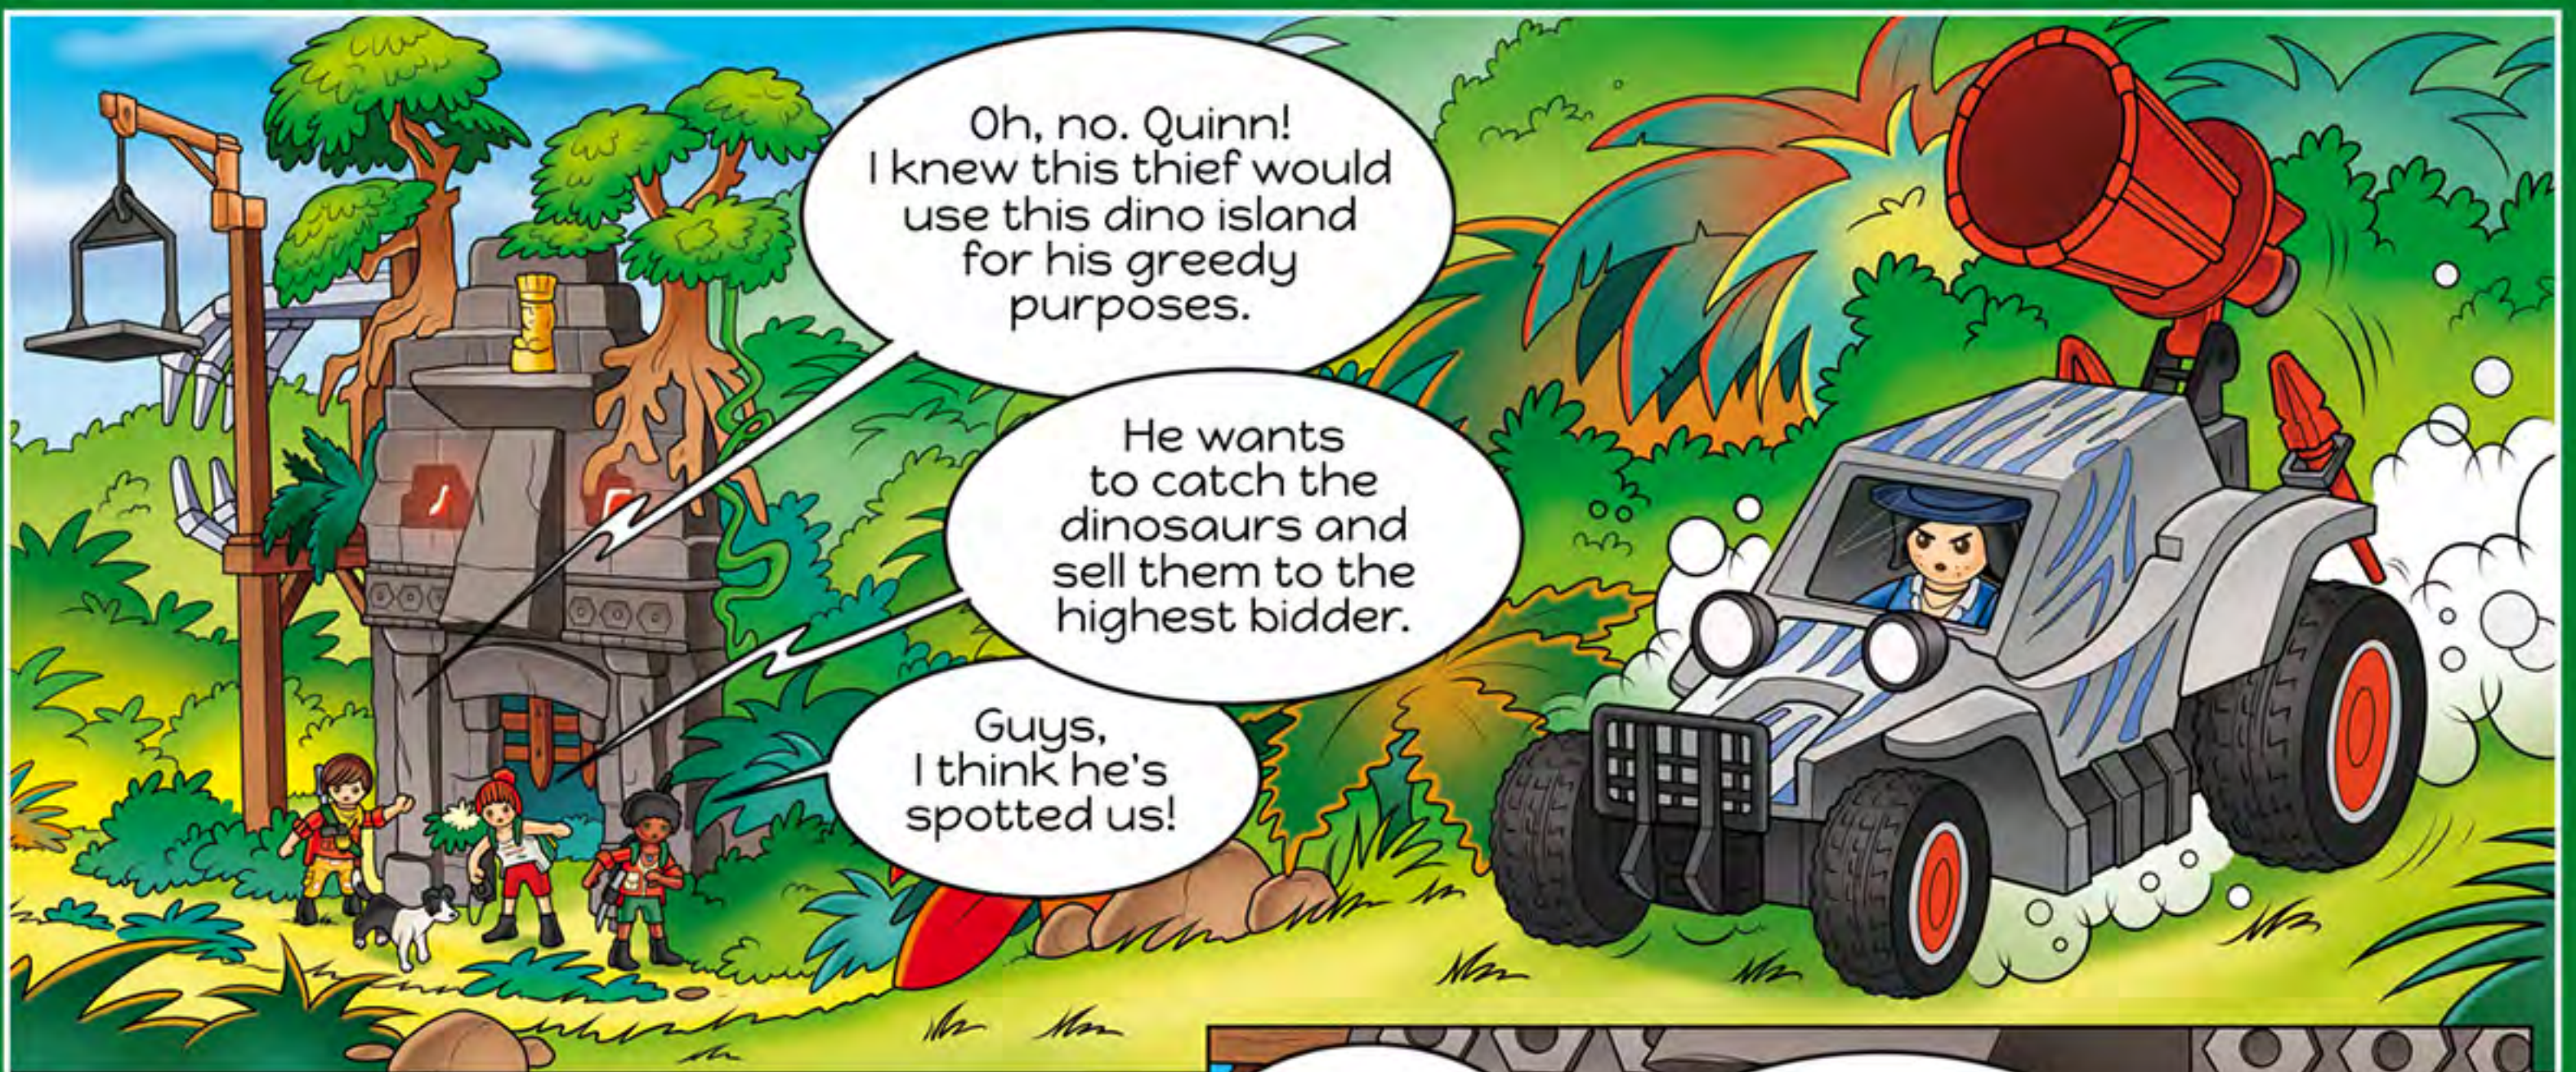

Oh, he didn't like that, did he?

Well done, Emma.

Let's get out of here!

Wow ...

The painting seems to be ancient.

Yes, and you only see it when artificial light falls on it. Do you know what that means?

I once read in my books about a plant of immortality. Maybe the dinosaurs ate it and survived to this day. We have to ...

... get it. I always wanted to live forever.

Find and destroy it before it falls into Quinn's hands!

Find? It's right over there.

It's beautiful.

This is the most wonderful discovery I've ever made.

Quick, grab it.

The big question is how do we get out of here? Let's try that ladder there.

WWWROOFFF
WOW
WOOF

Niiiiiiick! We did it!
And now we need
to distract the T-Rex.
Come on, you cute
Velociraptors.

ROAAAAR

GRRR GRRR
GRRR

Velociraptors
released!
Let's go backwards.

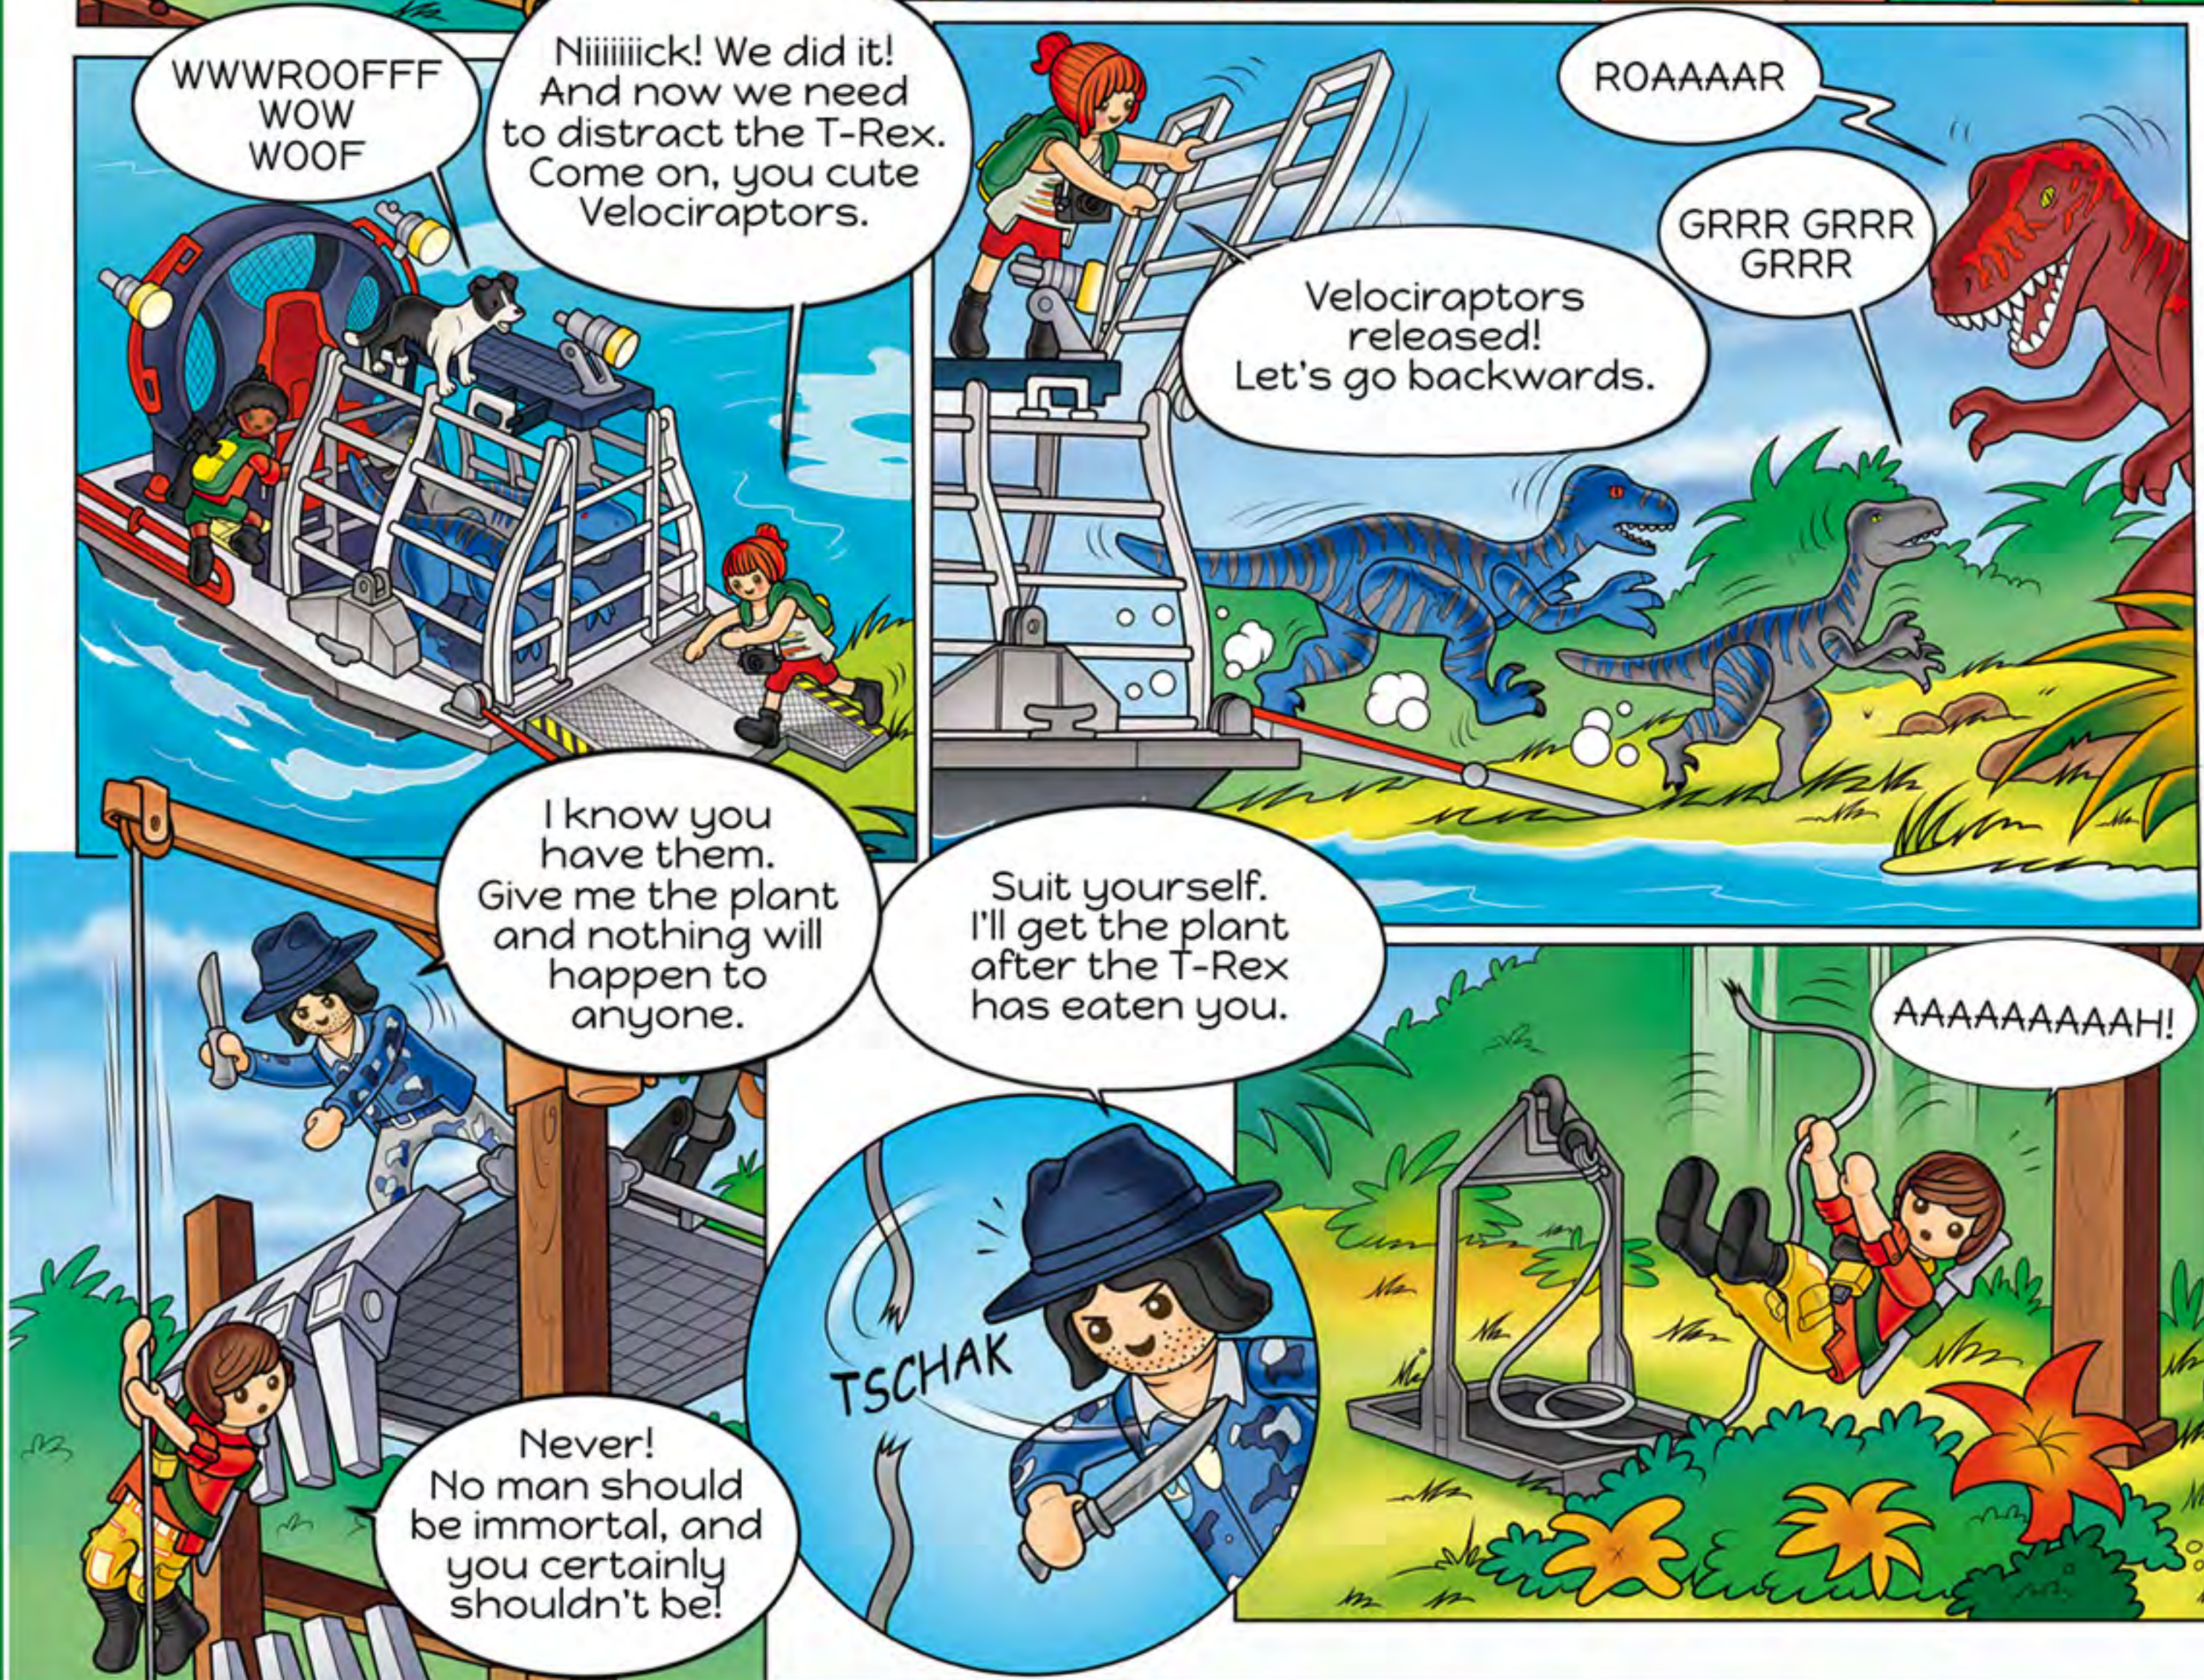

I know you
have them.
Give me the plant
and nothing will
happen to
anyone.

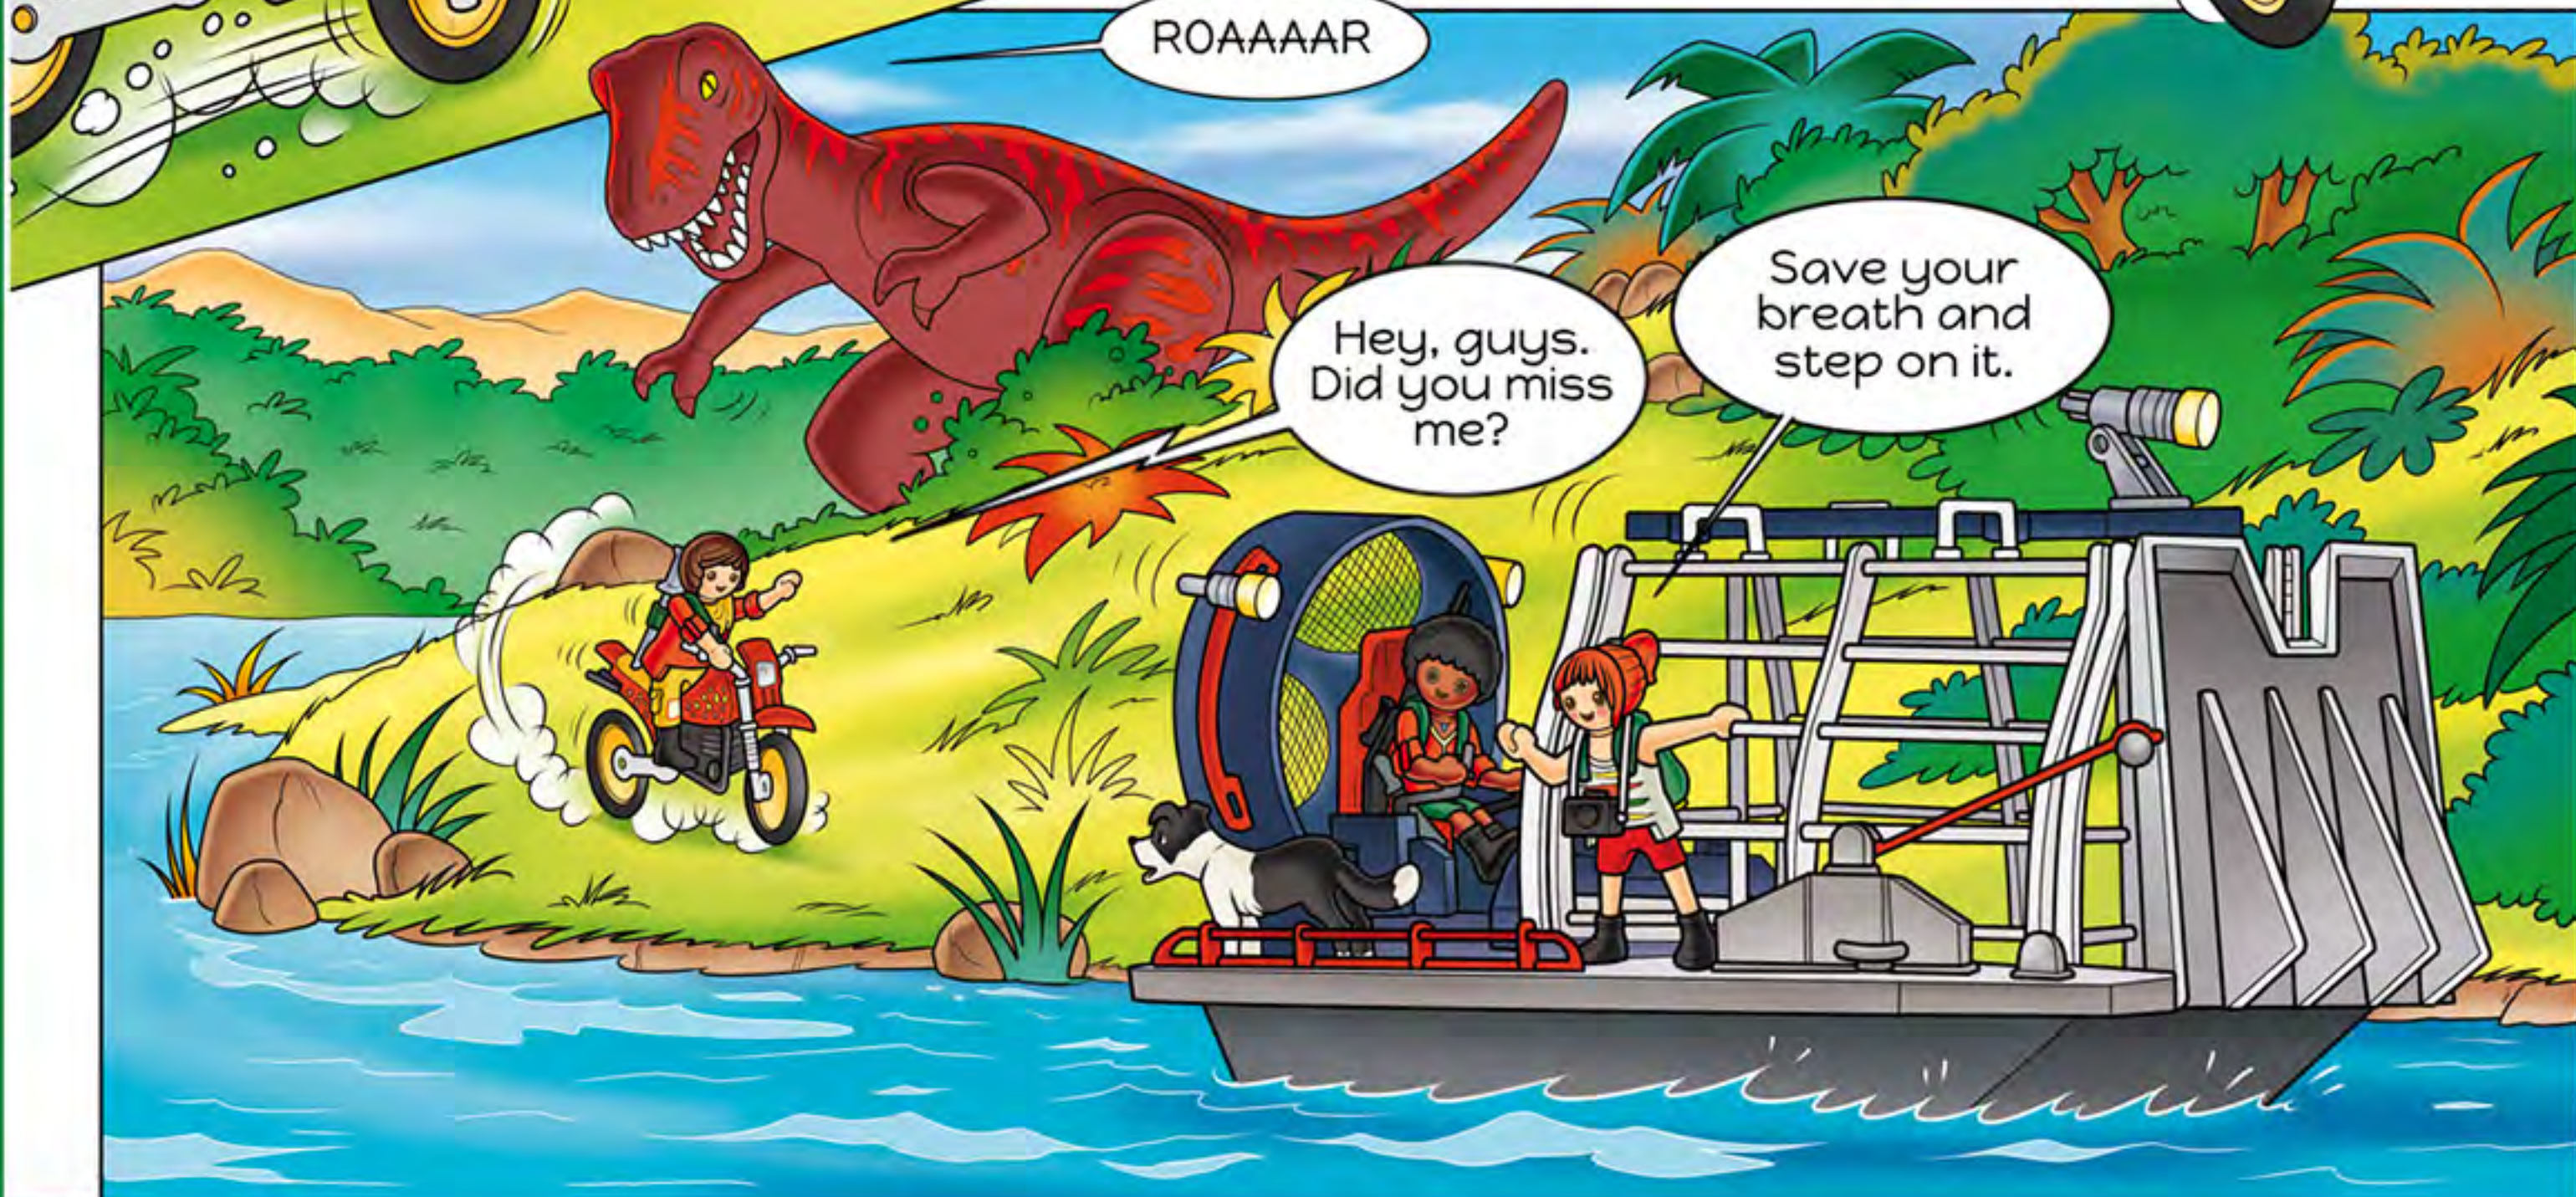

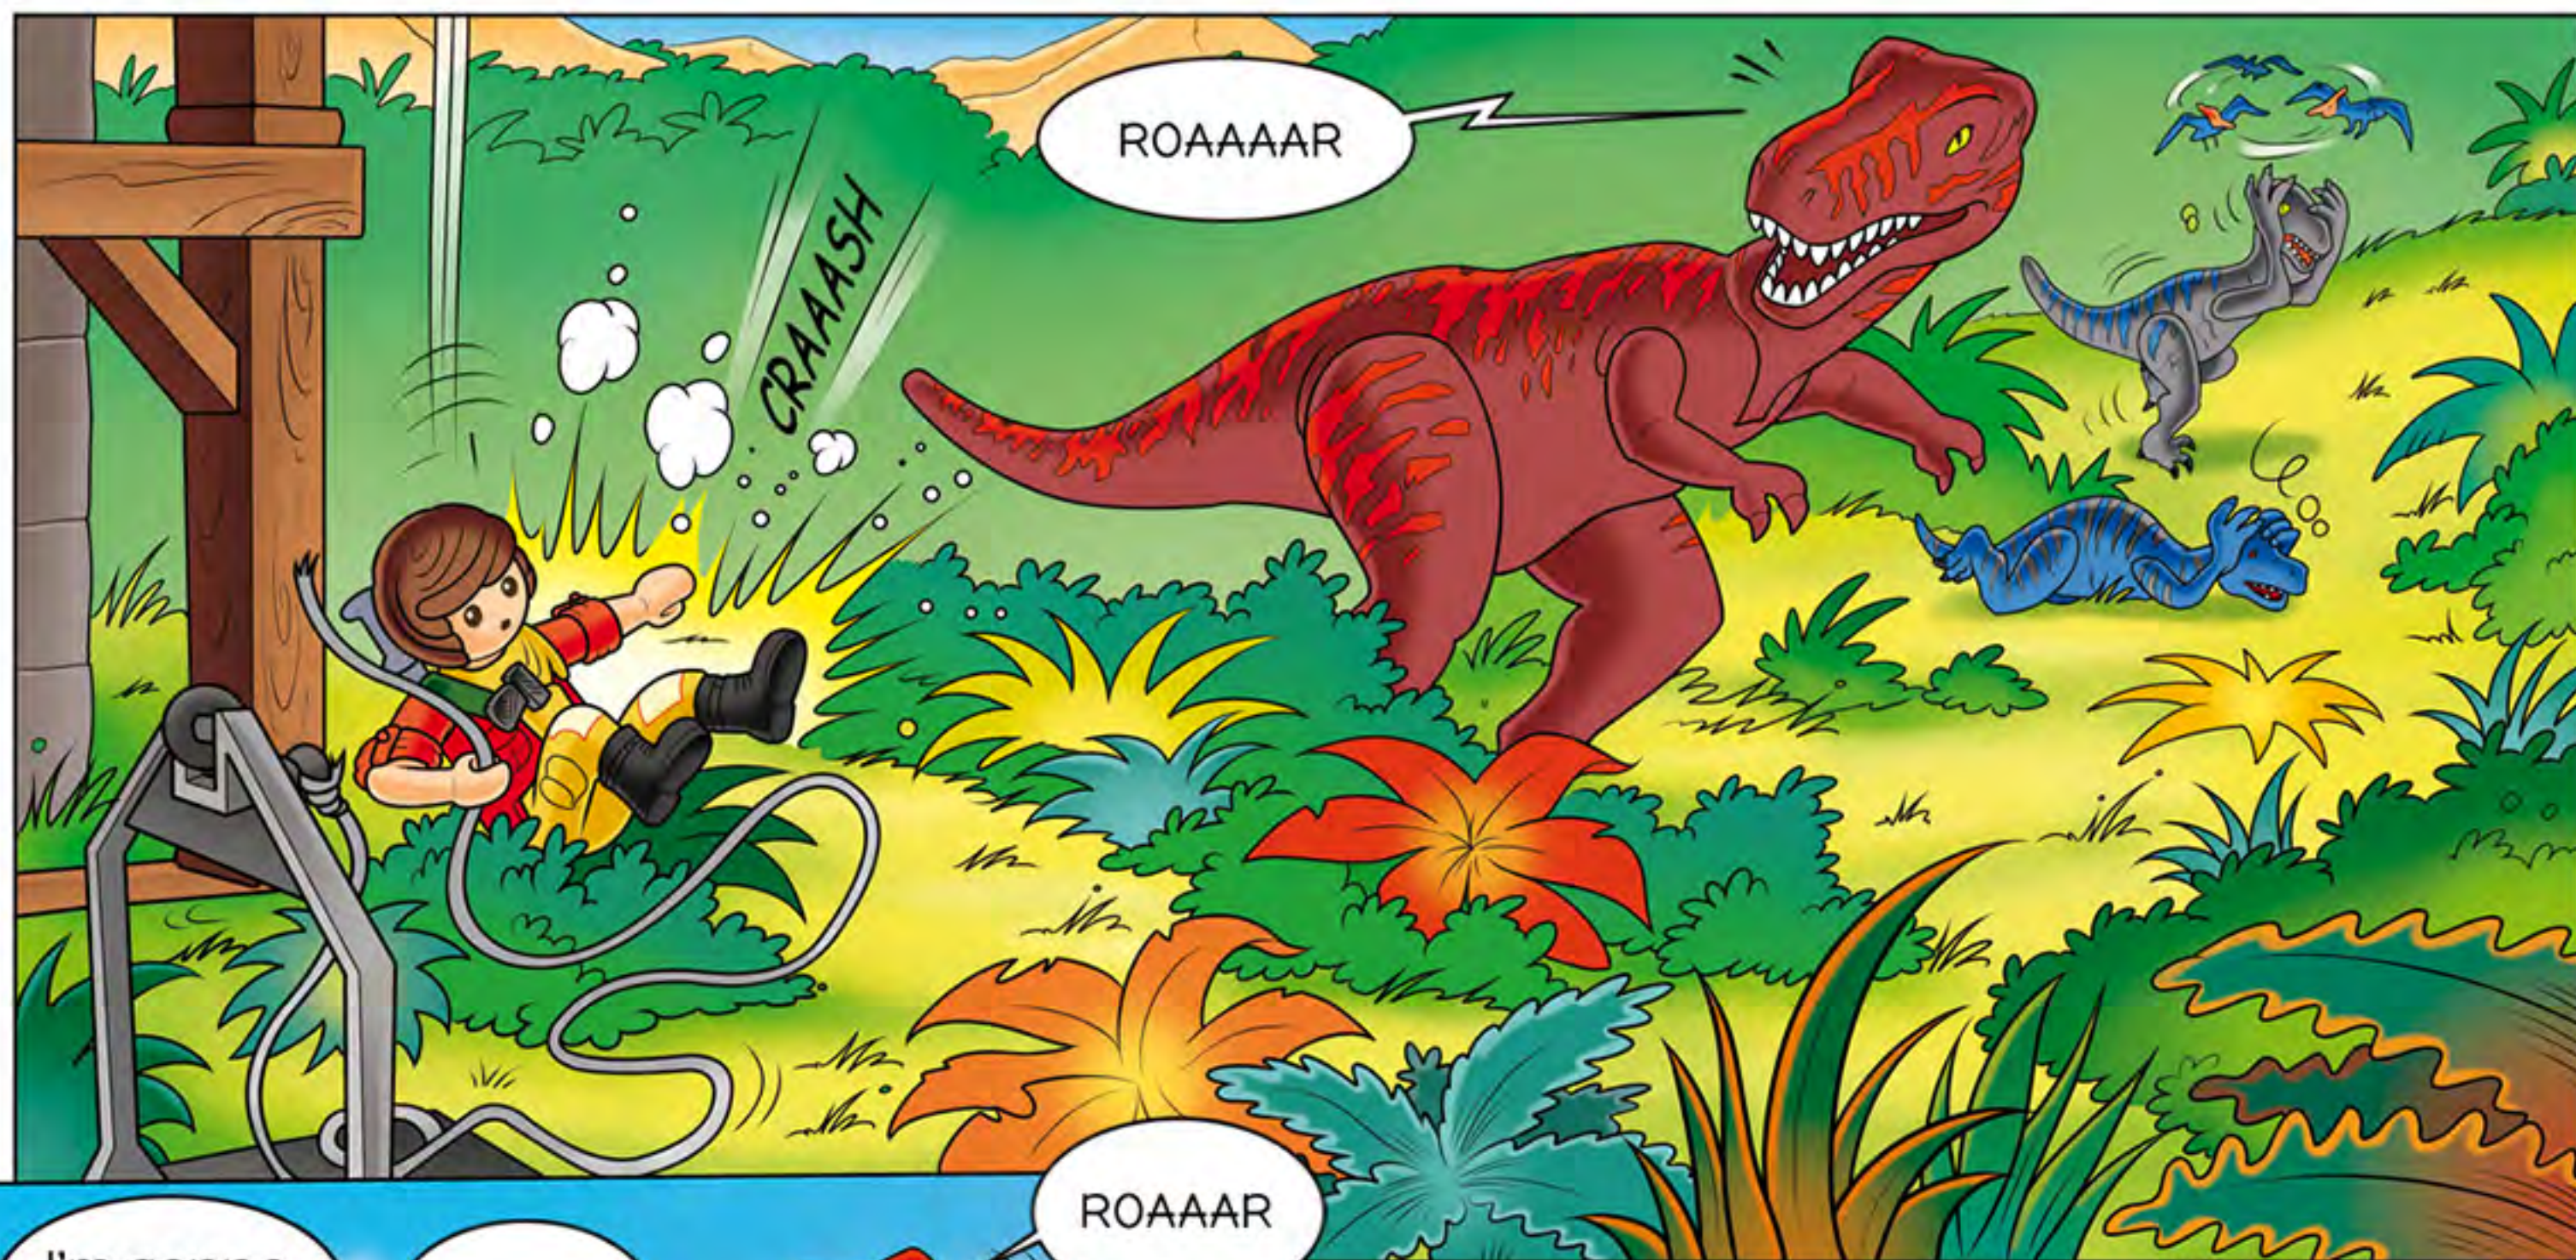

Suit yourself.
I'll get the plant
after the T-Rex
has eaten you.

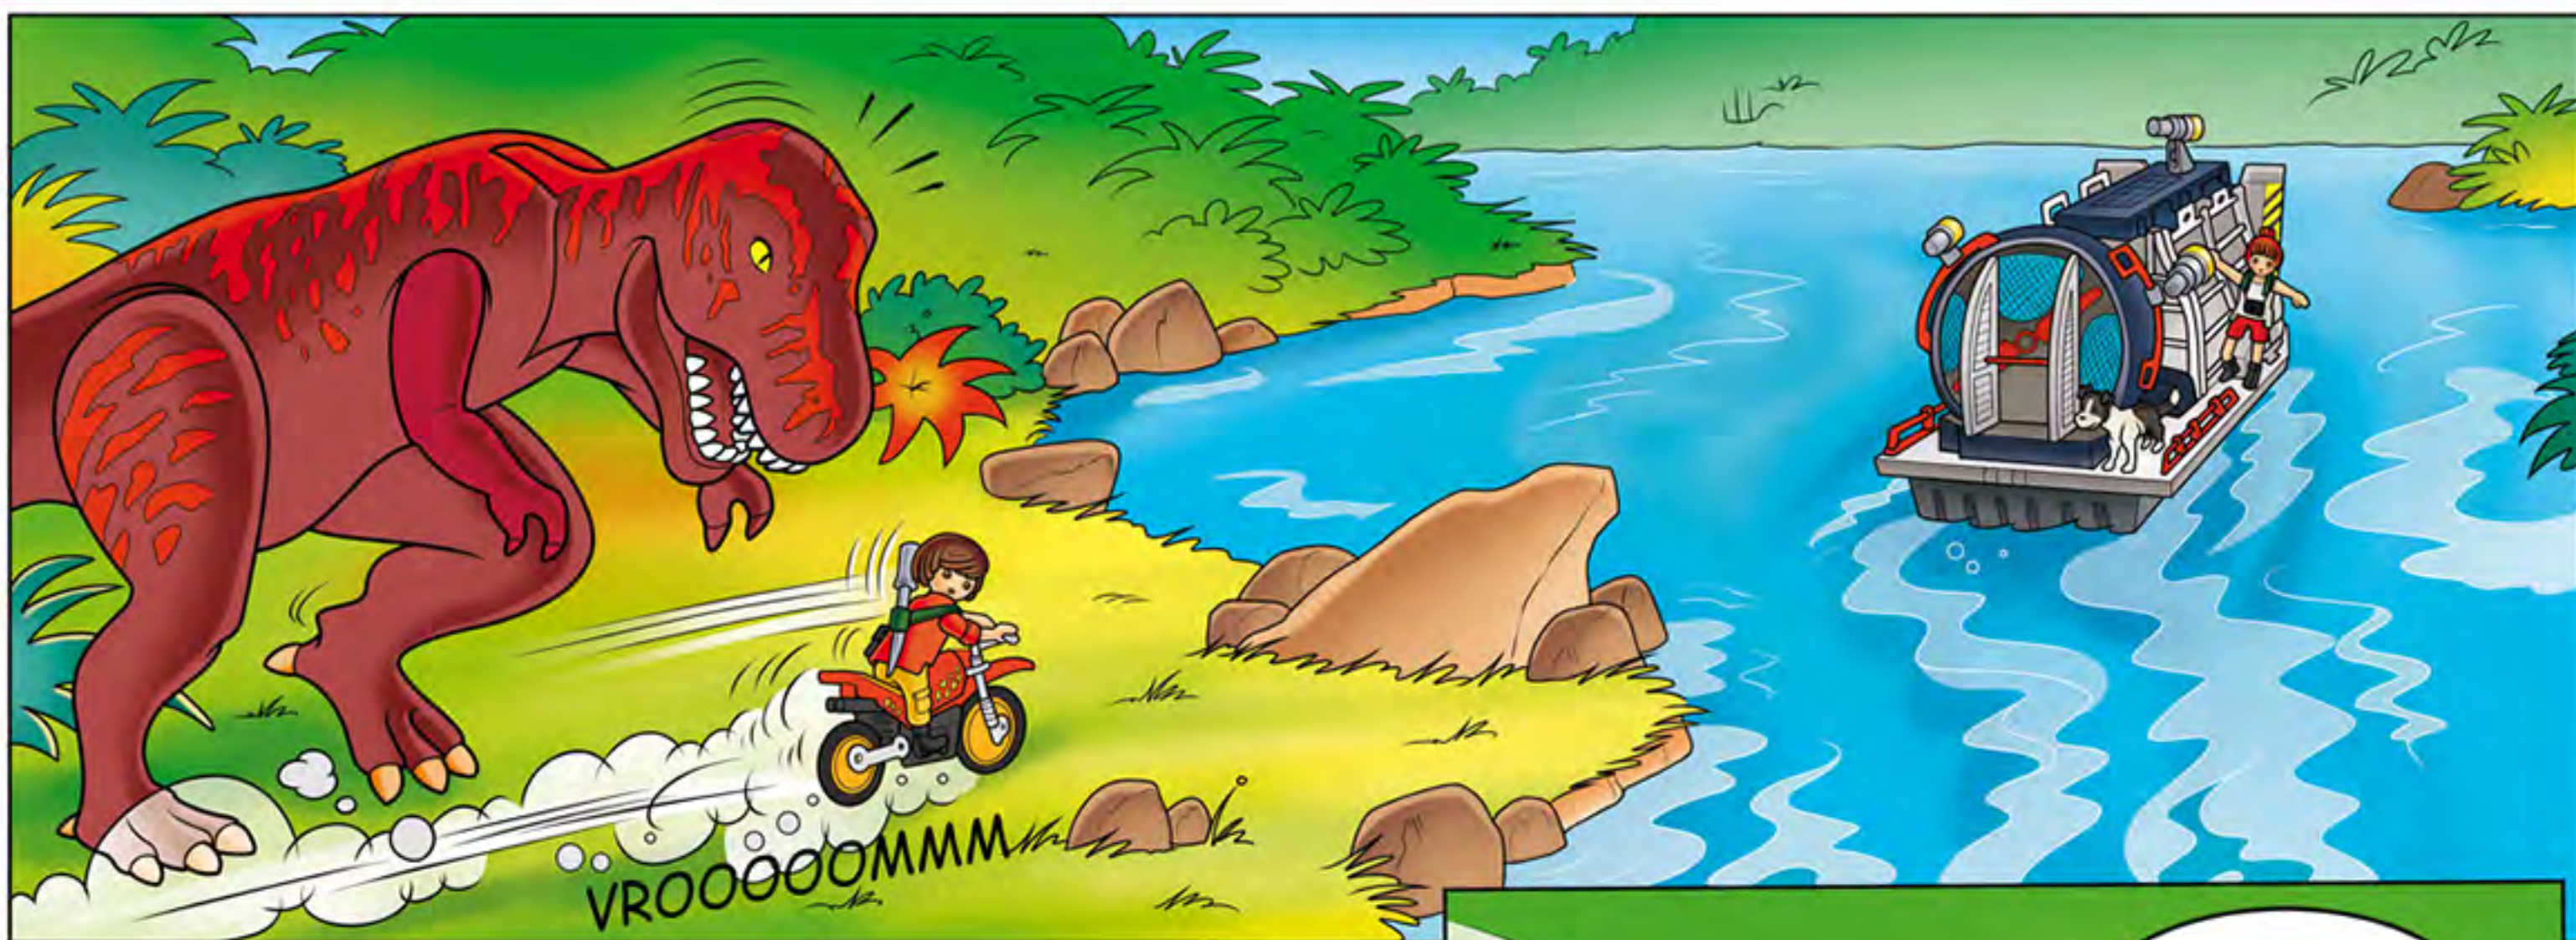

AAAAAAAAAAH!

Never!
No man should
be immortal, and
you certainly
shouldn't be!

TSCHAK

VR00000MMM

You can do it, Nick!

Yeah, what a stunt!

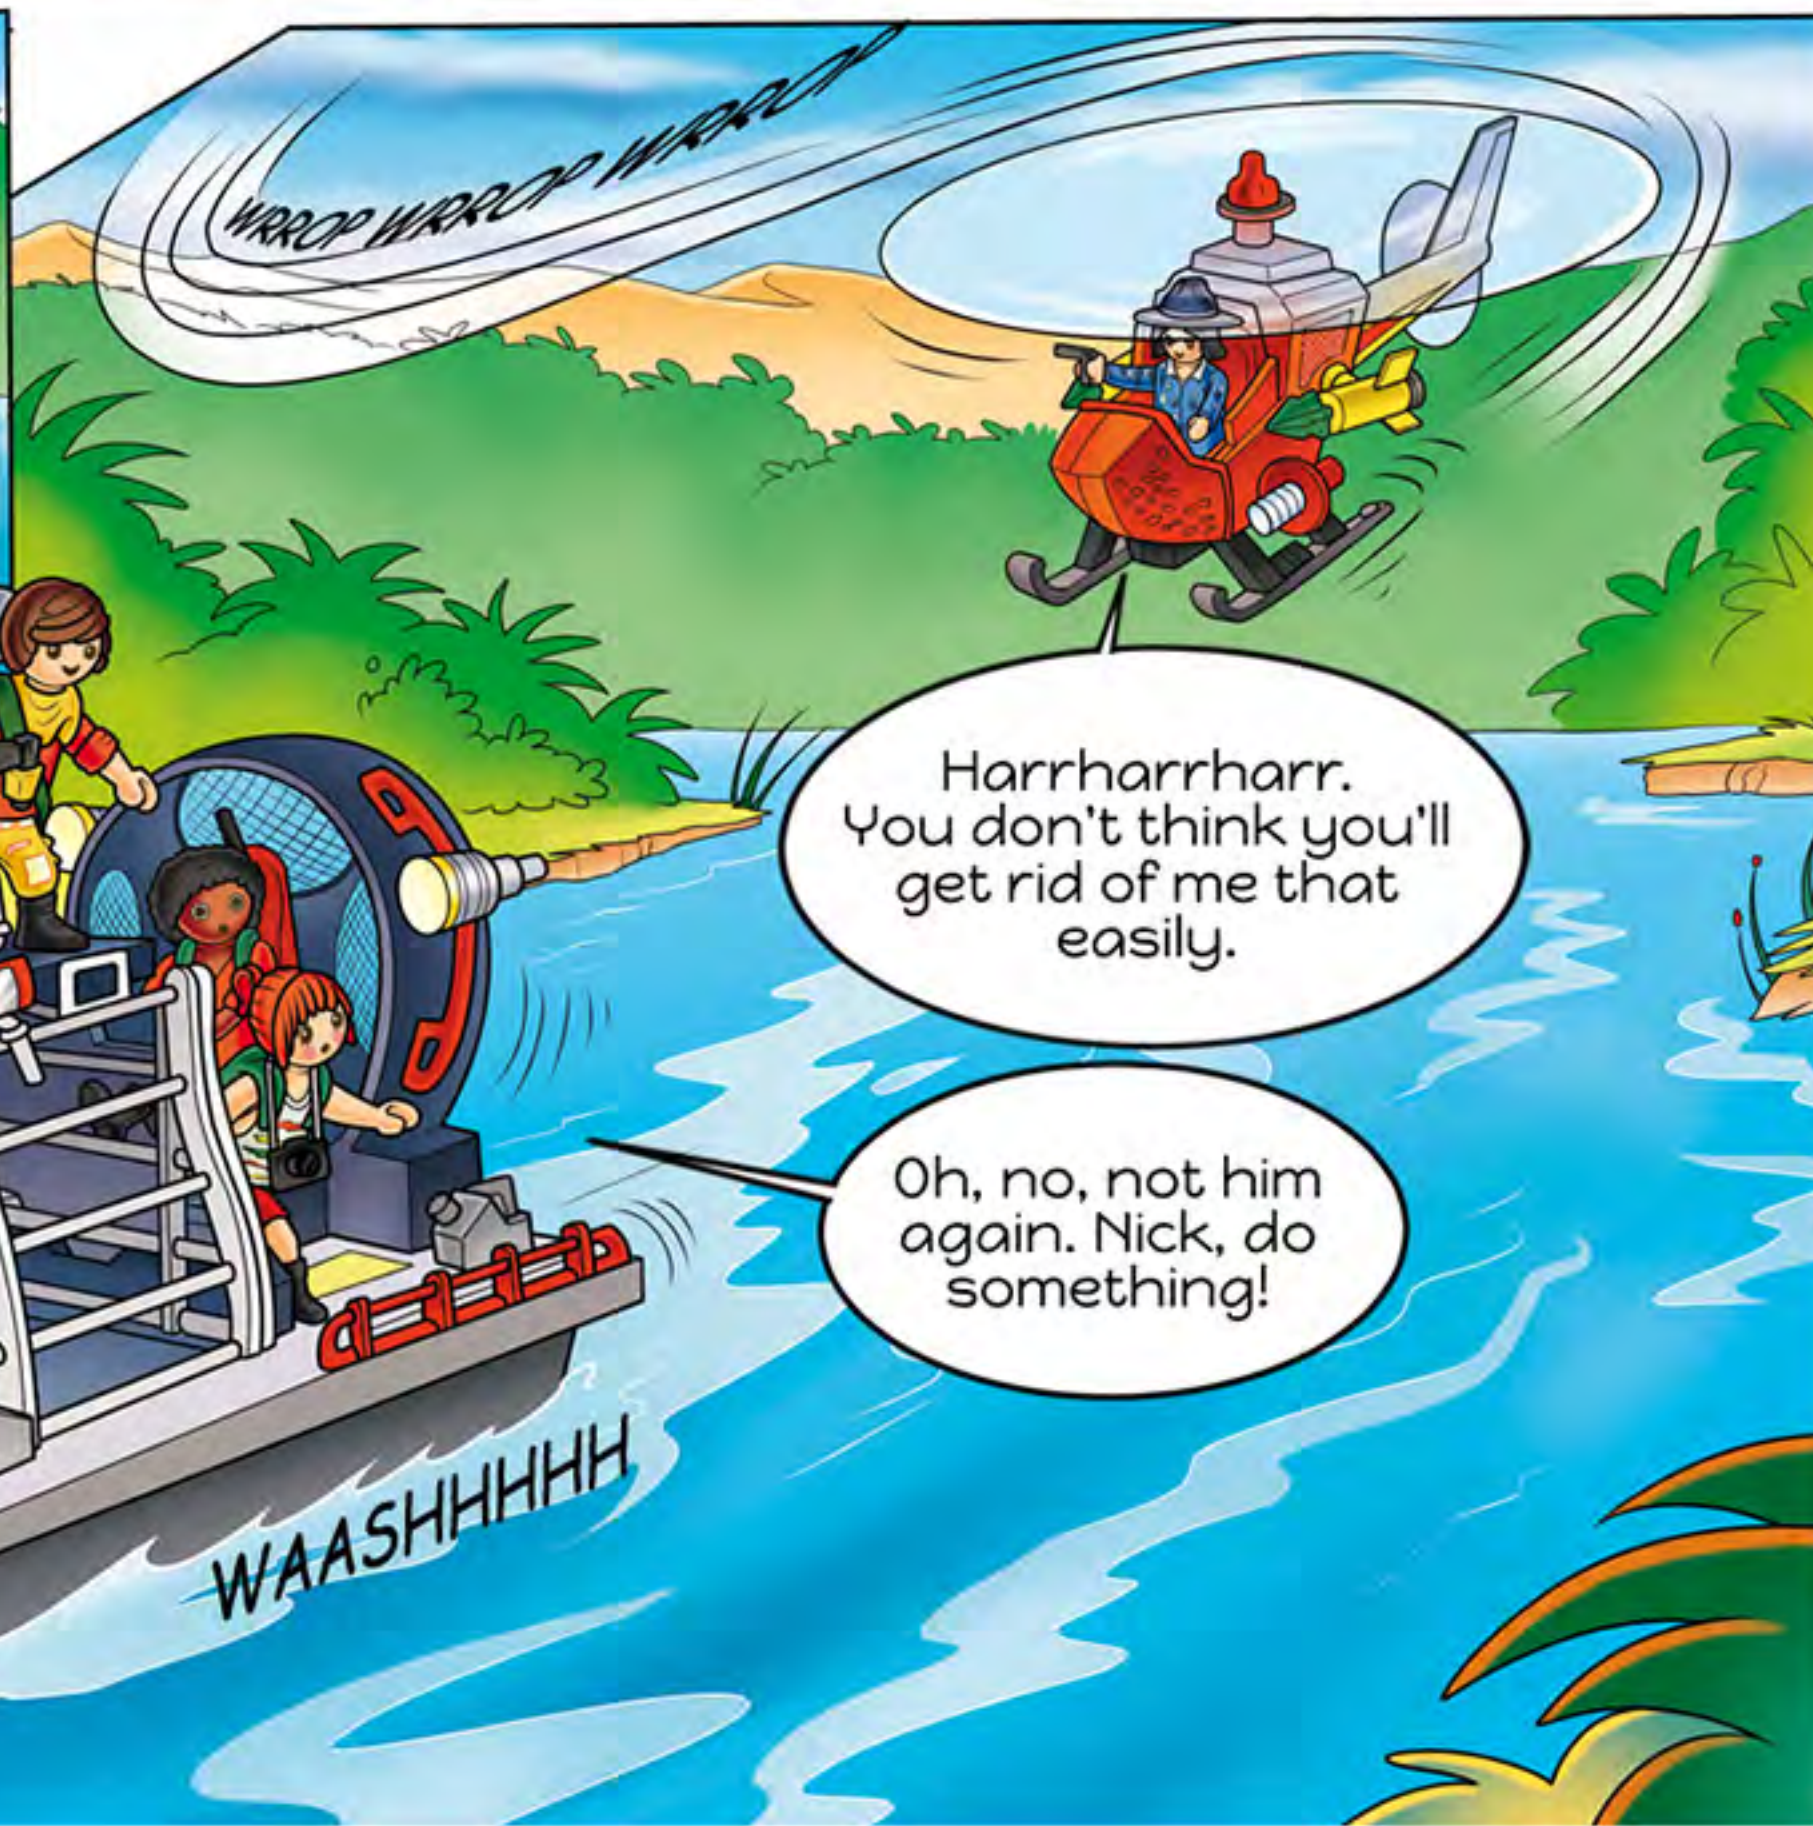

The flying dinosaur has landed.

THUMP

ROAAAR

Harrharrharr. You don't think you'll get rid of me that easily.

Oh, no, not him again. Nick, do something!

WAASHHHHH
